Mexico City Banks Asked for Funds to Pay National Railways Interest.

MORE BATTLESHIPS SENT

Connecticut, Ohio, and Kansas Recalled from Europe—Villa's Vanguard Starts South.

Special Cable to The New York Times.

MEXICO CITY, Nov. 28.—The town of Mazatlan, the most important port on the West Coast, was captured by the rebels yesterday according to advices received here to-day. It is not believed, however, that the fall of this fortress will end the fighting in the State of Sinaloa, as several attacks recently have been made there resulting in a general scrap on the part of the insurgents and many casualties.

Practically every boat leaving the place recently has carried a full list of passengers, including many foreigners. The capture of this point is considered extremely important in view of the fact that it isolates the West Coast and gives the rebels control of the entire State of Sinaloa.

Fort Altata was bombarded recently by the Federal gunboat Tampico without result. The Tampico was later joined by the Guerrero, which continued the bombardment without effect.

The financial situation is greatly preoccupying officials and business men. It is stated that the Government will soon need money amounting to several million dollars in the next two months. Interest on several State debts guaranteed by the Federal Government is unpaid. Interest on the National Railway bonds is due on Dec. 1 and Jan. 1, and the officials of the line say that they do not see how it can be paid. If Mr. Brown, the President of the lines, is now in the United States trying to arrange for a loan. President Huerta conferred with several bankers here to-day.

May Make a Forced Loan.

It is understood that it is his intention to raise a heavy forced loan to enable him to meet the requirements of the National Bank and other indebtedness. This expedient seems to be forced upon him by the action of the United States in isolating Mexico from the European money markets.

It is expected that the Government will realize a considerable sum in case the Belgian railway concession is approved by Congress, which seems almost certain.

President Huerta is in desperate financial straits and is prepared to hold up all foreign and native concerns to obtain funds to continue the war should this be necessary.

A prominent political leader said to-night that every indication here was to the effect that the worst Washington could do would be to remove the embassy and break off diplomatic relations with Mexico. This is not regarded as decisive, since the European Powers are reported to be secretly arranging to serve their own interests in the best possible way, with or without the approval of Washington.

Armed intervention backing up the Wilson policy is regarded as most improbable, and for this reason Mexicans regard the attitude of the United States with supreme contempt.

The rumor is current in diplomatic circles that Spain is not supporting Washington, but this lacks confirmation.

The Germans, Austrians, and other foreigners here are armed and preparing to concentrate in case of trouble.

Plan to Extend Censorship.

The Government is preparing to take drastic action against the papers which printed accounts of the fall of Victoria, which was taken by the rebels on Nov. 17, and also of the capture of several towns of minor importance. The publication of these accounts is being made an issue for the purpose of curtailing the liberty of the press. Considerable doubt is expressed here as to whether the Washington Government will protect the Mexican Herald, which is the only paper here which is still uncensored. It is said that the Huerta Government is preparing to enforce the censorship in the case of the Herald, despite the fact that the Mexican laws do not authorize such action.

One fact is significant in this connection: The Huerta Government has never admitted the fall of Juarez, and is unwilling to have any news of the fighting there published.

The fact that Mexican officials

COLOMBIA PROTEST TO CUBA.

Asks Island Not to Approve "Plunder of Panama" by Roosevelt.

Special Cable to The New York Times.

HAVANA, Nov. 28.—The Cuban Senate has received a cablegram from the Colombian Congress protesting against any public approval of the "plunder of the Colombian Department of Panama" effected in 1903 by President Roosevelt, according to his own confession.

The Cuban Senate called an acknowledgment of the message and expressed the desire that all difficulties between American republics would be adjusted peacefully, within justice, law, and international practices.

ROBIN TO BE FREED TO-DAY.

Banker's Prison Term Ended—To Run Down Savings Bank Looters.

With the months' completion of sentence, the reward of good behavior, and orders of Grand Larceny awaiting the coming of the Northern Lights with Ireland, Robin was released on $10,000 bail by Justice Seabury in the Criminal Term of the Supreme Court and began the service of his sentence on Jan. 28.

Robert D. Ireland, Robin's counsel, said yesterday that Robin would leave for a short time and upon his return would get into harness again.

"I expect that," Mr. Ireland said, "the people who benefited by the ruin will find their hands full."

The plot of which Mr. Robin has been a victim is so far reaching as to almost challenge belief. I believe Mr. Robin is going to win out in the long run. The first thing he will do is to devote his attention to running down the men who looted the Washington Savings Bank and making them disgorge. Last week he was successful before Justice Cohalan in having himself made a party to a suit now on the calendar for the recovery of $240,000 of the savings bank money. The suit will be tried within the next two months.

NOTE TOLD OF ELOPEMENT.

Becker Informs Wife That He and Stepdaughter Have Gone Away.

Mrs. Katherine Becker of Winfield, Queens, reported to the police yesterday the disappearance of Martin Becker, her husband, and Lillian Herbst, her twenty-two-year-old daughter by a former marriage. With them went Evelyn Becker, her five-year-old daughter. Mrs. Becker found a note written by the husband, pinned upon the dining room table, in which he said: "Lillie, Evelyn, and I have gone away."

Becker was employed in the Dock Department. He is 42 years old. Mrs. Becker says that when he went away he drew $1,239 from a savings bank, the joint deposit of himself and wife. Mrs. Becker's first husband, Henry Herbst, kept a stationery store at Second Avenue and Eighty-first Street.

He died some years ago, leaving his property to his wife. Six years ago Mrs. Herbst married Becker. Early in September Mrs. Becker was taken to a hospital. Her recovery was doubtful, and she made a will dividing her property between her husband and her three children. Mrs. Becker recovered, and returned home to find, she says, that a fondness had grown up between Lillian and her husband.

Becker, according to his wife, left home for work as usual on Nov. 5. On the same day, she says, her daughter Lillie said she was going to New York to do some shopping and would take the child, Evelyn, with her.

Mrs. Becker says that she went out on a business errand and upon her return she found her husband's clothes gone, her two daughters missing, and the note upon the table. She did not report the affair to the police until yesterday, as she hoped by quiet search she could recover her little girl.

LIEUTENANT OUTRANKS ALL.

Acting Gov. Taylor May Order Generals on Retired List.

Special to The New York Times.

TRENTON, Nov. 29.—Although he has the rank only of a Second Lieutenant in the Third Regiment of the State National Guard, Leon R. Taylor, as Acting Governor, it is likely, will have to order the retirement of Major Gen. Dennis F. Colkins and Brig. Gen. John A. Matter.

Gov. Taylor said to-day that the State would comply with the provisions of the Dick law, in order not to lose the large Federal appropriation, but he would first do everything in his power to save the two officers mentioned from retirement.

It is asserted that it will be impossible for Gov. Taylor to retain Gens. Colkins and Matter in active service, and it is possible that they voluntarily will retire.

ROBBED HIM OF $1,000.

Man Who Was Found Unconscious Tells Police of Assault.

Frank Lewis, a real estate agent, of 1,000 Fifth Avenue, was found unconscious in front of 1,000 Fifth Avenue at 1:30 o'clock yesterday morning by Policeman Hoyer of the Eighty-second Street station. He was taken to the station house and when he recovered consciousness he told Lieut. Hoyer that he had been robbed of $1,000 in cash and a diamond ring.

Lewis said that he had been walking up Fifth Avenue when he was attacked by two men, who struck him on the head with a blunt instrument. He was unable to give a description of his assailants.

A FIGHT FOR HIS LIFE.

Friends of Deposed President Say He Will Be Killed If He Is Returned.

Friends and supporters of José Santos Zelaya, the deposed President of Nicaragua, who was arrested here on Wednesday at midnight upon telegraphic orders from Attorney General McReynolds, began a fight for the release of Zelaya yesterday. They said that Gen. Zelaya would be murdered if he were forced to return to Nicaragua, where he is still in control of the Government.

The first move in the fight to liberate Gen. Zelaya was an application for a writ of habeas corpus. Arrangements for the hearing upon this application before United States District Judge Holt will be made in Brooklyn on Monday morning. The filing set by Judge Holt for the hearing on the writ is four hours earlier than the time set by United States Commissioner Shields for a hearing in the extradition proceedings. This means, according to Assistant United States District Attorney Woods, that if Commissioner Shields will probably not decide as Judge Holt will be at liberty to pass upon the merits of the question of Zelaya's detention pending the arrival of papers demanding his extradition.

If Judge Holt decides that Gen. Zelaya has been held illegally he will be free to depart for Spain or some other foreign country, as the extradition papers are not expected to arrive here for ten days. The longest period that Gen. Zelaya can be provisionally detained under the treaty clause which made it possible to arrest him is sixty days.

In applying for a writ of habeas corpus Gen. Zelaya, who is confined in the Tombs, sets forth that the affidavit of United States District Attorney Woodin on which he was arrested, fails to make out a case against him as it merely incorporates data sent by telegraph from Attorney General McReynolds to Mr. Wood, and is based on information and belief.

The petition for the writ alleges that Gen. Zelaya was President of Nicaragua from Jan. 1, 1894, to Dec. 26, 1909, and that on the latter date he resigned and left the country and has not since returned to it. It asserts that at no time did he commit the crime of murder or any other crime.

C. Alfonso Zelaya, a son of Gen. Zelaya, explained yesterday why he and his brother, Col. Zelaya, considered it vital to their father's welfare that he should be liberated in this country.

"We shall carry every point made in the extradition demand to the highest possible courts," he said, "because my father's life is the real issue. If Congress would only investigate it would find out why my father is wanted. I am representative of exactly the same forces who used wholesale bribery to accomplish his overthrow in 1909.

"I believe my father will not be extradited for the reason that some time during the proceedings President Wilson or Secretary of State Bryan will give personal attention to the matter and will overrule the polices of men in the State Department, just as the decision not to let Mrs. Pankhurst come into this country was reversed. They cannot conceive the fact that any offenses alleged against my father are political and that his treaty specifically exempts political offenses from the list of extraditable crimes."

ARMOUR GRAIN FOR CANADA.

Chicago Concern Takes Out License to Do Business in Ontario.

TORONTO, Ontario, Nov. 28.—What is apparently the first step of American grain operators of large dealings to establish themselves in Canada is contained in an announcement in The Ontario Gazette to-day that the Armour Grain Company of New Jersey had taken out a license to do business in Ontario.

Inquiries elicited the information that this was the Chicago concern said to be the largest grain operators on the American Continent. M. K. Cowan, K. C., is named as local attorney, and permission is given to use $100,000 capital.

POLAND WATER HIGHLY BENEFICIAL for Uric Acid Excess and Kidney Troubles.—Adv.

GARRISON VIEWS PIERS.

Secretary Makes Personal Inspection of Hudson Shore Lines.

Lindley M. Garrison, Secretary of War, spent yesterday afternoon making an inspection of the Hudson River shore front between Thirtieth and 132th Streets. With him aboard the police boat Patrol were Mayor Ardolph L. Kline, Dock Commissioner R. A. C. Smith, the New Jersey Harbor Commissioners, J. Spencer Smith, R. C. Jenkinson, and W. L. Saunders, and various other officials. The shore fronts on both sides of the river were inspected.

Throughout the trip Secretary Garrison listened to eager argument over various propositions to alter the pierhead line on both sides of the river. The New Jersey advocates urged him to permit an extension of their pierhead line 300 feet into the river from Bull's Ferry to Weehawken, and to veto the army engineer's plan for a 3,000-foot channel above Weehawken Cove. They pointed out that 3,000 feet was not required for the big ships below this cove and disputed its necessity above.

Another of the opinions given by Secretary Garrison was when the Riverside Drive pierhead line was established. The Secretary of New York was not to be used for commercial purposes the line could not be drawn in at least fifty feet on the New York side to allow a pierhead extension as the New Jersey engineers recommended development was possible.

The Secretary inspected the work now under way at the foot of West Forty-third Street for a 600 foot pier. The Secretary operated the twenty-ton dredge himself.

SMOKE PALL IN TIMES SQ.

Fire Over Shanley's Restaurant Delays Supper Parties.

Blazing soot in a chimney of the Putnam Building, at Broadway between Forty-third and Forty-fourth Streets, filled Times Square with stifling smoke at 10:30 o'clock last night. The smoke settled down into the main dining room of Shanley's restaurant, on the ground floor of the building, and made the diners there uncomfortable.

Although the arrival of the fire apparatus could be heard plainly in the restaurant there was no excitement there, and the cabaret show was not interrupted.

The fire delayed theatregoers on their way to the restaurants in the neighborhood.

A colored man smiled, after falling from a second-story window. Asked why, he said: "Fraves DIS nigger ain't altogether Rubber."—Adv.

Peach holds pipe and tobacco. At Schultz's.—Adv.

KILLED SAVING HIS TOY.

Little Boy Ran Before Auto to Recover His Plaything.

Harry J. Parkes, Jr., of Corona, L. I., was driving his auto in the Dry Harbor Road in Elmhurst yesterday morning when he saw a boy and girl walking down the road before him. They went to the side of the road when Parkes sounded his horn, but the little boy ran back into the middle of the street to pick up a toy he had dropped. The automobile struck and killed him.

The little girl, who was at the side of the road, began to scream, and this brought her mother, Mrs. Andrew Cox of 9 Ramsen Avenue, to the street. Mrs. Cox fainted when she saw that the little boy, who was her son, Andrew Cox, 3 years old, was dead. Parkes surrendered to the police at Elmhurst, but he was released later by Coroner Gustave A. Schaefer, who investigated the accident.

THIEVES JUMP INTO A SPEEDING AUTO

Beat Chauffeur, Who Resists, and Rob Baremus and His Woman Companion.

STEAL CASH AND JEWELRY

Highwaymen Spring Out of the Darkness in Putnam Parkway as Motor Is Passing.

Returning in his auto from Larchmont Manor to his home in Newark, Nathaniel Baremus, a manufacturer of [illegible], was robbed of $100 in cash and a diamond ring by three highwaymen who sprang out of the darkness in the Putnam Parkway, a lonely stretch of road in the Bronx, at 8:30 o'clock last night.

Baremus was accompanied by Miss Ethel Wolf, a young woman who lives at 1,000 Fifth Avenue, Manhattan, and who is a friend of Mrs. Baremus. Miss Wolf was also relieved of her jewelry by the highwaymen. Baremus's chauffeur, Frederick Hill, was beaten into unconsciousness by the robbers.

Baremus and Miss Wolf were driving from Larchmont Manor to Manhattan, where they were to dine with Mrs. Baremus, who had gone to the city earlier in the day. Hill was driving the car. As it was passing through the Putnam Parkway, which is inhabited by a large colored population, Mayor Shank began to enforce the anti-saloon regulations. The first saloon that he summoned was that of Jacob Hoffman, which is inhabited by a large colored population.

After the election Mayor Shank began to enforce the anti-saloon regulations. The first saloon that he summoned was that of Jacob Hoffman, which is inhabited by a large colored population.

Mayor Shank charged that the prize was kept on by a combination of commission merchants. He brought charges of intimidation into the city court. Judge [illegible] dismissed the charges. Hoffman sold personally 75 barrels a day. Business although the purchasers more than two hundred and a half. He soon broke the price of potatoes in the retail stores to $1.50 a bushel. A few weeks later he sold off carloads of apples at $1.50 a barrel. A few days before the [illegible] letter that of the married during the Christmas season he imported quantities of turkeys, ducks, geese, and other fowls which he sold for 7 and 8 cents a pound less than the market price. In these experiments he met record successes. Mayor Shank was able to keep food prices under control while threatening to retract these sales.

Another of his enterprises was a pure article marriage bureau. He married [illegible] and [illegible] and [illegible] the bureau became the forum for correspondence from all over the country too great for a small-scale matrimonial agency. Whatever fee was given to him he always turned over to the bride and groom.

Mr. Shank is 6 feet 3 inches in height, weighs over 200 pounds, and is an athlete. While Mayor of Indianapolis he represented Marion township in the [illegible] which won a world's championship. Mayor Shank's successor, Joseph E. Wallace, the new Mayor, has been prominent in Republican politics for some time. He served one term as County Auditor, and is on his second term as County Chairman.

WANT DEATH INVESTIGATED.

Family Fears Young Woman Was Poisoned.

District Attorney R. S. Hudenuth of Jersey City was requested last night to investigate the death on Thursday of Miss Catherine Watts, at the home of her uncle, James R. Watts, 402 Woodlawn Avenue, Jersey City. Robert E. McLean, a lawyer, of 115 Broadway was retained by Mr. Watts to bring the matter to the attention of the authorities. The young woman became ill while at work in Manhattan.

The relatives of Miss Watts desire that the District Attorney order an autopsy, said Mr. McLean last night. She was taken ill on Friday a week ago. On Sunday she told her family that she thought she had been poisoned. This remark led the family to ask for an investigation. Her body is still in the family home, and the funeral has been postponed until the authorities had an opportunity to make an inquiry.

Four physicians were called in consultation before Miss Watts, who was 25 years old, died. Two of the physicians, Dr. F. Street and Donald Munn, diagnosed the case as gastritis. Dr. Munn signed the death certificate. Dr. Street, after a post-mortem examination, decided that death was due to septicaemia of the throat.

"There is absolutely no criminal action involved in the case," said Dr. John [illegible] to-night. "The prescription [illegible] Miss Watts procured in Manhattan, which the family regard as having had some connection with her death, was a proper one and had nothing to do with the symptoms of poisoning."

WOMEN INVADE WASHINGTON

Suffragists from All States Gather for Convention To-day.

WASHINGTON, Nov. 29.—To the call of "Votes for Women," suffragists from every State are flocking to the capital for the convention, which opens to-morrow.

Visits to President Wilson, hearings before the Congress Committees on constitutional amendments to enfranchise women, addresses by Senators and Representatives and by leaders of the cause of suffrage will feature a week of meetings. Such organizations as the National American Women's Suffrage Association, the National Equal Suffrage League, the Congressional Union, the Woman's Political Union of New York, and the Men's League for Suffrage will be represented.

Fresh from victory in Illinois the suffragists will conduct a celebration of their triumph and urge Congress by amending the Constitution to extend the ballot to women in all States.

RISKS LIFE FOR HIS DOG.

Boy Thrown Twenty Feet in Saving His Pet from a Train.

PATERSON, N. J., Nov. 28.—Edward O. Cummings, 10 years old, of 81 Hall Parkway, Newark, risked his life here to-day to save his dog from being run down by an Erie Railroad train.

Coming the dog, Cummings was struck by the train and thrown twenty feet. The boy, accompanied by Frederick Hitchcock, also of Newark, started on a coasting trip in an automobile. On Hamilton Avenue, in this town, they noticed a train of freight cars approaching parallel with the street. They were delayed by a puncture in the machine, and the boy got out and ran across the tracks in front of an approaching train.

The dog, which had followed the boy, started to the door to which Cummings had gone. Just as the animal reached the door the train struck it. The boy was thrown to the ground and rendered unconscious. He was taken to the home of Hitchcock's parents in Newark. He will recover.

DEER CHASES CHILDREN.

New Jersey Farmer Asks Permission of State to Shoot It.

Special to The New York Times.

HACKENSACK, N. J., Nov. 28.—John Jackson, a farmer, of Mahwah, six miles from Hackensack, whose land adjoins the extensive Havemeyer estate on the edge of the Ramapo Mountains, has written to Deputy Game Warden Ernest Trainor of Hackensack asking what can be done to a wild buck deer that insists on chasing his children.

"This buck no doubt is one of the bunch that escaped from the Havemeyer preserves in the Ramapo Mountains some time ago," wrote Jackson. "It has got so far that I am afraid to let my boys go into the woods near by, for this deer has chased them several times. I don't want to shoot the deer for fear of getting in trouble with the authorities. I may have to shoot this nasty fellow, however, in self-defense yet. Can you give me some information?"

Deputy Trainor will refer to the State Fish and Game Commission at Trenton for the case is a new one for the Game Warden.

UNDER AUTO IN A GULCH.

J. M. McCurdy of New York and Wife Badly Hurt in Colorado.

Special to The New York Times.

CANON CITY, Col., Nov. 28.—Pinned beneath the steering wheel of his overturned touring car at the bottom of a mountain gulch, while his wife lay unconscious near by, J. M. McCurdy of New York lay for three hours to-night before a horseman heard his groans and summoned assistance to extricate him.

The couple's chances of recovery are doubtful. Between twenty-five and thirty automobiles, it is estimated, passed near the spot where the McCurdys were lying without their occupants discovering the accident.

Just as their touring car approached the bridge the lights went out for some cause not yet explained.

McCurdy tried to keep his car on the road, but before he could stop and examine the lights the machine had reached the arroyo. The driver missed the bridge and the automobile plunged down into the ravine, a distance of thirty feet. The heavy car turned over as it fell, throwing Mrs. McCurdy clear.

McCurdy is part owner of a large grocery establishment in New York and is wealthy.

The directory does not give the name of J. M. McCurdy.

Hinsman's Headache and Nerve Powders save 50c. and $1. at Drug Store.—Adv.

failed to call at the embassy yesterday is adversely commented on in the American colony here. This is regarded as significant of Gen. Huerta's hostility to Americans.

NEWS CHEERS WASHINGTON.

Administration Now Believes Huerta's Fall Is Near.

Special to The New York Times.

WASHINGTON, Nov. 28.—Government officials who sympathize with President Wilson's policy of forcing Gen. Huerta to retire from the Presidency of Mexico profess to be greatly encouraged over the present trend of events in that country. Their optimism is based partly upon the notable victories of Gen. Villa over the Federals, near Juarez, and partly upon reports that Huerta is in dire straits for want of money.

The cry that "Huerta is on his last legs" has been heard before in Administration circles, but events do not justify it. However, experience has taught officials to be less confident in their statements along this line, and for that reason their present cheerfulness is one finding of greater credence. They died to credit Gen. Huerta's power of resistance in several things—among them that he alienated many of his foremost supporters by his action in arresting and imprisoning 110 members of the National Congress who protested against the failure of the Government to disclose the whereabouts of Senator Domingue, who criticised Gen. Huerta's course.

The activity of the Constitutionalists has indicated also to officials here that Huerta's troops are about to be pressed hard in their own territory, which heretofore has been comparatively free from revolutionary operations. The Constitutionalists are becoming aggressive along the eastern seaboard, and are steadily pushing their forces toward Vera Cruz, while the State Department has reason to believe that the Victories near Juarez are to be followed up by an advance having for its object the capture of the City of Mexico.

And on top of this comes the news that Gen. Huerta is having greater difficulty than ever in counting upon the fidelity of those troops and officers on military operations. Foreign Governments, it is known, are not at all backward in showing an increasing willingness to assist the United States in any course that will restore normal conditions.

Altogether the situation is encouraging to President Wilson's well-wishers.

These vessels will relieve the battleships Louisiana and Minnesota and the armored cruiser North Carolina, which will remain in the Mediterranean. The Connecticut and the cruiser are

GEN. MARAGO A SUICIDE.

Could Not Survive Loss of Victoria and Defeat.

and says that the Postal will get all business in rebel territory.

Gen. Villa said that he had seven batteries of four guns each which he could take forward with him against the Federals, and that he had captured 1,200 unexploded shrapnel shells from the Federals in the recent battle outside of Juarez which he could use in the cannon. He declared this sufficient artillery to fight the Federals on the field or to besiege Chihuahua if they have returned to the State capital. He added that he also captured 7,300 rifles and 2,340 rounds of ammunition from the Federals in the fight.

The rebel General said his death list in the two days of fighting about Juarez would not total over 36. His wounded are in the Juarez hospital number 122. They are being cared for by volunteer nurses and doctors from El Paso.

Gen. Villa has heard that the Federal trains are stalled at Villa Ahumada, eighty-three miles south of Juarez, for lack of water on the retreat, and he thinks he can overtake them before they get back to their base. He has sent messengers to Chao and Conterras asking them to attack the Federals if the Chao and Contreras are besieging Chihuahua City.

Many stores remain closed in Juarez, to keep from accepting Villa's paper money. He has not yet made good his threat to confiscate stocks of goods.

DELAYS TUXPAM RELIEF.

Gen. Maass Says He Cannot Get Transportation for Troops.

Special Cable to The New York Times.

VERA CRUZ, Nov. 28.—A full regiment of troops commanded by Gen. Joaquin Maass, Jr., is expected to get under way for the Tuxpam and Tampico districts by to-morrow. Gen. Maass is experiencing difficulty in getting transportation for his men.

Admiral Cradock on H. M. S. Suffolk, now in the outside harbor, today received a visit from the British Consul, to whom he reported all quiet, so far as he could see, in the oil districts of Tampico and Tuxpam.

Surprise has been caused among politicians here by the arrival on board the steamer Mexico to-day of the Chilean diplomatic officer, Agustin B. Agacio.

GERMAN ABUSE OF WILSON.

Newspaper Calls Him "Unalloyed Fool," but Government Is Friendly.

By Marconi Transatlantic Wireless Telegraph to The New York Times.

BERLIN, Nov. 28.—Wilson, the "unalloyed fool," is the expression used by the Vossische Zeitung in speaking of the President's conduct in the Mexican situation.

Some time ago, after the publication of This New York Times Berlin dispatch concerning the bitter anti-American tone of the German press, the Frankfurter Zeitung published a long editorial article denouncing indignantly the assertion that there was any trace of anti-American feeling in Germany. In spite this editorial the press continues to publish articles in which Americans, who are ordinarily referred to generally as "Yankees," are ridiculed as hypocrites, as possessing no culture, as money grabbers, as the slaves of the Standard Oil Company and other great industrials, and of having no ideals except dollars and the lust to extort them.

The Vossische Zeitung selects which the people and press of the United States are most bitterly opposed at present, and says that the Mexican question is the most important of the outstanding elementary facts to be taken into consideration, and pronounces it as utterly farcical the irresponsible idea that Mexico is a suitable field for a spirited British policy." The Review adds:

"It is quite useless to attack or abuse the United States for pursuing a policy which would undoubtedly be ours were we in their position. She is confronted by a grave problem at a highly inconvenient moment. The President is the soul of sincerity, and detests the idea of going to war, and detests the idea still more of passively inactivity on our part. We recognize that Mexico is exclusively an American problem, as America acknowledged the Transvaal to be a British problem."

AMERICANS LEAVE VICTORIA.

Fear of Starvation Impels Five Families to Flight for Home.

BROWNSVILLE, Texas, Nov. 28.—Imminent danger of starvation in Victoria, the capital of the Mexican State of Tamaulipas, has caused all the Americans now in that locality to decide to start for the United States. An American chauffeur, returning from Victoria, to-day said that the Americans—five families and several single persons—would be ready to start on their long journey by train to-day. Several women missionaries have asked United States Consul Johnson at Matamoras, to furnish automobile transportation from Victoria to Matamoras.

Victoria is cut off from practically all communication with both provinces. With the departure of the Americans from Victoria it is believed there will be none left in Tamaulipas except at Tampico.

The chauffeur said that on capturing Victoria Gen. Villa, in the Constitutionalist interest, issued a proclamation declaring the State Union and Separate Sovereignty, after liberating all the political prisoners, destroyed no city property, but collected from the Federal forts in that city all the ammunition and arms. The Federals blew up the railroad bridge over the San Marcos River, which was partly destroyed.

YELLOW FEVER IN MEXICO.

Washington Takes Quarantine Precautions Against Puerto Mexico.

WASHINGTON, Nov. 28.—Surgeon General Blue of the Public Health Service took active steps today to protect the American Gulf Coast against yellow fever, reported through unofficial channels as now epidemical at Puerto Mexico, the Gulf terminal of the Tehuantepec railway.

Six cases and one death are reported, and many deaths have occurred in the last few days from fever. The same authority says that the disease is of a virulent type.

Surgeon General Blue at Hospital Service headquarters in Washington has issued orders that all vessels from Puerto Mexico shall be detained in quarantine at Quarantine Station, Mobile Bay, for five days after leaving Puerto Mexico, and that all passengers shall be detained in quarantine at Mobile for five days after leaving Puerto Mexico.

CALL MEXICO OUR AFFAIR.

British National Review Says Wilson Should Have a Free Hand.

LONDON, Nov. 28.—The National Review, which is usually hostile to America, says of the Mexican question that the propinquity of Mexico to the United States is the most important of the outstanding elementary facts to be taken into consideration, and pronounces it as utterly farcical the irresponsible idea that Mexico is a suitable field for a spirited British policy." The Review adds:

"It is quite useless to attack or abuse the United States for pursuing a policy which would undoubtedly be ours were we in their position. She is confronted by a grave problem at a highly inconvenient moment. The President is the soul of sincerity, and detests the idea of going to war, and detests the idea still more of passively inactivity on our part. We recognize that Mexico is exclusively an American problem, as America acknowledged the Transvaal to be a British problem."

AMERICANS LEAVE VICTORIA.

Fear of Starvation Impels Five Families to Flight for Home.

BROWNSVILLE, Texas, Nov. 28.—Imminent danger of starvation in Victoria, the capital of the Mexican State of Tamaulipas, has caused all the Americans now in that locality to decide to start for the United States. An American chauffeur, returning from Victoria, to-day said that the Americans—five families and several single persons—would be ready to start on their long journey by train to-day. Several women missionaries have asked United States Consul Johnson, at Matamoras, to furnish automobile transportation from Victoria to Matamoras.

Victoria is cut off from practically all communication with both provinces. With the departure of the Americans from Victoria it is believed there will be none left in Tamaulipas except at Tampico.

The chauffeur said that on capturing Victoria Gen. Villa, in the Constitutionalist interest, issued a proclamation declaring the State Union and Separate Sovereignty, after liberating all the political prisoners, destroyed no city property, but collected from the Federal forts in that city all the ammunition and arms. The Federals blew up the railroad bridge over the San Marcos River, which was partly destroyed.

TALK JARS PAN-AMERICANS.

Cumberland Supports Secretary Chamberlain's Boast for Canada.

Treasury Certificates Extended.

The agents have consented to extend until Jan. 15, 1914, the time for the presentation for payment of temporary certificates issued in exchange for permanent certificates of interest bearing coupons on which the interest matured on July 1, 1913. The regulation issued to-night follows:

Extension of Time for Presentation of Certificates Issued in Exchange for Permanent Certificates.

Treasury Department, Washington, Nov. 28, 1913.

Pursuant to the provisions of section 2 of the act of Congress approved Oct. 3, 1913, entitled "An act to reduce and provide revenue for the Government, and for other purposes," and in order to facilitate the exchange of temporary certificates issued in exchange for permanent certificates of interest bearing coupons on which the interest matured on July 1, 1913, it is hereby ordered that the time for the presentation for payment of temporary certificates issued in exchange for permanent certificates of interest bearing coupons on which the interest matured on July 1, 1913, be, and the same is hereby, extended to and including Jan. 15, 1914, on and after which date interest will cease on such temporary certificates.

W. G. McADOO, Secretary.

RULES TO SHIELD INCOME SECRETS

Names of Bondholders to Go Direct to Treasury Instead of Through Withholding Agency.

SUBSTITUTE CERTIFICATES

These to be Issued by Collecting Banks—New Regulations Alleviate Other Tax Hardships.

Special to The New York Times.

WASHINGTON, Nov. 28.—To facilitate collection at the source of the income tax on interest derived from coupon bonds, without dealing unjustly with owners of such bonds or the banking world generally and at the same time safeguarding the interests of the Federal Government, the Treasury Department to-night issued these important regulations.

These regulations, it is believed, will meet the objections raised by many bondholders, bankers, and bonding house officials, who felt that the original regulations might result in the disclosure of important private information regarding the ownership of bonds. Under one of the regulations promulgated to-night, the disclosure of such secrets will be avoided, according to Treasury officials. The private information which this regulation aims to safeguard is of this character:

First—The names of holders of such bonds. The purpose is to withhold these names from possibly unscrupulous persons who might utilize the information in obtaining the names of bondholders for improper business solicitation. Thus financial secrets of bankers and bonding houses.

Objection was raised that under the previous regulations it might be possible for one banking house to learn the secrets of another by ascertaining through income tax certificates, the names of customers. The regulation dealing with this situation is believed to be so framed as to disclose the identity of holders of such coupon bonds only to the first receiving agent, who has the information in any event, and to the Federal Government. This will impose a little extra work on the Department, it was announced to-night, but the Department was willing to bear that burden.

Substitute Certificates.

The first of the new regulations follows:

Regulations governing the exchange of temporary certificates of ownership for definitive certificates of ownership and the payment of interest on coupons detached therefrom.

Treasury Department, Washington, Nov. 28, 1913.

Pursuant to the provisions of section 2 of the act of Congress approved Oct. 3, 1913, entitled "An act to reduce and provide revenue for the Government, and for other purposes," and in order to facilitate the exchange of temporary certificates issued in exchange for permanent certificates of interest bearing coupons on which the interest matured on July 1, 1913, it is hereby ordered that the time for the presentation for payment of temporary certificates issued in exchange for permanent certificates of interest bearing coupons on which the interest matured on July 1, 1913, be, and the same is hereby, extended to and including Jan. 15, 1914, on and after which date interest will cease on such temporary certificates.

W. G. McADOO, Secretary.

Five other proposed regulations were drafted and approved by Secretary McAdoo to-night dealing with collection of the income tax at the source. These regulations relate to the status of trustees under the new law and will be made public to-morrow by the Treasury Department. Like the regulations given to-night the ones to be issued to-morrow are intended to serve the purposes of the Government without occasioning injury, harm, hardship, embarrassment, or invasion of rights of bondholders, bankers, bonding houses or other agents.

ROOT TO HELP MEND FENCES

Senator Will Discuss New Party Programme Here on Dec. 5.

When the Republican leaders meet in this city on Dec. 5 to take up questions regarding the future welfare of the party a programme will be presented, it was said yesterday, calling for a direct primary bill that will contain all of the Progressives' principles except, possibly, the abolition of the State convention; a sweeping short ballot bill; the Massachusetts ballot, and the establishment of a State budget.

Senator Elihu Root, who is to be Chairman of the meeting, has been in conference with the State leaders in the party and has agreed to the Progressive programme. It was said yesterday that the outlook is encouraging, that the chances for the election of Republican Governor next year, but it is necessary to bring the Progressives back into the party fold before that can be done.

Senator Root will be the guest of honor at the meeting, which will be held at the Republican Club. Among those who will be present are Mayor William Jay Gaynor, Mayor William Hamilton Mead of Union Hill and ex-Mayor Seth Low, all members of the board of trustees of the Republican Club. Others who are expected to be present are Lieut.-Gov. Thomas Frank Conway, Supreme Court Justice Edward Lauterbach, Justice Victor J. Dowling, Justice Samuel Greenbaum, Justice Edward Patterson, Justice Leonard A. Snitzer, Justice Peter A. Hendrick, Justice Henry Bischoff, Justice Edward Schweitzer, Justice Henry Bischoff, Justice Edward Schweitzer, Justice Henry Bischoff, Justice Edward Schweitzer

WHITMAN WILL CALL SPECIAL GRAFT JURY

Fortifies Himself Against Interference by Putting Investigation in Supreme Court.

HE WILL IMPANEL EXPERTS

Jury's Subpoenas Will Carry Authority Throughout the State—Some Evidences of a Clash.

A special Grand Jury, responsible to Justice Davis in the Criminal Branch of the Supreme Court, will be selected on Monday for the consideration of all evidence relating to District Attorney Whitman's canvassers graft investigation. A special panel of 250 talesmen has been drawn.

It is expected that the men selected will be asked to be ready to serve for six months. It is understood that this Grand Jury will consider only matters relating to the graft investigation. This was interpreted yesterday as meaning that Mr. Whitman had intrenched himself against interference.

A subpoena from this Grand Jury carries weight throughout the State, and no contractor, politician, or employee of the State who is wanted in the investigation can evade the call. It is probable that the whole history of the construction of the barge canal as well as of the construction and repair of State roads in the last five years will be reviewed by this body. Men especially qualified to understand the technicalities of contracts and specifications in State work, it is understood, will be preferred for this Grand Jury.

It is considered to be significant that this Grand Jury will begin its work less than a week after the start of the Osborne investigation in Albany. A clash between the investigations is prophesied by many disinterested persons. Mr. Whitman has the advantage of Mr. Osborne in that he ca nobtain indictments, whereas Mr. Osborne, if he finds cause for action, must submit his case to a Grand Jury having jurisdiction.

Gov. Glynn, in asserting that there would be no clash of investigations, has said that Mr. Whitman would deal only with matters pertaining to this county and Mr. Osborne would have jurisdiction elsewhere. Friends of Whitman and Osborne say, however, that the matter cannot be arranged so easily.

It was asserted yesterday that Mr. Whitman had been compelled to serve a subpoena duces tecum on Assistant Secretary of State Jose E. Pidgeon before he could get possession of certain documents in the Secretary of State's office. Letters from the District Attorney's office requesting these documents, it was said, were disregarded. The documents were unimportant in themselves.

It also was asserted that it required two personal trips to Albany and a subpoena duces tecum before subpoenaed before complete records of the Canal Board could be obtained from Albany. These records arrived at the Criminal Court Building yesterday by express office the Secretary of the Canal Board had been notified that he had until to-day to produce them.

The documents brought yesterday by Assistant Secretary Pidgeon were the annual statements of receipts and expenditures filed with the Secretary of State by the Republican State Committee for the years 1910 to 1913, and of the Progressive State Committee for 1912 and 1913. The Democratic Committee's statements have been in Mr. Whitman's possession for a month. Mr. Whitman's purpose in subpenaing the Republican and Progressive parties' statements, it was explained, was in line with his assertion that his investigation in no way would be partisan.

Information has reached the District Attorney relative to graft in the Bureau of Repairs of the Department of Highways. It was said that many road repair specifications calling for oil as a preservative had been changed by arbitrarily in the last year to call for tar instead. A particular company which sells tar, it was said, had been favored in this way, to the exclusion of the Standard Oil Company, the Texas Company, the United States Asphalt Refining Company, and the Sun Company. The new evidence, it was said, involved an official in the Highway Department, an ex-State official, and several go-betweens. Mr. Whitman will return to the city on Monday morning. He will obtain immediately the selection of a special Grand Jury, and several witnesses produced by John A. Heunessy may be heard in the afternoon. At 2:30 P. M. the John Doe inquiry will be resumed.

A cable dispatch from James K. McGuire reached Assistant District Attorney Clark yesterday from San Juan, Porto Rico. McGuire assured Mr. Clark that he would proceed at once to Havana, and from there would start for New York. In addition Mr. Clark received assurances from a lawyer that McGuire would be produced in court on arrival.

CONDIT DID TELL TILLSON.

Brooklyn Engineer Corroborates Oil Man's McGuire Story.

George W. Tillson, consulting engineer under Borough President L. H. Pounds of Brooklyn, acknowledged last night that he had heard from Fillmore Condit, local representative of the Union Oil Company of California, the full story of the alleged dealings of James K. McGuire with Mr. Condit. Mr. Tillson said that Mr. Condit had laid the story before him three weeks before the last election, and that he had proposed that the material be used for campaign purposes.

"Mr. Condit came to my office when Mr. Pounds was out," said Mr. Tillson. "The substance of his conversation with me was that he and his company had been treated right in the Borough of Brooklyn. He was willing, he said, that the McGuire story should be used in the campaign."

Mr. Tillson explained that the Borough of Brooklyn, under his administration as chief consulting engineer, had open asphalt specifications. These specifications, he said, permitted the use of a number of asphalts, including the product of the Union Oil Company of California. Much of the California product, he said, had been used on the streets of the borough.

"But Mr. Condit," he said, "never bid on any work himself. I suppose the borough bought some of his products through agents or brokers. I will say for Mr. Condit that I have known him for six or seven years, and that he is an honorable man. I am sure that he did not bring the McGuire story to Mr. Pounds to gain favor. What he told me about McGuire at that time corresponded exactly with his testimony."

"What did Mr. Pounds do with the McGuire story?" Mr. Tillson was asked.

"I told him what Mr. Condit had told me, and he said that he had no use for it as a campaign document. I kept the typewritten paper which contained the information."

"What did you do with this statement?" the reporter asked.

"I carried it around in my pocket for some time, and then, I believe, I destroyed it."

Borough President Pounds last night gave the same version of the Condit matter. He had no use for the information, he said, and considered it entirely extraneous to Brooklyn affairs. He added that he did not want to assume any obligations which might be interpreted as favoring any company furnishing materials.

"I remember that Mr. Tillson spoke to me about the matter," said President Pounds, "and I remember that I told him that I could not go into that story. The matter did not affect us in Brooklyn and had no place in the campaign. Besides, it didn't attract me, for I knew that it might be misinterpreted. I did not want to accept anything from any one who might desire a favor later on.

"As I look on it now there was no responsibility or obligation resting on me to make this McGuire story public."

President Pounds said that he did not

SOME RECORDS TAKE FLIGHT.

Papers Have Disappeared from State Office, Mr. May Admits.

Important papers are missing from the files of the office of the Secretary of State in Albany, it was admitted last night by Secretary of State Samuel S. May at his home in Brooklyn. Mr. May said that he had been unable to trace the missing papers.

Secretary May stated that papers were missing from the files of the office, but added that he could not state positively what they were. He said that he had been unable to get certain documents in the department. Communications from Albany said that reports were current that Osborne had taken papers from the office. Mr. May said that he had been informed that Osborne had taken papers, but added that they were nothing about such an occurrence.

"I can't understand why Mr. Osborne should have been unable to get certain papers," said Mr. May last night. "Surely such action would not have my sanction. I do remember that I instructed my assistants to be very careful with certain papers and it might be that Osborne took some one interpreted this order literally.

"Ordinarily, of course, the files are open to the public, and we allow anyone to inspect the papers unless we suspect an evil motive. But just what is going over the books recently I cannot say. Some papers were out in place. A thorough search showed that they were not in the building and I haven't found out since where they went or how they went. I made it clear, I think, when I issued the order the matter that I gave the statement in structions before I left.

"I asked my assistants to be particularly careful in the case of papers which might be used in the course of any of the investigations now under way. If Mr. Osborne had asked for papers which were denied him, I think I would have received a telephonic communication to that effect.

"Do you think the missing papers included the campaign lists of receipts and expenditures?" Mr. May was asked.

"Possible, but I don't know," replied the Secretary of State. "I am sure that I will co-operate in every way I can with both Mr. Whitman and Mr. Osborne."

GRAFT INQUIRY DELAYED.

Osborne to Begin Next Wednesday —Carlisle to Have Counsel.

Special to The New York Times.

ALBANY, Nov. 28.—James W. Osborne was to have begun his interrogation of witnesses as Gov. Glynn's special graft investigator this afternoon, but he didn't. Mr. Osborne reached here at noon with his assistant, Arthur T. Warner. After luncheon both proceeded to the Capitol, where Gov. Glynn's designation as investigator awaited Mr. Osborne. The designation was dated to-day and empowered Mr. Osborne to subpoena and enforce the attendance of witnesses, administer oaths and require the production of books and papers. Mr. Osborne being appointed a Commissioner to investigate the affairs of all departments, boards, bureaus, and commissions of the State.

When the time set by Mr. Osborne to open his inquiry arrived, John M. Carlisle, State Highway Commissioner, who will be interrogated on the Rubino asphalt charges, asked to be allowed to be represented by counsel. Messrs. Osborne and Warner conferred with Attorney General Carmody, after which it was announced that the request would be granted. Mr. Osborne said he would give Mr. Carlisle every opportunity to defend his acts. He set the hearing for next Wednesday, Dec. 3, at 11 A. M.

Mr. Osborne decided to have Henry A. Rubino, attorney for the Liquid Asphalt interests, who made charges to the Governor that Commissioner Carlisle had discriminated in favor of the Barber Asphalt Company's material in his specifications for road building, tell his story to-day, but changed his mind. He said that the proceedings would begin Wednesday with the filing of briefs. The hearings will be public.

Patrick R. Quinlan, Vice President of the Warner-Quinlan Asphalt Company, who also had filed charges against Commissioner Carlisle, was present to-day ready to testify. Counsel for the Barber Asphalt Company also appeared.

Mr. Osborne impressed upon all present to-day that he was not to be the judge of the evidence he extracted.

"I am not here to determine anything," he said. "I only make a report."

"The books of the Barber Company are in Philadelphia," said Mr. Rubino, "and we have no jurisdiction over them."

"I shall go very carefully and legally," said Mr. Osborne. "If you are entitled to anything I have not a doubt that you will get it."

LOOKING FOR FOYE'S LOOT.

Attachment Writs Served on Waldorf-Astoria and Banks.

Writs of attachment signed by Justices Seabury and Blanchard in the Supreme Court authorized Sheriff Harburger yesterday to seize any property he might find belonging to James Edward Foye, the $75 a month clerk of the Farmers' Loan and Trust Company, who stole and forged $300,000 worth of stock certificates of the General Electric Company. The writs were applied for by the Corn Exchange National Bank of Philadelphia, which is to begin an action in the Supreme Court against Foye for the recovery of $137,000, and by Charles T. Brown & Co., who will bring an action to recover from Foye $107,000.

The applications declare that Foye is about to dispose of the property in his possession and to secrete it with intent to defraud his creditors. Upon the writs the Sheriff has recovered $40,823 worth of property at the Knickerbocker Trust Company. Papers were served on the Waldorf-Astoria and on the Harriman Bank, but no property was seized at either of these two places.

When Foye was arrested there was found in his possession a certified check on the Corn Exchange National Bank for $37,000 and $3,200 in cash. This was taken by the property clerk at Police Headquarters upon whom a writ of attachment was also served. Up to the present time property valued at $142,525, alleged to have been part of Foye's thefts, has been recovered.

Attorneys for the Corn Exchange Bank are Davis, Auerbach & Cornell and for Charles T. Brown are Everett, Clarke & Benedict. At one time Foye was stenographer and private secretary to the late Stephen V. White. He left Mr. White's employ early in 1902 to take a position with the firm of Harris, Gates & Co. When this firm went out of business in 1904 Foye became a member of the Consolidated Exchange.

Foye is described by many who knew him during these obscure periods of his life as intelligent, industrious, reliable, and with a quiet and genial manner. He was also known to be restless and ambitious.

PRESS CLUB SNUBS SULZER.

Milwaukee Organization Declines to Let Him Address It.

Special to The New York Times.

MILWAUKEE, Nov. 28.—Ex-Gov. Sulzer was not a guest of the Milwaukee Press Club this afternoon, although when James Garrison, his advance man, left Milwaukee last night he supposed that he had arranged to have Sulzer tell the Milwaukee newspaper men his own version of the newspaper handling of his impeachment.

The Board of Governors decided that if Sulzer had won his impeachment trial he might have been considered of sufficient importance to be received by the club, but that as a public official removed from office he was not of sufficient consequence to be an honored guest of the club. In other words, the club trustees decided not to overrule the verdict of the New York Legislature.

What hurts Sulzer's friends, however, is that he is barred by this action from being a guest of the club which has tendered receptions to pugilists, including Jack Johnson, as well as to such notables as Taft and Roosevelt.

CHRISTMAS NUMBER OF THE TIMES.
The remarkable edition on Sunday, Dec. 7, will be sold out far ahead of time. Order it in advance, or you will be unable to get "Sargent's Prophets," reproduced in the original colors, and The Girl of To-day Section, illustrated by the new rotogravure process.—Adv.

RECEIVER NAMED FOR REALTY COMPANY

New York Real Estate Security Company Holds $16,000,000 Worth of Real Estate.

MANY BONDS OUTSTANDING

Interest on $3,000,000 at 6 Per Cent. Falls Due on Jan. 1—Five Apartments Didn't Pay.

A petition in bankruptcy was filed yesterday against the New York Real Estate Security Company, which owns equities in about $16,000,000 worth of real estate on Manhattan Island, chiefly apartment houses. So many dealers the action was not entirely unexpected, as there have been rumors for some time that the company, which owns the big office building at 42 Broadway, where its offices are situated, was in financial trouble. Several of the larger brokers, while admitting that the bankruptcy action would undoubtedly have a deterrent effect for the time being upon realty investments in New York City, were optimistic enough to believe that with the settlement of the company's troubles the real estate atmosphere would be considerably clarified and market conditions benefited.

The petition in bankruptcy was filed in the United States District Court by Wechsler & Kohn, attorneys for three creditors, the Nathul Realty Company, a creditor for $40,000, due on an agreement to purchase bonds; Perry H. Simons for $8,067, due on agreement to purchase bonds, and Hugh McAtamney for a debt of $500. Justice Hough appointed James N. Rosenberg receiver, under a bond of $50,000.

On behalf of the company it was stated that the action was a friendly suit to prevent wholesale foreclosures on its holdings, which include sixty-six parcels, and for which no ready market could be found in the present dull state of the market. There has been great difficulty, it was admitted, in getting mortgages renewed, and the action was also precipitated by the fact that interest on an issue of $3,000,000 worth of bonds fell due on Jan. 1 and there was no money to pay it. These bonds bear interest at 6 per cent. The obligations for the first six months of the year were paid on July 1.

The officers are endeavoring to obtain the consent of the bondholders to waive their claims on the interest payments for six months or a year, and if before Jan. 1 some satisfactory agreement can be made, the company hopes to pull through the dull period and restore its financial credit.

The New York Real Estate Security Company was organized in October, 1908, with a capital of $1,250,000. Its officers are: Thomas B. Hidden, President; W. E. G. Gaillard, Vice President; Eugene Walker, Treasurer; Charles R. McCarthy, Secretary, while the Directors include these officers and C. E. Bateson, S. J. Lewis, J. B. Hill, H. F. Rice, and Gustavus A. Rogers.

The Company's Statement.

Gustavus A. Rogers & Rogers, attorneys for the company, in a statement yesterday, called it a temporary embarrassment. He said:

"By reason of the suspension of some of the current rent rolls, holders of the outstanding coupons have threatened to foreclose, and the directors have been advised that, in order to preserve the property in the interest of all the creditors, the only course open was to apply for the appointment of a receiver. The application was made in good faith and in the interest of all concerned, and it is hoped that a plan of reorganization may be speedily worked out, by which the present embarrassment will be relieved. The assets of the company are believed to be sufficient to pay its liabilities in full, and it is expected that a plan will be presented to the creditors at an early date."

The last annual statement of the company on Jan. 1, 1913, showed assets $14,078,811, and liabilities $2,000,000, exclusive of capital stock and surplus, leaving a surplus of $12,078,811. The assets consisted of real estate valued at cost $12,625,811, loans and investments, including accrued charges and rent, $1,675, and cash in banks and trust companies, $276,975. The liabilities were: mortgages on real estate owned, including accrued interest to date, $2,000,000; three-year gold mortgage bonds, including accrued interest to date, $1,583,000; other liabilities, $21,872; reserves for depreciation and other contingencies, $10,000.

Since this statement was issued the company has announced that its assets have increased $3,000,000 through the purchase of additional property. Among the recent purchases were two six-story apartments on the west side of Broadway from 140th to 141st Street, a few months ago from ex-Gov. Levi P. Morton, who, it is said, took $500,000 in bonds.

Foreclosure Started.

A hint of its financial difficulties was given early in the week, when Emily Losey filed a lis pendens to foreclose a third mortgage on the eleven-story Concord Hall apartment, carrying a plot 100 by 100 on the southeast corner of Riverside Drive and 119th Street, and Charles L. Kingsley was appointed receiver.

The company owns the two-story apartments known as Stadium View and Shore View, from 445 to 449 Riverside Drive, north of 150th Street, nine-story apartments at 218 to 222 and 466 to 472 Riverside Drive, and 268 and 360 Central Park West in addition to a number of six-story houses on the upper west side and in Harlem. There are also four or five parcels in the Bronx.

In the downtown district the company owns the office buildings at 7 Pine Street and 42 Broadway, the latter being its largest individual holding. The building runs through to New Street and is twenty-one stories high. It was purchased on Dec. 31, 1910, at a price given as $2,500,000, but $700,000 were actually about $4,125,000. It stands assessed at $4,300,000. In a suit brought at the time by the architect, Henry Ives Cobb, for unpaid architect's fees against the former owners to prevent the transfer, he swore that the sale agreement was but $2,175,000. A first mortgage of $3,000,000 is held by the Equitable Life Assurance Society. Mr. Cobb's suit was settled for cash.

After obtaining the building the New York Real Estate Security Company began to issue bonds. They were made attractive for the small investor by being issued as low as $500, and a large

Franklin Simon & Co.

Fifth Avenue

"Young Men's Shop"

16 West 38th St.—Store Floor

Entirely separate from Fifth Avenue store

Exclusively devoted to the requirements of Young Men, 32 to 42 Chest.

There is nothing in America to parallel this tremendous selection of

Saks Overcoats for Men

which, not by guesswork, but by actual count, consists of

5,000 Overcoats & 210 Different Styles

¶ In models, fabrics, weights, patterns and colors, the Saks assortments of men's overcoats this season are wonderfully complete.

¶ In the whole gamut of men's overcoat styles there is positively nothing that amounts to anything that we have not got.

¶ In models we can show you every variation of style, from a soft roll collar to the slightest change in the geography of a button.

¶ In fabrics we can place at your disposal selections whose limit is determined only by the limitations of foreign and native mills.

¶ In prices the range is wide, but uniformly low, for whether you pay $17.50 or $65.00 for a Saks overcoat, the value is proportionately the same.

¶ In the tailoring of the overcoats and in the cut of them we have set such standards as are forever beyond the rank and guilty average!

¶ And, in brief, we have put such conscientious and consummate effort into every stitch of Saks overcoats this season that

A Saks overcoat is more accurately described as a decision and not an argument!

FABRICS

¶ Chinchillas, friezes, Meltons, Kerseys, Elysians, close-sheared chinchillas, fancy back coatings, Beauclaires, Sedans, Montagnacs and Crombie coatings. And the range of colors embraces blue, blue mixed, black, Oxford, Cambridge, brown, snuff and tan.

MODELS

¶ Fly front, button through, double breasted, and shawl collar models; Ulsterettes, Raglans, Balmacaans and the newest styles in shapely coats, with velvet collars, self collars, patch pockets, regulation pockets, slanting pockets, and other variations innumerable.

And as a special feature—for such it surely is!

Saks Silk Lined Overcoats at $25

¶ *Made of Oxford, black and gray coatings, in conservative knee length model, with Saks tailoring apparent in every stitch and seam.*

Men's $1.50 Silk Knit Scarfs—today 85c

¶ 1200 accordion knitted scarfs, made of fine silk, in three and four tone colorings. The very latest novelties in smart neckwear—and a singularly liberal value. *85c or 6 for $5.*

Men's Two-Tone Silk Hose—today 29c

¶ 4800 pairs, and every pair a bargain. One of the really big silk hose values of the year. Those smart two-tone combinations, which every man wants. Black with red, white, green, tan or purple.

Men's Fleece Lined Gloves—today 85c

¶ Wool fleece lined suede gloves, in tan, brown and gray. A glove of exceptional merit, well made, and very warmly lined. A glove for comfort, and a comfortable value at today's price.

Men's Tan Cape Gloves—today 95c

¶ Made of imported tan Cape stock, with one horn clasp and English cut thumb. Prix seam sewn, and perfectly made and finished. A swagger walking glove and a swagger value.

Men's $1.50 Union Suits—today 85c

¶ Medium weight cotton ribbed union suits, ankle length and long sleeves. The product of a standard maker. And in just the right weight for the man who objects to bulky undergarments.

Men's $1 Shirts & Drawers—today 65c

¶ Ecru cotton ribbed. The shirt with French neck and elastic ribbed, so that it will keep its shape. The drawers with patented reinforcement at hips and thighs. Extraordinary value.

Men's Fine Shirts (6 for $7) $1.20

¶ 1200 shirts, in fine imported and domestic shirtings and flannels. Plain and pleated models. Soft and laundered cuffs. And negligee shirts with French double cuffs. Don't miss them.

Men's Blanket Bath Robes—at $2.95

¶ A special purchase of 500 blanket robes, in navy blue, brown, green and maroon grounds, with figures and borders to match. Ideal for Christmas giving or for your immediate use.

DANISH PROPOSAL TO 'SWAP' TERRITORY

Plan to Give Greenland to This Country in Return for the Island of Mindanao.

THEN DEAL WITH GERMANY

Empire, It is Thought, Might Accept One of Philippines Group in Exchange for Schleswig Provinces.

Special Cable to THE NEW YORK TIMES.

BERLIN, Nov. 28.—From quarters sufficiently authoritative to withstand the inevitable "official denial," news has just reached THE NEW YORK TIMES correspondent of an interesting political project which, if carried out, would simultaneously alter the maps of Europe, America, and Asia. It concerns a three-cornered exchange of territory between Germany, Denmark, and the United States.

The most important phase of the proposed "deal" concerns Germany's cession of part of Schleswig-Holstein to its former Danish owners. The transfer, as planned by the distinguished and influential Danes who evolved and formally submitted the scheme to the United States Government, would take place in the following ingenious way.

The United States, in return for Greenland, would give Denmark the Island of Mindanao, one of the most important of the Philippine group. Greenland, it is represented by the Danes, is capable of becoming "a second Alaska."

The arrangement would simultaneously confer Denmark's right to transfer Mindanao to Germany in return for Schleswig, which includes the Danish provinces conquered by Prussia and Austria in 1804.

My information is not clear on this particular point, but evidently the Danish promoters of the transaction have canvassed the situation sufficiently to think that Germany might regard an extensive foothold in the Philippine Islands as a quid pro quo for the surrender of the Danish sections of Schleswig-Holstein.

Germany might welcome a larger place in the Far Eastern sun than her present base at Kiau-chow, but it is a grave question if she would regard Mindanao as adequate compensation for a territory bought, like Alsace-Lorraine, with German lives.

AMUSES WASHINGTON.

Skeptical Smiles Greet Story of Mindanao Trade.

Special to The New York Times.

WASHINGTON, Nov. 28.—Skeptical smiles to-night greeted the rumor that Denmark was trying to get the Prussian province of Schleswig in exchange for the American island of Mindanao, provided the United States would exchange the island for Greenland.

The Administration has just pledged itself to the independence of the Philippines, so that the first step in the transaction, involving the permanent transfer of one of the largest of the group to a foreign power, is almost inconceivable.

But from a German point of view those here in a position to know consider the proposed exchange equally impossible. Two bloody wars have been fought for the possession of the Duchy of Schleswig-Holstein, the Duchy is essentially German, and the German Empress is a Schleswig Princess. Still more significant is the fact that the cession of Schleswig would lend the Danish frontier within ten miles of the great Kiel canal, connecting Germany's great naval base at Kiel with the mouth of the Elbe River and the North Sea.

IS LIKELY TO EXHIBIT.

Belief That German Government Will Give Way Regarding Fair.

By Marconi Transatlantic Wireless Telegraph to The New York Times.

BERLIN, Nov. 28.—It is pretty certain that all parties in the Reichstag will seek to move the Government to recede from its present position with regard to the San Francisco Exhibition.

The matter was a subject of active negotiation among the parties this afternoon, and rumors are persistent that the Government will finally consent to an arrangement by which a vote for expenses will be laid before the House as a supplementary estimate.

Should the Government thus give way it will be a great victory for Herr Dalin, the Director General of the Hamburg-American Line.

FRIAS RETURNS TO CUBA.

Government Will Guard Alleged Perjurer Against Enemies.

Special Cable to THE NEW YORK TIMES.

HAVANA, Nov. 28.—José Antonio Frias, who is under $10,000 bonds to return to New York to answer to charges of perjury and forgery of documents in the name of Hugh J. Reilly, the New York, Havana and Cienfuegos contractor, arrived here to-night from Florida. He says he is going to Cienfuegos to visit his father.

The Cuban Government will probably take special measures to insure Frias's safety while he is in Cienfuegos, as great animosity is felt against him on account of his alleged complicity in the killing of Congressman Villuendas several years ago. Until now, Frias has not visited Cuba since that event.

KIEFF IN BAD REPUTE.

Unable to Float a Loan Owing to the Effects of the Beiliss Case.

By Marconi Transatlantic Wireless Telegraph to The New York Times.

LONDON, Saturday, Nov. 29.—A Daily Mail dispatch from Odessa says that the Mayor of Kieff, who, with two members of the Kieff Municipal Council has returned from England, announces the failure of his attempt to float a municipal loan of $7,885,000 in London.

The Mayor informed a representative of the Rievskoe Myssl that his mission had failed owing to the evil repute into which Kieff had fallen on account of the trial of Beilliss on the "ritual murder" charge.

DUEL OVER STENOGRAPHER.

Lawyer Boxes Ears of Officer He Finds with Girl—No One Hurt.

Special Cable to THE NEW YORK TIMES.

BERLIN, Nov. 28.—The perils of entertaining somebody else's pretty stenographer were illustrated in court-martial proceedings in Berlin yesterday.

A few weeks ago a typist employed by a lawyer was discovered at a well-known restaurant in the company of a Lieutenant, an attaché of the Army Engineers' Academy.

When the lawyer recognized the young woman he strode up to the Lieutenant to chastise him for showing her such conspicuous attentions.

In the course of the dispute the lawyer boxed the officer's ears, and the Lieutenant, in accordance with the code of his caste, retorted by demanding the other's card with a view to a duel, which took place next day in the Grunewald Forest, on the outskirts of Berlin.

Although arranged under the usual "deadly" conditions—an exchange of three shots at fifteen paces—the combat ended without bloodshed.

At yesterday's court-martial the only defendant was the Junior Lieutenant, who had carried his comrade's card to the lawyer. In view of the fact that the insult which caused the duel was a grave one, the court imposed the minimum punishment of one day's detention in a fortress.

ITALY BUYS DREADNOUGHT.

Reported to Have Purchased the Rio Janeiro, Built for Brazil.

LONDON, Saturday, Nov. 29.—The Daily Telegraph publishes a report that Italy has purchased the Brazilian dreadnought Rio Janeiro.

According to reports, in the course of the last few months Great Britain, Russia, Greece, and Turkey have all had under consideration the purchase of the Rio Janeiro.

WASHINGTON LETTER IS SOLD FOR $900

Unpublished Holograph Document Refers to First Attack of Madness of George III.

BURNS MSS. IN DEMAND

Collection Brings $1,280—High Prices Realized at Sotheby's for Japanese Color Prints.

By Marconi Transatlantic Wireless Telegraph to The New York Times.

LONDON, Nov. 28.—One of the most important holograph letters of George Washington ever offered for sale in Great Britain was bought by Stevens & Brown at Sotheby's to-day for $900. It is three pages quarto, is dated "Mount Vernon, Feb. 5, 1789," and is addressed to Samuel Powell. In it Washington refers to George III's first attack of madness, saying "Be the cause of the British King's insanity what it may, his situation (if alive) merits commiseration. Better, perhaps, would it have been for his nation, though not for ours (under present prospect) if the event had happened at the time." It was written the day after Washington was elected the first President of the United States, and is said to be entirely unpublished.

An important collection of letters and manuscripts by or referring to Robert Burns, &c., went to J. B. Rown for $1,250.

A series of five long and gossipy letters addressed by Mary W. Shelley, the second wife of the poet, Percy B. Shelley, to Leigh Hunt and his wife, brought $275.

The original war letters of John Churchill, Duke of Marlborough, to George I, relative to the Spanish Succession, sold for $600.

Twenty-one original holograph poems and letters of Walter Savage Landor realized $895.

The original patent, signed "Carol," by the Emperor Charles V, doubling the pension granted by him to the painter, Titian, dated June 10, 1548, brought $160.

Woolicott gave $625 for a folio letter, Dec. 30, 1591, of Sir Walter Raleigh to Sir John Gilbert, his half brother. It refers to an equipment of a squadron, mainly fitted out at Raleigh's expense in 1592. He thanks Gilbert on behalf of Queen Elizabeth for his care in her service. Six months after this letter was written, Raleigh was committed to the Tower of London for carrying on an intrigue with Elizabeth Throgmorton, one of the Queen's maids of honor (whom he eventually married) while professing a lover-like devotion to the Queen.

Jaggard paid $925 for two indentures signed by Henry Fielding, the novelist, his brother and sisters, relative to the family estates dated February, 1737.

The day's total amounted to $10,040.

The sale at Sotheby's of Japanese color prints was ended this afternoon. To-day's session realized $4,460.

A half-length portrait of Ichikawa Monnosuke the Second, signed by Toshiusai Sharaku, brought $245.

Another half-length portrait by the same artist of Bando Hikosaburo sold for $370.

Half-length portraits of Arashi Rikuso and of Sakaiya Shukaku, both by Sharaku, were knocked down for respectively $285 and $250.

A lock of George Washington's hair, which is said to have been cut from his head after he was placed in his coffin, brought $100 in a sale yesterday by the George H. Richmond Company, 15 East Forty-fifth Street. It was accompanied by a letter of Lewis S. Coryell, dated New Hope, Nov. 24, 1845, and addressed to Samuel R. Brooks of this city. Coryell in the letter says that his uncle, George Coryell, "one of the 6 who laid the General in his vault, cut the lock of hair from the head, so that there can be no 2d hand in the business." There was also a statement signed by Lewis S. Coryell that "these six were the officers of the Masonic Lodge to which the General belonged."

ANOTHER CUCARACHA SLIDE.

Dredges Working on 150,000 Yards of Earth in Canal Channel.

Special Cable to THE NEW YORK TIMES.

PANAMA, Nov. 28.—Slides at Cucaracha continue to bother the dredges. The last, which occurred two nights ago, set in motion 150,000 cubic yards of material, one-third of which entered the canal channel.

Six steam shovels are operating on the upper levels of the slides at Culebra to reduce the pressure, and will continue till Dec. 15. Four others are working on the east bank, and will continue indefinitely.

HELD FOR PANAMA FIRE.

Dr. Joaquin Arias Arrested Following Burning of Offices.

Special Cable to THE NEW YORK TIMES.

PANAMA, Nov. 28.—Dr. Joaquin Arias, scion of a prominent wealthy family, has been jailed following an investigation early this morning of a fire which destroyed offices and neighboring shops on Central Avenue.

Bail was refused. His arrest is the sole topic of conversation on the Isthmus. The offices were heavily insured.

Offer to Library of Congress.

By Marconi Transatlantic Wireless Telegraph to The New York Times.

LONDON, Nov. 28.—Bertram Dobell, the well-known London book seller and poet, has offered to the Library of Congress at Washington a unique collection of 1,600 privately printed books and pamphlets, which are now being dispatched to America. The collection represents the labor of forty years.

SKIPPER WINS; NAVY LOSES.

British Attorney General Intervenes to Stop Suit for Damages.

By Marconi Transatlantic Wireless Telegraph to The New York Times.

LONDON, Nov. 28.—The grizzled skipper of a fishing smack, who might have stepped out of one of W. W. Jacobs's novels, has emerged triumphant from a conflict with the Admiralty. The battle was not fought at sea, but in Lord Chief Justice Isaacs's court.

Capt. George Walton, master of the trawler Explorator, sued officers of the gunboat Tennyson for damages for alleged trespass on the Explorator and for false imprisonment.

The case occupied two days, causing no little merriment, and came to an unexpected end to-day by the intervention of Attorney General Simon on behalf of the Crown.

The skipper charged that while his boat was in the harbor of Lerwick the Commander of the Tennyson put aboard Lieut. Higgins, who took charge of the Explorator, removed her to a dangerous anchorage, and detained Walton two hours. The defendants pleaded that they had acted under instructions from the Harbor Master.

Attorney General Simon said that he had read about the suit in the newspapers, and intervened because the public interest involved was far above the private interests concerned. He added that he had arranged a settlement, and that the Crown and not the defendants should pay the damages the skipper had sustained, the object being to promote renewed good feeling—if possible, even better feeling—between the fishermen and the Admiralty.

Lord Chief Justice Isaacs said that the worst that could be said about the defendants was not a serious charge against young navy officers, and that they had perhaps been unduly impressed with the importance of being officers of the navy.

WIRELESS AND CABLE TO THE TIMES

ENGLISH TONGUE TOPIC OF EDUCATORS

Sir Walter Raleigh Objects to Cast-Iron System Affected by Pedants.

REVOLT IN UNITED STATES

Dr. Maxwell Criticises High School Teaching—Fines for Faulty Speech in the West.

By Marconi Transatlantic Wireless Telegraph to The New York Times.

LONDON, Nov. 28.—Sir Walter Raleigh, presiding at the meeting of the Academic Committee of the Royal Society of Literature, at which the Edmond de Polignac prize of £100 ($500) was awarded to James Stephens for his "Crock of Gold," said that in a recent manifesto, largely inspired by the Poet Laureate, were set forth the possibilities for a movement for pure English.

As he read the manifesto, Sir Walter said, he saw that what the movement meant by pure English was what some persons would hastily call impure English. What had to be battled with to-day was not ignorance, or dialect, or the native vigor and self-expression of a man, but the cast-iron, half-educated system of those who had newly learned to read, or, worse than that, of those who had newly learned to teach that pedantry, quite unknown in English literature of old, which had become almost the rule with a large circle of readers.

HIGH SCHOOL ENGLISH POOR.

Dr. Maxwell Outlines His Idea of a Proper Course for Pupils.

Special to The New York Times.

ALBANY, Nov. 28.—Supt. of Schools William H. Maxwell of New York aroused the interest of the convention of college Presidents, school teachers, and Principals in the State Board of Education Building to-day by expressing the view that in the high schools insufficient attention was paid to the teaching of English. This was coupled with the further statement that in order to teach English properly it was not necessary to devote five periods a week for four years.

He said that teachers other than those of English could be of material assistance if they would insist that in their classrooms nothing but the best of English be spoken. This could be done just as well in the room where Latin was taught as in any other room.

"The American schools," he declared, "spend four times as much money as do the English, Scotch, and Irish schools. Do you get any better writing from your American student? Not at all! You are compelling the students to write daily themes whether they have anything to say or not. You can only get good writing when the writer has something to say.

"Another thing I do not believe—that it is necessary to force the high school students to read classical English literature. To compel them when they are not ready for this kind of reading only disgusts them."

In outlining his idea of a high school course Supt. Maxwell said he would include geometry, not so much for what it taught the student as because it was the best possible training to lead to proper reading. He would teach the rudiments of geography, biology, physics, and chemistry, and omit the great events of history. In addition to these subjects he would pick out two to run through the entire course upon which class work should be done. The choice might be between Latin or Greek and two of the modern languages and the sciences.

FINES FOR FAULTY SPEECH.

Educator Suggests a Society to Prevent Cruelty to Words.

CHICAGO, Nov. 28.—Joseph Jastrow of the University of Wisconsin, speaking here to-day before the National Council of Teachers of English, told of an experiment in assessing fines for the use of fifty objectionable expressions in ordinary conversation. The fines were graduated from 1 cent to $1, as each offense appealed to the indignation of the hearer. The judges, sixty-eight in number, were chosen, half from the auditory east of the Allegheny, half from the rest of this country. Among them were college professors, newspaper editors, and readers for prominent publishing houses.

An average fine of nearly 40 cents for each offense was the outcome. Prof. Jastrow suggested that the revenues from enforcement of the fines against violations of good English would make a substantial fund to be distributed in prizes by a society for the prevention of cruelty to English speech.

F. N. Scott of the University of Michigan, whose topic was "The Undermind Gate," asked: "Of what use is it to drill pupils in grammar to secure five correct sentences, to spend month after month in the reading and study of English masterpieces, if steadily day by day, some powerful disintegrating agency pulls down all that we have accomplished?"

Not even the Bible, Prof. Scott said, could now compete with the daily newspaper as the most powerful and most pervasive influence of our day and nation. Accordingly Prof. Scott urged that the language as well as the spirit of the newspaper should be the equal of that required of any other daily visitor to the daily circle.

Moving pictures were blamed by Percival Chubb of St. Louis as one of the direct influences in debasing the language. He urged a return to the use of all the senses. Culture, he said, was becoming increasingly eye-minded, and he urged the development of ear-mindedness, musical auditory sensitiveness and responsiveness the touchstone of good usage.

PRAISES NEWSPAPER STYLE.

Becoming More Essential to Writers' Equipment, Says Prof. Beckman.

MADISON, Wis., Nov. 28.—"The newspaper style, which is becoming more and more essential in the equipment of every successful writer, is the clearest, most concise, and most interesting style in which things can be written," said Prof. F. W. Beckman of the Department of Journalism of Iowa State College to-day, in addressing the American Conference of Teachers of Journalism.

"In the news sense, the ability to see what is new and its new meaning to the great mass of humanity, is necessary to men in every field of endeavor, but especially to men who write.

"It is the news sense which enables the writer to see through a mass of non-essentials to the essential, through dead rubbish to living facts, through husks and shells to the kernels of truth. It is the news sense that gives the writer understanding of and sympathy with common activities of men so that he can find what will interest them."

LAW AND CARSON IN DUBLIN.

Suffragettes Try to Reach the Unionist Leader and Are Arrested.

DUBLIN, Nov. 28.—The Unionist Party to-day carried the war into the enemy's territory. Andrew Bonar Law, leader of the Opposition in the House of Commons; Sir Edward Carson, leader of the Irish Unionists, and other prominent men arriving here to deliver in the Irish capital a series of speeches on Home Rule.

In reply to a deputation which welcomed him, Mr. Bonar Law reiterated that the Unionists had opposed consistently and completely the whole idea of the separation of Ireland from the United Kingdom, and insisted that the Government must seek the sanction of the people before attempting to make the change.

'SUFFRAGE MARTYR' SAID TO BE ALIVE

Votes for Women Is Asking for Funds for a Monument to William Bethell.

FORMER TACTICS REVIVED

Militant Padlocks Herself to a Chair and Interrupts a Meeting—Miss Forbes-Robertson Freed.

By Marconi Transatlantic Wireless Telegraph to The New York Times.

LONDON, Saturday, Nov. 29.—The Daily Mail gives prominence to a story entitled "A Suffragette Martyr."

The pathetic narrative in The Mail is inspired by one told in Votes for Women. It is of the sad death of a "young suffragist martyr," William Bethell, aged 19, who, it is alleged, died from injuries received while being forcibly ejected from a meeting addressed by Dr. Macnamara at Camberwell. Subscriptions are asked to raise a worthy memorial over his grave.

Unfortunately, according to The Daily Mail, despite the wide publicity given to the case, the most exhaustive inquiries have failed to discover whether Bethell died, who saw him die, who certified to his death, and where he is buried. Bethell's father, moreover, is convinced that his son is alive and well with his wife and two children in Canada.

Votes for Women recorded with the deepest regret the death of William Bethell, heading the paragraph: "Death Cannot Kill What Cannot Die," and adding in a later issue, "It is of the utmost importance that the facts be sifted to the bottom."

The Mail has now investigated, with the result that it announces that there is no evidence of the death of the "suffragist martyr," William Bethell, beyond the word of an unknown young man, who told William's brother that he had died under the circumstances related in Votes for Women.

Scotland Yard has been communicated with and Coroners have searched the records of deaths, but have found no trace of Bethell.

LONDON, Nov. 28.—Militant suffragettes are returning to their old tactics. One of them fastened herself to a chair in Caxton Hall to-night with a chain and padlock and shrieked "Votes for Women!"

The Right Hon. Joseph Albert Pease was forced to suspend his speech for several minutes while the stewards endeavored to remove the suffragette. They had to smash the chair before this could be done.

Two suffragettes, who resolutely refused to give their names, were committed for trial at Leeds to-day on a charge of arson. Both complained to the Magistrate of the cruelty of the doctors and male warders in an attempt to overcome their resistance to having their fingerprints taken. The Magistrate promised to refer the matter to the Home Office.

BIRMINGHAM, Nov. 28.—Miss Forbes-Robertson, sister of Sir Johnston Forbes-Robertson, the actor-manager, has been released from prison.

She was sentenced on Nov. 24 to a term of two weeks on a charge of smashing a window on the occasion of Premier Asquith's visit to Birmingham in July and immediately went on a hunger strike. Her condition became such that her release was considered advisable.

"THE PROPHETS"—IN COLORS.
John S. Sargent's famous paintings from the Boston Library will be reproduced in the original colors as a section of the Christmas Number of The New York Times, Sunday, Dec. 7. The edition will be sold out in advance. ORDER NOW. —Adv.

The NAVY Is the Favorite!

Although there are many other colors in these

Men's Winter Suits and Overcoats

Which Are On Special Sale Today **At $15**

Although They Were Made to Sell at $25 and Even Higher

Like the great Army and Navy Game today—TONIGHT IT WILL BE ALL OVER BUT THE CHEERING.

This is another case of *blaming the weather*—manufacturers *will* get fretful over a backward season.

We had offers in plenty, but this particular offer was too good to disregard.

There is not a Suit or Overcoat in this assortment that would sell at less than $22, and every garment is tailored according to GIMBEL specifications.

The Overcoats, $15

NAVY blue and gray chinchilla, double-breasted Ulster models and the three-quarter length styles — Winter Chesterfield models in staple black and Oxford gray.

Fancy Overcoats in which assortments are included fine warm, double-breasted Greatcoats.

The Suits at $15

NAVY blue, in cheviots, unfinished worsteds and serge, also plain black, grays, browns, mixtures and pin stripes.

Nine distinct models in the newest styles, the extra close-fitting coat with soft rolled lapels and other smart types, as well as conservative styles.

A special corps of capable salespeople for rapid and satisfactory service.
Fourth Floor

To Help You Keep Warm at the Game

You will find Men's and Women's Angora Garments, Furs, Steamer Rugs, Lined Gloves, Thermos Bottles and other cold repellers, quickly at your command this morning.

SCRIBNER'S MAGAZINE

Some Important Announcements for 1914

Theodore Roosevelt in South America

He will contribute to Scribner's Magazine the account of his trip of adventure and research into the Paraguayan and Brazilian interiors, through the great tropical forests which so few white men have ever traversed.

From the *New York Sun*:

COLONEL ROOSEVELT IN HIS MOST ATTRACTIVE RÔLE

No living American can be better qualified to explore the wilds of South America and to describe its flora and fauna and its savage and tremendous scenery with a sympathetic and kindling interest than Theodore Roosevelt.

A Famous Writer's First Long Novel

Early in the year the Magazine hopes to begin the first long novel by an American author whose work has been not only of the first rank but based upon a deep and unfailing optimism. His short stories and poems are among the best known wherever the English language is read, and his first novel will be awaited with uncommon interest.

By Madame Waddington

A new series of articles—"My First Years as a Frenchwoman, 1876-9." The political and social aspects of these years, important personages of the times in diplomacy, literature, and art, the people met at state functions, dinners, balls, the opera, the theatres, are commented upon in the author's own inimitable and delightful way.

Articles by Price Collier

The late Price Collier, author of "England and the English from an American Point of View," "Germany and the Germans from an American Point of View," etc., had completed several of his projected articles on the SCANDINAVIAN countries. These are expected to appear in the Magazine during the coming year.

By Richard Harding Davis

"Breaking into the Movies." Some of the excitement and humor of staging a great moving picture play.

Short Stories

By Rudyard Kipling, Sir Gilbert Parker, Henry van Dyke, Richard Harding Davis, Katharine Holland Brown, James B. Connolly, Mary R. S. Andrews, Gordon Arthur Smith, Mary Synon, Barry Benefield, Abbie Carter Goodloe, and many others.—A remarkable group of stories by Katharine Fullerton Gerould, author of "Vain Oblations."

A Short Serial: Maje

A Love Story by Armistead C. Gordon. A tender idyllic story of the old South.

Subscriptions to Scribner's Magazine may be sent direct to the publishers or to any bookseller, newsdealer, or subscription agent. The price is $3.00 everywhere.

CHARLES SCRIBNER'S SONS
FIFTH AVENUE, NEW YORK

GENERAL ELECTRIC STRIKE SETTLED

Compromise Agreement to be Signed To-day and Entire Force to Return Monday.

PART-TIME WORK FOR ALL

Dujay and Miss Leslie to be Transferred—Strike of Trolley Employes Averted.

Special to The New York Times.

SCHENECTADY, N. Y., Nov. 28.—Although no definite announcement was made to-night at the termination of a conference of General Electric officials, the strike committee, and Mayor Lunn, it was learned that an agreement had been reached for the settlement of the General Electric strike which had been in progress all week.

The conferees adjourned until 9o'clock to-morrow morning, when it is expected the agreement in proper form will be signed, in which case the 14,000 strikers will return to work next Monday morning. It is known that the plan will be adopted of taking all employes back on part time instead of allowing some to work the full number of hours and others to be laid off altogether, an arrangement to which the employers objected. Frank Dujay and Miss Leslie, whose lay-off caused the strike, will have employment, but not in the same departments as before. They will have work, however, that will allow them to earn the same wages as before.

By this compromise neither company nor strikers can claim a victory. The conference started early this morning, and after an hour and a half adjourned until 3:30 o'clock. From that time until 8 o'clock the committee and officials were closeted in Mayor Lunn's office.

No Change in Management.

After this morning's conference General Manager G. E. Emmons of the company issued this statement:

In view of current reports which seem to have been widely accepted by the employes of the General Electric Company to the effect that the management of other works has influenced the situation in Schenectady, even to the extent of a contemplated change of management and policy of the company, I desire to say that all such rumors have been, and are, unqualifiedly false and absolutely without foundation.

On the contrary, I have recently received marked evidence that my policy during the eighteen years that I have had full charge of the Schenectady works has received the most cordial and complete indorsement of the Chairman, President, and Directors of this company. It will be my constant endeavor to deal with all differences which may arise with the same consideration and spirit of fairness by which I have been guided in the past.

Mr. Emmons announced that W. C. Fish, Manager of the Lynn, Mass., works, would not become Manager of the local factory. Mr. Emmons said he would remain in charge at Schenectady. The men said that Fish was antagonistic to union labor.

State Mediators Arrive.

William C. Rogers and James McManus of the Board of Mediation and Arbitration of the State Labor Department arrived here to-day to do what they could for the settlement of the strike. They said James M. Lynch, State Labor Commissioner, who was asked by Governor Glynn to endeavor to bring about an amicable settlement, was ready to come to this city should his presence be deemed necessary.

The 14,000 strikers, headed by a drum corps, marched to the works shortly after 1 o'clock, and received their weekly pay, it being the policy of the company to keep one week's wages. There was not the slightest disorder.

Many thought yesterday that a trolley strike was inevitable. The difficulty, however, was satisfactorily adjusted this morning. Until to-day street cars were operated over a loop right into the property of the General Electric Company. Employes who did not walk out could stay in these cars and ride into the plant without coming into contact with the pickets. The traction employes determined yesterday that the trip over the loop should be eliminated, and this morning the cars began to unload their passengers outside the plant. Officials of the traction company consented. Only 200 employes besides the office staff went to work this morning.

DEFENDS SISTINE MADONNA.

Saxon Minister Indignantly Denies That It Is a Copy.

Special Cable to THE NEW YORK TIMES.

BERLIN, Nov. 28.—"The Sistine Madonna is a genuine Raphael," was the declaration made in stentorian tones in the Saxon Parliament at Dresden to-day by the Saxon Minister of Education, who said that no time must be lost in denying, "before the whole world," a story just put into circulation to the effect that the greatest gem in the Dresden Gallery, before which so many thousands of American picture lovers have worshipped, is only a "copy."

The Minister went on to explain that the story had arisen from a chance remark of his to the effect that the Holbein Madonna in the Dresden Gallery was a 100-year-old copy of the original, which hangs in Darmstadt.

In some unexplained manner the version got abroad that the Minister had pronounced the "Sistine Madonna" to be a copy.

Addressing the House with great feeling, the Minister asserted that he must protest with all emphasis against these irresponsible aspersions on "one of the greatest art treasures of all ages," and against such an affront to the honor of the Dresden Gallery.

JAIL FOR THIS CHAUFFEUR.

Made Zigzags with Auto After Drinking Too Much.

Found guilty of driving an automobile when he had been drinking too much, Charles R. Seyler, a young chauffeur employed by D. Wyatt Aiken of 326 Walton Avenue, Yonkers, was given his choice between $75 fine and thirty days in jail yesterday by Magistrate House in the Harlem Court.

He was also fined $2 or two days on each of two other charges, one that he had failed to display his badge and the other that he had been driving with his front and tail lights out.

Seyler was arrested on Thursday night when he was taking the car down to Delmonico's, where Mr. Aiken was waiting for it. Policemen Gleason and Weis saw the machine zigzagging down Eighth Avenue, commandeered another car and chased Seyler for two miles.

Wilbert Brown of 332 West Forty-seventh Street, a companion of the chauffeur, who tried to prevent the arrest, was fined $10, and, as neither man could pay, both were sent to jail.

Dinner to Joseph S. Marcus.

The Directors of the Hebrew Kindergarten and Day Nursery of 20 Montgomery Street gave a dinner last night in honor of Joseph S. Marcus, President of the Bank of the United States, at Beethoven Hall, Fifth Street near Third Avenue, in recognition of his services on behalf of the institution. Among those present were Congressman Henry M. Goldfogle, Assemblyman Sufrin, Abraham S. Sarasohn, and Judge Otto A. Rosalsky.

"THE PROPHETS"—IN COLORS.
John S. Sargent's famous paintings from the Boston Library will be reproduced in the original colors as a section of the Christmas Number of The New York Times, Sunday, Dec. 7. The edition will be sold out in advance. ORDER NOW. —Adv.

BRYAN SPEAKS TO PRINTERS

Living Owe Duty to Unselfish Dead, His Thanksgiving Thought.

Special to The New York Times.

WASHINGTON, Nov. 28.—Speaking to an audience of 2,000 at the Thanksgiving celebration to-day of the employes of the Government Printing Office, Secretary Bryan said that people now living owed a duty of thanks not only to God but to men and women long since dead who had labored in the cause of humanity. These thanks, said the Secretary, should take the form of definite service. "We owe it," said Mr. Bryan, "to those whose labors have enabled us to enjoy our political privileges, our religious ideals, and our educational advantages to so live that we leave the world better than we entered it."

MISS WILSON, CIVIC WORKER

President's Eldest Daughter Calls Conference at White House.

WASHINGTON, Nov. 28.—Miss Margaret Wilson, the President's eldest daughter, has called a meeting at the White House Monday evening of the Recreation Committee of the Woman's Welfare Department of the National Civic Federation, to consider bills about to be introduced in Congress for wider use of school buildings in the capital and for the corelation of recreation activities here.

A special committee will submit a report which asks for public swimming pools throughout the city and other municipal improvements.

Altar in Memory of W. R. Grace.

In memory of his father, William R. Grace, former Mayor of New York, Joseph P. Grace, the amateur horseman, will present a $25,000 altar to St. Aloysius Roman Catholic Church at Great Neck, L. I. The cornerstone for the new church building will be laid to-day by Bishop O'Donnell. The late Mayor Grace was one of the organizers of the church.

"Everybody's Going to THE BIG STORE"

We Make It To Your Advantage to

Do Your Christmas Shopping Early

The Big Store this year, as in past years, places itself on record as being heartily in sympathy with the movement inaugurated for EARLY CHRISTMAS SHOPPING.

And there is every good reason why you should do your Holiday shopping earlier. You can certainly make your selections in greater comfort NOW than later on, when the inevitable Christmas rush sets in.

Furthermore, assortments are at their very best now, and your choice is more attractive. This advantage is for EVERYBODY.

And as a Further Inducement, TO OUR CHARGE CUSTOMERS:

All purchases made until Dec. 10th, inclusive, will be entered on bills rendered Feb. 1st, 1914.

And if you are not a charge customer already, we will make it easy for you to become one. Details may be had on application to our Department of Accounts, Balcony, Main Building.

FOR FEDERAL-OWNED RAILWAY IN ALASKA

Bill Reported to House Authorizes $35,000,000 Bond Issue to Build System.

EXPECT WILSON'S SUPPORT

Secretary Lane Outspoken in Approval of the Project—Similar Bill Now Pending in Senate.

Special to The New York Times.

WASHINGTON, Nov. 28.—A bill that is expected to have the support of the Wilson Administration, committing the Federal Government to a policy of Government ownership of railroads in Alaska, has been agreed upon by the House Territories Committee as a general substitute for various pending measures dealing with the subject. A similar bill already has been reported to the Senate and will come up for consideration on Dec. 8. The measure will be bitterly fought by opponents of Government activity in spheres of private business.

The bill, which has been favorably submitted to the House, with an elaborate report that was made public today, provides for the construction by the Government of a standard-gauge railroad system in Alaska. The road would connect one or more of the Pacific Ocean harbors on the southern coast of Alaska with the navigable waters in the interior and with coal fields yielding coal sufficient in quantity and quality for naval uses.

The cost of the project is limited to $35,000,000. The bill would authorize the Secretary of the Treasury to borrow on the credit of the Government $35,000,000 on a bond issue triannually redeemable in 100 years and payable in thirty years, with interest at 2 per cent. annually. The cost of the railroad, it is proposed to appropriate $1,000,000 annually out of the Federal Treasury to pay the incidental expenses of the project.

Approved by Secretary Lane.

At least one member of President Wilson's Cabinet is strongly on record in favor of a government-owned road. This is Franklin K. Lane, Secretary of the Interior, which has jurisdiction over Alaskan affairs. For two years Secretary Lane has been a strong advocate of a railroad to be built by the Government in Alaska. Mr. Lane, who had been a railroad attorney before his Cabinet appointment, has spoken on a Government road in Alaska.

"I favor the adoption of this policy," said Secretary Lane last night, "because I believe it will be the most economical and most successful way to develop Alaska's resources. Alaska is rich in coal, copper, timber and other natural resources within the reach of the world. In case of war," says Mr. Houston's report, referring to figures supplied last year by Mr. Meyer, then Secretary of the Navy, the freight on coal for only one year's supply for the fleet would amount to $10,000,000. But when the Panama Canal is completed and the transit is reduced one-half, it is still an enormous item to pay for carrying coal to Europe instead of Alaska. Besides, the Secretary of State in the Taft Administration, Philander C. Knox, has stated that when the Panama Canal is completed many of the ships using it may be served by the construction of the railroad provided for in this bill."

NEW ROTHSCHILD SUIT.

Thomson Seeks an Accounting from Cotton Brokers.

Richard Thomson, a cotton merchant of Paris, Ontario, has begun suit against the brokerage firm of Morris H. Rothschild & Co. for an accounting. Mr. Thomson says in his complaint that at the solicitation of the firm he opened with them an account on a discretionary or optional basis to trade in cotton. The arrangement lasted from Dec. 1, 1910, until Nov. 26, 1911. He says that the firm never made any statement of the account and paid no attention to repeated demands for it.

Mr. Thomson alleges that the firm owes him about $60,000, but the firm denies this and says that Mr. Thomson is indebted to it in the sum of $10,000. Thomson states that the intention of both sides in the controversy was merely to gamble on futures in cotton.

Mr. Thomson said he was told by employees of the firm that accounts were never touched. Robert Lewis Richey, counsel for the firm, said yesterday that Thomson's charges that the intention of both sides in the controversy was merely to gamble on futures in cotton were "absolutely false." He said that Thomson was a customer of the firm for two years and that during that time he made a profit of $10,000. Richey said that Thomson's account was closed by mutual consent.

FORESEES A POTATO CORNER

Speculators Buying Up the Country's Crop, Says Irish Official.

WASHINGTON, Nov. 28.—A new phase of the cost of living problem was brought to the attention of the Department of Agriculture to-day. T. P. Gill, Secretary of the Irish Board of Agriculture, told Secretary Houston that speculators in the large cities of the United States were actively buying up this year's short American potato crop and planning to hold our far higher, counting upon the existing quarantine against potatoes from many foreign countries to aid them in their undertaking.

Mr. Gill is here to urge the removal of the embargo on potatoes from his country. He insists that the powdery scab found on potatoes imported from Ireland is no cause for a quarantine, because a similar blemish already is common in the United States, and says that continuance of the embargo will contribute to the growing cost of living.

Secretary Houston and the Federal Horticultural Board held a conference after Mr. Gill's statement, but no action was announced.

Representative McKellar of Tennessee, author of a pending bill to prohibit the keeping of products in cold storage for more than ninety days, was in conference to-day with Department of Justice officials over the Department's investigation of the storage of eggs, poultry, and dairy products. It is said that a preliminary inquiry has revealed that 40 per cent. of the present egg supply held in storage is in the hands of the great meat packers of the country.

MONTREAL, Nov. 28.—The Canadian Government will shortly create a commission to inquire into the high cost of living, according to an Ottawa dispatch.

The Government, it is said, has had the subject under consideration for some time, and statistical experts of the Labor Department have been making a searching analysis of prices throughout the Dominion, comparing them with those of other countries, especially the United States.

Mrs. Thomas Here for Operation.

Mrs. R. H. Thomas returned on the Lusitania yesterday from England, suffering from appendicitis, and will go to a sanitarium immediately to undergo an operation. She was accompanied by her husband, and said that she intended to return to Paris after the operation.

ROBS OUR CONSUL GENERAL

GENOA, Nov. 28.—While the American Consul General, Dr. John B. Jones, was visiting Rear Admiral Beatty of the United States battleship Connecticut today a thief slipped into his room at a hotel and stole jewelry to the value of $800.

The Consul General has notified the Genoa authorities of his loss.

The Truth

Every statement in our advertisements is absolutely the truth.

Our department managers attach their signatures to their part of the advertisements as a bond for truth and these signed papers are kept on file.

If at any time you should see what you believe to be a misstatement or exaggeration, we respectfully request that, as a favor to us, you will report it to the Executive Office for investigation and explanation.

M'ADOO TO AID BANKS UNDER NEW SYSTEM

Treasury Resources Available if Needed to Comply with Currency Law, He Says.

WILL SUFFER NO HARDSHIPS

Restricting Credits Needless—Glass Answers Vanderlip on Fiat Money—Bill Still in Caucus.

WASHINGTON, Nov. 28.—Complaints to the effect that the national banks of the country have been restricting credit to the injury of business by refusing to handle commercial paper in usual quantities induced Secretary McAdoo of the Treasury Department to issue a statement late this afternoon, saying there was no ground for apprehension over the requirements of the proposed currency law. The Secretary also proffered thirty days' grace for the repayment of deposits granted to banks for crop-moving purposes.

According to the information submitted to Secretary McAdoo, the banks were curtailing credits, based on commercial paper, and advising bankers throughout the country to keep the assets as liquid as possible in order to be able to meet the requirements of the new currency law. Secretary McAdoo asserts in his announcement that if this is the reason for any curtailment of credit the bankers are acting under a wholly mistaken point of view, because the new currency law will impose no hardship on the banks, and the Treasury Department has large available resources which Mr. McAdoo will not hesitate to use for the purpose of aiding the banks to comply with the new currency law. Secretary McAdoo said in part:

Senator Pomerene to-day sent to the Secretary a letter from a prominent manufacturer in Ohio, in which he says:

"It has, of course, been quite as apparent to you as to those of us who are trying to manufacture and market commodities that during the summer and fall business in all lines has been considerably incommoded by the disposition on the part of many bankers to refuse to handle commercial paper in anything like the usual volume when according to all indications idle funds were available."

A prominent note broker advised the Ohio manufacturer as follows:

"The large banks in the large cities have not been buying any paper since March, and have advised their country correspondents to make themselves just as liquid as possible, and stay so, in order to meet the provisions of the bill, to which cause we are indebted for a scramble."

The Secretary said that similar complaints had come to him from other parts of the country.

The Secretary expressed the conviction that the new law will impose no hardships on the banks, and that the transfers of capital and reserves to the proposed Federal reserve banks will be accomplished with little or no inconvenience to the banks and to general business. The Secretary said that the Treasury Department had large available resources at its command; that he should not hesitate to use them for the purpose of aiding the banks to comply with the new law, and that, in his opinion, the banks could with perfect safety proceed with the granting of accommodations to their customers in the normal and usual way.

The Secretary said that he did not, of course, assume to advise the banks—he only wanted them and the American public to know that there is no ground for apprehension, and that the attitude of the Treasury Department is to be helpful, and that he thought it could be effectively helpful. He said that if any banks are labouring under the impression that the new law will not necessitate on occasion a restriction of credits, they are undoubtedly in error, as no such thing will result.

The Secretary stated that up to date the banks had called upon the Treasury for only $24,601,000 for crop-moving purposes; that these deposits were under the arrangements to be returned in four instalments, beginning Dec. 15 and ending March 1.

The Secretary said that he would consider favorably, and upon its merits, the application of any national bank holding crop-moving deposits for a postponement for thirty days of the time for beginning repayments, so that payments may begin on Jan. 15, 1914, instead of on Dec. 15 next, as now provided.

CAUCUS VOTE TO BE BINDING.

Leaders Plan Such Action on Bill—No Republican Caucus.

Special to The New York Times.

WASHINGTON, Nov. 28.—The caucus of the Democratic Senators, with a small attendance, continued to-day its consideration of the Owen-Glass Currency bill. While several matters of importance have so far been passed over, the leaders hope to complete their work by to-morrow night, when a vote will be ready to be taken to make it practically certain that the bill will not be materially altered from the draft presented to the Senate by the Democratic half of the Committee on Banking and Currency.

No secret was made to-day of the intention of the leaders to pass a resolution making the action of the caucus binding upon all Democrats. But this action will not be important. The mere fact that a caucus rescinder is certain to be offered in itself exerts all the pressure upon a member of the party that a binding restriction could exert. Senator Hoke Smith, of Georgia, and Mr. Bankhead, of Alabama, who have already announced their refusal to abide by caucus action, will persist in their attitude, but even they will vote as nearly as they can consistently permit in accord with the wish of their party.

The conference defeated a proposal to broaden the redemption features of the bill so as to make it certain, as the framers say they now believe, that it would be impossible at any time for the United States Treasury to be forced into the position of paying gold to redeem Federal reserve notes. It is probable that the final redaction be drafted strictly to gold, and after a lengthy debate to-night this position was upheld by the conference. The bill as now agreed to permits the Federal reserve agents to furnish gold or lawful money at the regional banks, but in gold only at the Treasury.

A change was agreed to making the new Treasury notes acceptable for the payment of bank duties. This was opposed by the committee that drafted the bill on the ground that the actions of banks in the payment of their own receipts furnished one certain method of getting gold in time of need for the use of the Treasury.

To avoid the effect of positions on the Federal Reserve Board as stepping-stones to banking positions where their experience would be of great benefit, the caucus adopted an amendment making a member of the board ineligible for two years to any office connected with a member bank. Though this action does not strike at fundamentals, it is an exception as any that the caucus has so far ordered.

The paragraph allowing national banks to act as executors and administrators was referred back to the committee, to be so drawn that it would not conflict with the laws of various States.

The question of the number of regional reserve banks to be created has been left open, and probably will be taken up to-morrow for settlement. The Georgia Senators insist that if the South is to have a regional bank it should be located in Atlanta.

The Republican Senators will probably not take up the Currency bill as a party measure. Leaders said that they had no plans for a Republican conference, and that their efforts to amend the bill would be taken up on the floor without regard to any agreement the Democrats may reach.

RAILWAY CASUALTIES UP.

June Quarter Shows Increase Over 1912—Total Killed 2,535.

WASHINGTON, Nov. 28.—The Interstate Commerce Commission's accident bulletin for the quarter ended June 30, 1913, shows that, as compared with the corresponding quarter of 1912, there was a total increase of 1a in the number of persons killed and of 8,358 in the number injured in railroad accidents in the United States. There was an increase of 124 in the number of train accidents. Defective roadway and defective equipment together caused more than 40 per cent. of all derailments reported, 18.1 per cent. being caused by broken rails.

The total casualties were 2,535 killed and 30,011 injured. The collisions and derailments numbered 2,040. The financial damage caused by the accidents was $6,394,522, a material increase.

Dr. Grenfell Visits Hospital.

Dr. Wilfred T. Grenfell, the famous missionary, made two visits to the New York Orthopedic Dispensary and Hospital on East Fifty-ninth Street yesterday, in order to study the methods used in that institution for the correction of various orthopedic deformities and particularly the treatment of Pott's disease. In the afternoon a special demonstration was given for him in the operating room.

A Special Price Disposal of
Winter Coats, Suits and Dresses
For Women, Misses and Young Girls

WHEN ROSES BLOSSOM out of doors in November the makers of winter garments naturally find their orders dwindling. Loeser's has in the past been the recourse of overloaded makers at such times, and now again we are able to help those whose product is of high standard to a ready market.

Hundreds of garments (chosen from thousands) will be here to-day at the lowest prices of the year.

Included also are Suits, Coats and Dresses from our own lines that have come down to few of a kind or to broken sizes.

Women's and Misses' Astrakhan Coats at $17.50

Winter Coats of notably fine quality and good style. Close curling astrakhan, long revers of seal plush and rolling collar that may be worn high at the throat.

Another model of equal value has inlay shawl collar of plush and deep cuffs with top border of the astrakhan.

Misses' Chinchilla Coats, $8.95. Values to $16.50

Chinchilla and some made of fancy mixtures. Some are lined with flannel, with satin yoke and sleeves. Some have belted backs; some convertible collars; others large pockets.

Women's Coats, $25 Unusual Variety

Zibeline, bayadere cords, chinchilla, plaid back or fancy lined; of plush, of silk matelasse, ripple cloth, boucle, Ural lamb, astrakhan, wool matelasse, diagonals, broadcloths, cut stripe chinchillas and other handsome materials.

Every woman can find something to suit her at this price. And in every instance the coat will prove worth from a fifth to a half more than $25.

135 Women's Winter Suits Reduced to $12.50, $15 and $20

Reduced from much higher prices, but Suits that have now come to broken lines, although all sizes, 34 to 44, are included. Heavy winter materials, diagonals, men's wear serges, cheviots, broadcloths, Bedford cords and fancy mixtures and stripes.

47 Misses' Suits, $10.75

Reduction from our own stocks, a clearance of three styles, including sizes 14, 16 and 18. Values to $19.75.

Misses' Plush Trimmed Astrakhan Coats, $10.75

Boucle astrakhan with plush collar and cuffs and long revers; may be buttoned high at the throat; belt back; satin lined. Sizes 14, 16 and 18, and for small women.

Misses' Dresses, Special, $9.75

Poplins, serges and other good wool materials, trimmed with pretty silks, with laces, etc. Sizes 14, 16, 18. Values to $17.50.

Dancing Frocks, $12.75

Dainty little gowns of chiffon, trimmed with lace and silks, with round necks and skirts dancing length. Many are in tunic fashion over silk or satin skirts. Just the inexpensive Frock for the rainwater occasions at school or college. Sizes 14, 16, 18.

Misses' Party Frocks, $18.50

Copies of a recent Premet model. Chiffon taffeta in white, pink, maize, blue, etc. Prettily trimmed with lace. Sizes 14, 16, 18.

Girls' $4 Dresses, $2.95

Clearance of Dresses that have been to double and more. Serge, checks, etc.; one and two piece models, trimmed with braid. Sailor, Balkan, Russian and Middy styles. Sizes 6 to 14 in the lot.

Girls' $8 Coats, $4.95

Boucle, cheviots, kerseys, meltons, chinchillas and other good winter coatings; variously trimmed and a number of styles. Sizes 6 to 14 years.

Second Floor, Fulton Street.

Christmas Slipper Display
Without an Equal in the Country

THE SLIPPER BOOTH, the Christmas Slipper racks and the cabinets throughout the Shoe Store abound with suggestions for Christmas giving.

Thousands of pairs of felt Slippers. Thousands of pairs of kidskin Slippers. Styles for men, women and children.

Loeser Slippers come from the few best Slipper makers in America. All are distinctive designs and workmanship and of the very highest qualities. It is a display you must see to appreciate the range and good values.

Men's gift Slippers of felt at ..... 75c., $1.25, $1.50 and $1.75
Men's gift Slippers of kidskin at ..... $1.45, $1.75, $2, $2.50 and $3.50

"Fair Charge to Consumer."

"Now, you and I know perfectly well," interrupted Chairman Decker, "that if I were to have a second trunk line put into my office the company would charge me $25 for it, and $8 a set for each additional extension."

"No," replied the witness, "but the fact that this happens to be a similar charge for a private branch exchange that happens to work out consistently with that. The $30 charge is not arrived at on a basis of cost. It is made because it has to be consistent, that's all."

"So that it is a fact that whether the charges are high or low, they have to be consistent?" asked Mr. Welch.

"I suppose they must," replied the witness.

"Isn't that arriving at rates by means of a process of mental aviation?" asked Mr. Welch. The witness and the counsel for the telephone company smiled.

"Now, aside from the company's general principles of [illegible] consideration of the public," insisted Mr. Welch, "how is that figure of $30 arrived at?"

Rate Fixed by Judgment.

"It's a matter of judgment, not of specific cost," persisted Mr. Welch.

"So that's another instance of the company's doing business by instinctive judgment?"

"Yes. The same procedure of apportioning charges on that basis is em-

DIED TO SPARE HIS WIFE.

Man Who Took Bichloride by Mistake Didn't Let Her Know It.

William Northrup, a clothing manufacturer of 44 East Fourteenth Street, died of bichloride of mercury poisoning yesterday morning in Harlem Hospital. When on Tuesday night he was awakened by pain he guessed that he had taken a mercury tablet by mistake for the quinine he had meant to take at bedtime, but, fearing to distress Mrs. Northrup, he said nothing and waited until morning. Then, after breakfast, he started off as if for business from his home, at 120 West 131st Street, but, once around the corner he ran to the hospital. It was this delay which made the action of the poison fatal, although the dose taken had been small.

Charles J. McManus of 130 West Sixty-third Street is gravely ill of the same poison at Bellevue Hospital. Lovesick and melancholy, he swallowed bichloride tablets, and his mother found him writhing on the floor early yesterday afternoon. He is a prisoner, charged with attempted suicide.

MORRISTOWN, N. J., Nov. 28.—Frederick J. Lindabury, who lived with his brother, Theodore, on Cherry Street, this city, is in the Memorial Hospital here suffering from the effects of bichloride of mercury tablets. Yesterday afternoon he took from a shelf in a closet what he supposed was a bottle of headache medicine. Instead of that the bottle contained bichloride of mercury tablets.

Sultan's Claim Denied by Court.

The Appellate Division dismissed the appeal yesterday of the Sultan of Turkey from an order denying his Consul General in New York letters of administration on the estate of Hovannes Tavshanjian, an Armenian fur dealer who was assassinated in 1907. The Sultan claimed the estate on the ground that Tavshanjian's mother, who would have received his property had she lived, had died in Constantinople, and that by Turkish law the money reverted to the crown. The estate, amounting to more than $10,000, was claimed by counsel for Tavshanjian on this ground. The Appellate Division announced that the Sultan's representative would have permission to amend his complaint on payment of costs.

Cookery is an Art

Cookery is probably the most ancient art in the world.

From the legend of Eden to the present day, people have had to eat.

And so highly has the culinary art been esteemed in past epochs that chefs have been knighted for a pudding and ennobled for the highest confection of a stew.

The Claridge looks rather to knighthood nor political advancement, but only that approbation which is the right and due of culinary competence.

It is well that you should know where good cooking is to be found.

It is well that you should know that a chop or a chicken *supreme*, a roasted joint or a saute *entree* to-day, will be served to you here at The Claridge.

By ALFRED LORD TENNYSON. Each page illuminated in colors and gold in missal style by Alberto Sangorski, and the whole reproduced in facsimile upon ivory surface paper uniform with "Sermon on the Mount." 4to, parchment, $1.75 net.

ARMY-NAVY GAME AT THE POLO GROUNDS TO-DAY---BASKET BALL RULES CHANGED---GOLF

NAVY PICKED TO WIN BIG FOOTBALL GAME

42,000 Persons Will View Military and Athletic Spectacle To-day.

COMING OF CADET CORPS

Middies and West Pointers Will Arrive Just Before Game—Teams Practice on Polo Grounds.

The annual football game between the Army and Navy, Uncle Sam's two service academies, which promises to be the most picturesque athletic spectacle ever seen in New York, will be played at the Polo Grounds this afternoon at 2 o'clock. With fair weather a record crowd of 42,000 spectators will witness the struggle. Never has the game attracted such attention as this year. It is the first time in the eighteen years the academies have been playing that New York is the scene of the conflict, and, as it is the first time in a decade that a big gridiron game has been played here, the event has attracted wide attention.

With the President of the United States and his Cabinet officers, with Senators and Congressmen from every State in the Union, with distinguished diplomats, and naval and military men, prominent society people, and with the uniformed corps of West Point cadets and blue-coated Midshipmen, this game will be far more impressive than any athletic event which has ever taken place in Manhattan. It will be a gathering different from the roystering mobs of enthusiastic students which used to make Broadway hum with their yells in the old days when Yale and Princeton clashed at old Manhattan Field. It will be different from the world's series baseball games. This Army-Navy assemblage will be quiet and dignified.

New York is ready to act as hospitable host to its distinguished guests. The hotels are gay with the gold and gray of the Army and the gold and blue of the Navy. Tall, broad-shouldered officers in gold braid ambled through the hotel corridors and dining rooms last night. The after-theatre crowds mingled with the newcomers and gazed with admiration on the scene, which was unusual to New York's restaurant life.

All Is Ready for Game.

Everything is in readiness for to-day's big game. The whistle of Referee Langford will start the game at 2 o'clock sharp. The crowds are advised to go to the Brush Stadium early to see the corps of cadets and battalions of midshipmen as they march over the gridiron to their seats, headed by the band from each academy.

The Army team arrived here at 11 o'clock yesterday morning, and, carefully guarded, the players and officers were hurried to the Hotel Astor, where they immediately went to the eighth floor, which had been reserved for them. The greatest secrecy surrounded the advent of the squad to the hotel. They entered by a side door and avoided the hotel lobby, where a crowd of Army enthusiasts cheered them as they disappeared into the elevators. No one, not even the cadets' parents or relatives, were allowed to see them. A line of guards was strung along the corridors on the eighth floor, and the elevators rushed past that floor without even hesitating. The telephones were plugged. Not even a Major General was allowed in the carefully guarded Army camp without the countersign. The Army players are watched as if Head Coach Daly was afraid some of his stars would be kidnapped. The cadets will never see their dining rooms, but weer given a special training table in the Belvidere, on the Hotel Astor roof.

The Navy players were watched just as carefully. Last night after dinner the middies were assembled in a large room high up in the Vanderbilt. "Bill" Edwards had engaged a number of colored musicians to play and sing ragtime songs to the players until it was time to retire to bed. The middies were under the eyes of the coaches, the middies were not allowed to see any friends or relatives. These two teams will go into the game this afternoon as fit physically and as well schooled mentally in football as any two elevens which ever played.

West Pointers Coming at 1 o'Clock.

The only cripple in the Army ranks is Meacham, the big linesman, who hobbles about on crutches. Houston will play in his place at guard. The Cadet Corps will leave West Point at 11 o'clock this morning, and the "Point" will be deserted. They will arrive at High Bridge about 1 o'clock, and they will go to the Polo Grounds at 157th Street. The cadets will return to the "Point" immediately after the game, but the team will not return until Sunday morning. The cadets plan a big demonstration for the team at the Polo Grounds to-day with songs and cheers, and the midshipmen will come prepared to match them in this line of endeavor.

The Army mule, West Point's time-honored mascot, will come carefully guarded in the baggage car of the cadets' special train this morning. The cadets will form in companies on Eighth Avenue and march to the Polo Grounds and across the gridiron. The cheering will be led by Cadet Milliken, the baseball Captain, and Cadet Byron of Maryland will be the song leader.

The midshipmen will arrive in Jersey City to-day on a special train at 11 o'clock, and will go up the Hudson River on ferryboats to 158th Street. The battalion will form there and march over 155th Street to the Polo Grounds.

All that is needed to make this game a notable one in football annals is a fair day, although the weather outlook last night was a bit dubious.

It is going to be a hard-fought game. The teams are evenly matched, and the Army has come prepared to wipe out the memories of three successive defeats by the Naval Academy. There is as much real bitter rivalry between these teams as there is between Yale and Harvard. It will be a spirited fight from start to finish, but one fine feature about these service games is that they are cleanly fought. What roughness there is comes from hard, earnest playing and the tensity of battle, not from personal grudge.

Navy a Slight Favorite.

Before the Army came to town there was talk of the Navy offering odds of 10 to 7, but the feeling quickly changed when Coach Charley Daly brought his charges here. Although the Navy team is heavier, the Army is ready to offset this advantage with as well drilled a football team as has ever been developed on the "Plains." The betting last night was 5 to 4 on the Navy, but before the game starts it is likely that even money will be obtainable.

Learning a lesson from their games with other teams this year, it is very likely that the contest will show much open, running football. The close, rushing tactics have proved futile in many of the season's big matches. The Army, it is said, has developed an effective forward pass, but, with a pair of ends like Gilchrist and Ingram of the Navy, a defense has been built for just this sort of play. It will be a kicking game from the start, and it is in this one thing that the Navy has an advantage.

The foot of John Brown won for the Navy last year, and much faith is placed in his kicking ability this year. The Army does not say much about its kickers, but Daly, a wonderful drop kicker himself, is likely to spring a surprise in this kind of game with the men he has coached.

The officials of the game will be: Referee, W. S. Langford, Trinity; umpire, Al. Sharpe, Yale, and head linesman, Carl Marshall, Harvard.

Gov. Glynn Here for Game.

Gov. Martin H. Glynn came to the city last night, and with his military staff reviewed the Sixty-ninth Infantry Regiment at the armory at 68 Lexington Avenue. After the review a luncheon was served at the armory by the officers of the regiment. The Governor said he had come down to review the regiment and attend the Army-Navy football game to-day, and not to talk politics. The Governor is stopping at the Vanderbilt Hotel.

CADETS AT POLO GROUNDS.

Sailors and Soldiers in Final Secret Practice.

Signal drills, at which each team spent an hour on the Polo Grounds gridiron yesterday afternoon, brought to a close the long season's practice of the Army and Navy elevens for to-day's big game. The Navy team first had its turn at the field, and the West Point boys appeared a few minutes after the middies had left. The gates were closed to the public while the practice was going on. At 4 o'clock both squads had completed their final workouts, and the usher squad, made up of 150 Columbia students, took part in another drill, through which they acquainted themselves with the seating arrangements in the big stands.

While the two teams were working out, a big section at the east end of the gridiron was cleared of the hay and straw which had been spread in the morning. The removal allowed practice in drop kicking and kicks from placement, and both teams took full advantage of their opportunity. Kicking has won all three games for the Navy during the last three years, and undoubtedly will play a prominent part in to-day's engagement. After the practice the field was again covered with hay and straw, which will remain until within an hour of the time for play to begin. If the weather is clear, the field will be uncovered early this morning.

The Navy squad, in charge of Head Coach Lieut. Douglas Howard, was composed of thirty-three players. All were in uniform, and took some part in the workout, but most of the time was devoted to the regulars and those substitutes who are likely to be called upon to-day. No attempt was made at scrimmaging, owing to the possibility of injury on the eve of such an important contest, and at the finish Lieut. Howard said that all his regulars were physically fit.

For a hard game Lieut. Howard was assisted by Field Coach Jim Reilly and Assistant Coaches "Bo" Oleutt, Jack Cates, and Paul Dashiel.

Brown, the big Navy guard, whose kicking carried the middies to victory over the cadets with a brace of field goals in last year's game, practiced his specialty from various angles yesterday, and he sent enough goals over the cross bar to indicate that the Army will have to watch the middies' end of the drop kick zone this afternoon. Quarter back Nicholls practiced at punting. It is upon these two men that the Navy will rely for the kicking at to-day's game. Some of the other players took a few punts, but to get away a few kicks, but unless Brown or Nicholls is injured none of the others will have any opportunity to display his prowess of foot against the Army.

The Navy coaches are not lacking in confidence, but they are not anticipating an easy time. The Army team is not held cheaply by the Annapolis football mentors, despite the fact that the season's records to date point strongly in the Navy's favor.

"When we play the Army we know we have a fight on our hands all the way," one of the Navy leaders said yesterday, "and the Army feels the same way about us. We hope to win, but expect nothing easy."

The Army squad numbered about forty, and was in charge of Head Coach Charley Daly. His assistants were Bovers, Graves, Hammond, Stilwell, Steketee, and Bellows. Bellows, the 185-pound centre, practiced at kicking goals from placement, and the punting was done by Capt. Hoge, Hobbs, and Lampher. The team spent considerable time rehearsing the new plays which have been arranged for to-day's game, and also had a drill at forward passing which Coach Daly has been working on for the past three weeks.

The Army has only one injured player on its list, Meacham, who has been substituting at guard for Huston. He was injured so badly in the game against Springfield Y. M. C. A. last Saturday that there is no chance of his getting into the big game. Huston, the heaviest man of the West Point regulars, has recovered sufficiently to start to-day's game, and his return, coupled with that of Hodgson and Benedict, who were also on the injured list, has proved a big bulwark for the hopes of the cadets. The Army boys were put through the same tactics as the middies, no scrimmaging being attempted.

President Harry N. Hempstead of the New York Baseball Club took charge of the Army and Navy football mentors at the Polo Grounds, and led them in a tour of inspection. All were much pleased at the accommodations and the arrangements both as regards the stands and the playing field. Temporary stands and boxes have been put up in front of the centre field bleachers, and a big new temporary stand has been erected in left field. It covers all the baseball seats from the grandstand to the flag in centre field, and extends from the top fence far down into the left field playing section. This temporary stand is patterned after the stand at Yale Field, and it adds greatly to the seating capacity. The stands and boxes, as arranged for to-day's game, add about 5,000 seats to the capacity of the grounds.

COMING OF THE MIDDIES.

Two Special Trains Will Bring Cadets to New York.

Special to The New York Times.

ANNAPOLIS, Md., Nov. 28.—Though the regular work of the Naval Academy is being carried on to-day, every one connected with the Academy and city is thinking about the big game to-morrow at the Polo Grounds. The fact that the team is now in New York makes the interest even greater. The order for the trip to New York was issued to-day. The brigade will be moved by battalions, going by the Pennsylvania and Baltimore & Ohio Railroads respectively.

The midshipmen will be on cars and ferry boats for fourteen hours of the nineteen which will elapse between the time they will leave Annapolis and return. They will lunch on the ferry between Jersey City and West 158th Street, and dine on the cars on the return. The midshipmen will be allowed to spend the time after the game until the embarkation at 5:15 o'clock as they wish, but will not be allowed to leave the Polo Grounds. They were warned that all Naval Academy regulations will be inforced during the trip.

Reveille will be sounded at 4:15 A. M. to-morrow. The first battalion under Lieut. Commander Chauncey Shackford will leave over the Pennsylvania Railroad at 6.15 o'clock. The train is scheduled to reach Jersey City at 11:50, and the ride on the ferry will take one hour. The second battalion, commanded by Lieut. W. A. Glassford, will leave over the Baltimore & Ohio at 6:30. It is scheduled to reach Jersey City at 11:55, and the ferry trip will also take one hour.

A surgeon and a hospital steward will go with each section. The midshipmen have already been assigned their seats at the Polo Grounds.

TOWN FULL OF GOLD LACE.

Army and Navy People Here for the Game Fill the Hotels.

New York last night contained more men who have worn gold lace than it has held at any time since the Dewey parade, according to the hotel managers. Naval and military officers, active and retired, kept flocking in this direction all day and part of the night, and the arrivals at many of the hotels were much more numerous than on any day this Fall.

Not only wives and daughters of army and navy men and the families of cadets were in the throng, but people whose interest in the army and navy is only general, arrived by hundreds and even thousands. Football centres like Boston and New Haven sent big representations. Washington, where so many retired army and naval officers live, and with which the army and navy are more closely connected, seemed to have emptied its society and official population in this direction. Philadelphia, which has for years been the scene of the big game, and whose people have come to appreciate what the spectacle means, sent a great many people.

After the mid-afternoon train from Boston got in the lobby of the Belmont was filled with one party of Bostonians, all of whom seemed to be provided with football tickets. Many persons who came to town yesterday without having taken this precaution in advance, found, of course, that tickets were hard to get. Some discovered, however, that by paying a good price, such a thing was not impossible, for in spite of all the precautions taken, many tickets have changed hands more than once, and generally at an increasing price. One woman who wanted to get two good tickets Thursday night and didn't mind the price, paid $20 apiece for them, and one heard of tickets that were being held yesterday at $25 a pair. At one hotel the manager of the ticket stand told inquirers it was impossible to procure tickets, and referred those who wished them to the assistant manager, who had been told of several persons who had bought tickets and then found it was impossible to attend the games.

Beside the theatres, the visitors will find entertainment provided at numerous places to-night. The Plaza had announced a dinner dance, and the Astor, where many officers are stopping, will have a similar entertainment in its grand ballroom. Two brass field pieces in the lobby of the Astor threaten the person who enters by the front door, but they are only a part of the decorations. The lobbies of the Belmont and several other hotels have been decorated in honor of the military and naval visitors. Officers at the navy yard and at Governors Island and the other nearby military posts are entertaining many guests who are here for the game.

Some of the visitors who have arrived are:

Mrs. Mackay Smith and Miss Smith, Major Henry Leonard and party, Mr. and Mrs. George Shiras, 3d, Mrs. L. S. McKee, Mrs. E. K. Webster and Miss Frances Webster of Washington, Lieut. F. C. Seibert, U. S. A., and Mrs. Seibert; Lieut. E. W. Todd, U. S. N.; Mrs. W. R. Huntington and Miss Huntington of Elyria, Ohio; Mr. and Mrs. C. W. Arnold and the Misses Arnold of Haverhill, Mass.

Mr. and Mrs. Robert S. Bradley, Mr. and Mrs. Henry A. Knowles and Mr. and Mrs. Samuel Lowell Putnam of Boston. Mr. and Mrs. William Disston, Mr. and Mrs. William Lord Sexton, Mr. and Mrs. Maxwell Wyeth, and Dr. and Mrs. E. H. Siter of Philadelphia.

COMPLIMENTARY SEATS SOLD.

Many Army and Navy Invitations Get Into Hands of Speculators.

The past twenty-four hours witnessed a big slump in the price of seats for the Army-Navy football game. Choice seats were quoted at $20 each on Thursday night, and the price was fairly well maintained until the Army and Navy followers began to arrive in the city yesterday, when the increased supply forced the price down, until last night the general price at the ticket agencies was $15 for two. A few choice seats, however, commanded $10 each.

The ruling price may have caused the possessors of the seats to hold off until yesterday in hope of a still further increase in price. In this respect the holders were disappointed, as the rain and the steady flow of incoming tickets gradually forced the price down. Early in the day many speculators paid as high as $10 apiece for tickets, but under the steady influx the market gradually receded until last night the best price offered for tickets was $5.

It was noticeable that few tickets were offered for sale in bulk, and six was about the largest number obtainable from any one person. A number have been invitations sent to West Point and Annapolis. Big prices were asked for these, which were in the uncovered stands. As the weather indications pointed to rain, there was a decline in the demand for these, and the west stand seats, which are under cover, received the preference.

A few straggling sales were made of boxes, but the announcement of the New York Baseball Club that boxes would be purchased at the quarters for $50 apiece kept the sale of these down to a minimum. The best price obtainable from the speculators for boxes was $70.

It was, however, in the invitation tickets that the bulk of the business was transacted yesterday. The two academies received 25,000 of these for distribution among the officers of the two branches of the service and the cadets. These invitations found their way into the hands of outsiders, who took advantage of the extraordinary demand for seats, and probably 3,000 found their way into the hands of speculators. These seats, which were distributed free, were sold at an average price of $7 apiece and resold by the speculators at $12.50.

Should the weather clear to-day it is expected that there will be another boom in the prices, and several of the speculators are holding their seats with the hope of getting a higher price than prevailed last night.

Secretary John B. Foster of the New York Baseball Club said last night that less than 100 reserved seats had been returned to the office. This, he said, was a record for Army-Navy football games and indicated the unusual interest in the contest.

Records of the Elevens.

The scores of previous Army-Navy games are as follows:

1890—Navy, 24; Army, 0.
1891—Army, 32; Navy, 16.
1892—Navy, 12; Army, 4.
1893—Navy, 6; Army, 4.
1899—Army, 17; Navy, 5.
1900—Navy, 11; Army, 7.
1901—Army, 11; Navy, 5.
1902—Army, 22; Navy, 8.
1903—Army, 40; Navy, 5.
1904—Army, 11; Navy, 0.
1905—Army, 6; Navy, 6.
1906—Navy, 10; Army, 0.
1907—Navy, 6; Army, 0.
1908—Army, 6; Navy, 4.
1910—Navy, 3; Army, 0.
1911—Navy, 3; Army, 0.
1912—Navy, 6; Army, 0.

The records of the rival elevens this season follow:

CARNIVAL OF SONG FOR FOOTBALL GAME

Army and Navy Will Introduce Many Original Songs and Yells.

The Army-Navy football game to-day will be a gala song festival, and the rival brigades will have a number of new songs set to popular refrains, while several original service yells will be introduced for the first time. At no football game are songs sung with the vigor and earnestness that mark the vocal efforts of the middies and cadets, as, with the accompaniment of the rival bands, the inspiring songs float across the gridiron.

From the first strains of the Navy band as the young midshipmen march on the field to the triumphant songs of the victorious team there will be one continuous performance of choral efforts which will go far to help swell the din of the gridiron battle. The honor of making the first entrance to the Polo Grounds belongs to Annapolis, through their being victors one year ago. Led by the Academy band in their Copenhagen blue coats with lurid red-lined capes, the sailor brigade will make a gorgeous picture as they march through the gate at the entrance to the playing field.

In the front ranks will be the giants of the school and then the brigade will taper off to the little fellows who have not yet got their growth. There will be eight companies. Each cadet will be in his long blue overcoat, splashed with an aigrette of twisted blue and gold braid, and a rosette of the same color pinned to his manly bosom. Every middy will have a flag. The Navy goat, which is almost as much an institution as the game, will be led by a cadet and will be decorated with more braid and festooning than an Admiral

Following the midshipmen will be the West Point Corps of about 600. The Army mule, as sacred at the Navy goat, will have the post of honor. Everything about the West Point battalion will be sober and subdued. The traditional gray uniforms will be in striking contrast to the appearance of the Annapolis Corps. The band will precede the battalions and as the two corps march around the field before the game the stands will burst into a veritable storm of cheers, applause, and fluttering color.

The parade of the two corps will be continued around the field, and the President with his Cabinet officers will be saluted by standing, the latter will be the heads of the War and Navy Departments, together with the leading officers of both branches of the service from Washington, West Point, Annapolis, the forts in the Departments of the East, and the officers of the naval stations and war vessels in or near New York. Ordinary plebeians will be out of place in this parade and swirl of color and life.

With the parade ended the corps will break ranks and scramble to the seats which have been assigned to them on either side of the gridiron. Directly in front of the two rival sections the bands will be located and a dozen chorus and yell leaders will take up their stands. From this point until the winner is returned the stands will resound with the rhythm of the songs and the swaying of the solid bodies of future Generals and Admirals as the refrain is wafted across the playing field.

The Navy songs will include "Anchors Aweigh," "The Ocean Waves May Roll," "You're in the Navy Now," "Row, Row, Row," "When I Get You Alone To-Night," and "Das Haben Die Madchen So Gerne." While the yells will be the "Siren," Automobile, "Nine Rahs," "Four 'N,'" "Yea-Team," and "Touchdown." The Army melodies set to the tunes of "In My Harem," "Row, Row, Row," "West Point To-night," "Benny Havens," "On the Mississippi," "Good Night Nurse," "Here Comes My Daddy Now," "The Army Team," and "Midnight Choo Choo," while the yells will include the "Rocket," "Short Corps," "Cavalry Charge," "Spell," "Horse," "Army, Army," "Army," "Long Corps," and "Point." The songs follow:

Navy Song.

TUNE: "ANCHORS AWEIGH."

Stand, Navy, down the field,
Sails in the sky.
We'll never change our course,
So, Army, you steer shy-y-y-y.
Roll up the score, Navy,
Anchor aweigh.
Sail, Navy, down the field
And sink the Army,
Sink the Army Gray.

TUNE: "THE OCEAN WAVES MAY ROLL."

O, Navy Team, just sail a steady course,
And we'll tack right up from alee,
We'll call all hands and bury Army Gray,
In the bottom of the deep blue sea.
Chorus.
O, the Army team may score,
But the Navy will score more;
O, the Navy team is always on the top,
And the Gray Legs way down below, below, below,
And the Gray Legs way down below.

Then out sailed our team on the Polo Grounds,
And a right good team were they;
O, the wind is fair, we'll rake 'em fore and aft,
And we'll sink old Army Gray.

O, Navy Team, we're setting all our sail,
And we'll bear right down on their goal,
And we'll beat the Army's sinking fast,
They'll go down with the next big roll.

The Navy wins, the Navy wins,
The Navy wins to-day, to-day,
The Navy wins to-day.

TUNE: "ROW, ROW, ROW."

You've got to FIGHT, FIGHT, FIGHT,
For dear old Navy,
You must FIGHT, FIGHT, FIGHT
For dear old Navy,
You must smash right through that line,
Fighting all the time,
Hit 'em hard and hit 'em low,
And change the ste to nine,
But you must FIGHT, FIGHT, FIGHT,
Don't let them stop you.
You must FIGHT, FIGHT, FIGHT, FIGHT, FIGHT,
Every inch that you gain
Will bring the Navy fame,
So you must FIGHT, FIGHT, FIGHT.
—GEARING.

Tune: "WHEN I GET YOU ALONE TO-NIGHT."

All aboard for a Navy day,
Fight your way through the Army Gray,
Fight your way down the field,
And roll up the score,
And drag old West Point under once more.
Fade away, black and gold and gray;
Change your course and just roll away.
Army, Army, you're a blunder;
Take a tip and stand from under.
Gangway, let a deep-sea wave roll by.
—Bread.

Tune: "DAS HABEN DIE MADCHEN SO GERNE."

Oh, the Gold and the Blue of the Navy
Are the colors triumphant to-day,
For the men of the sea are in battle,
And there isn't a chance for the Gray.
Oh, the day of the Army is over,
For defeat us they never can do;
There is nothing in sight but the Navy;
We're all for the Gold and the Blue.
—G. W. Grove.

Army Songs.

AIR, "IN MY HAREM."

It's the Army, the Army,
That brave old team, the Army,
They freeze right on the ball,
Go crashing through them all,
When they meet that Middy team;
There'll be a mortal wail,
And when they get that Navy's goat,
They'll surely twist its tail
With a score, a score,
All teams must bow before,
And we'll greet each play,
That sets us on our way,
With a shout for the Army team.

AIR, "ROW, ROW, ROW."

Hear that roar, roar, roar,
It sets me crazy,
It's the Corps, Corps, Corps
To lick the Navy.
We will kick it now and then,
They will tell us when;
We'll run around and run around,
And run around the end;
Then we'll bore, bore, bore,
A little farther we will bor-or-or-or-e,
Then we'll kick it some more,
Take a whack at that goes,
Then we'll roar, roar, roar.

WEST POINT TO-NIGHT, TO-NIGHT.

Fight away, oh, fight away,
All you Army men in gray,
Go charging down the field,
A-smashing every play.
Through Navy's line every time,
Break away with all your might.
No Navy in the world
Can stop old Army's Fight, Fight, Fight.

"BENNY HAVENS."

Come fill your glasses, fellows,
And stand up in a row,
To singing sentimentality,
We're going for to go;
In the Army there's sobriety,
Promotion's a very sure thing,
So we'll sing our reminiscences
Of Benny Havens, Oh.
(Chorus.)
Oh, Benny Havens, Oh.
Oh, Benny Havens, Oh.
We'll sing our reminiscences
Of Benny Havens, Oh.

AIR, "ON THE MISSISSIPPI."

On the Hudson River, at the U. S. M. A.,
The football team is waiting for that Navy fray;
They know how to rush through the line,
At long end runs they surely are fine;
A snappy bunch of fighters and, they're out to play,
A game to beat the Navy on that Navy day;
That's the sort of stuff we yield
To the team that meets those Middies on the Polo Field, Then
(Chorus.)
Down in New York City,
Hear that same old ditty,
Army smears, the foe,
There we'll down the Navy,
Smear their line so wavy,
Then we'll break on through.
Hear those stands all ringing,
And those Kaydets singing,
We're all for playing
Navy's line is swaying.
Then the Army Blue will join the gray with you, and
Sink that Navy team.

AIR "GOOD NIGHT, NURSE."

Each kaydet's dream an Army team
To represent our spirit true
And triumph o'er the Navy blue,
And so this year we do not fear
For we have a team so dear
To many times four years past.
May that Army spirit ever teach us
To greet our gray clad warriors from the bleacher.
(Chorus.)
Army team, we're waiting here to cheer you;
Brave old team, we know why the Middies fear you.
You know how to rush through them all,
Cross their goal you'll carry the ball.
Kick that ball down the gridiron, let it soar,
Make it fall o'er the bar for one more score,
Far above the Navy you'll stand supreme,
All the corps behind you, Army team.

THE ARMY TEAM.

The Army team's the pride and dream
Of every heart in gray.
The Army line you'll ever find
A terror in the fray,
And when this team is fighting
For the Black, Gray, and Gold
We're always near with song and cheer,
And this is the thing we're told:
The Army team (band)
(Whistle) Rah! Rah! Rah! (Boom.)
(Chorus.)
On, brave old Army team;
On to the fray;
Fight on to victory,
For that's the fearless Army way.

AIR, "HERE COMES MY DADDY NOW."

Old Navy Blue has cause to fear us to-day,
Black, Gold and Gray, U. S. M. A.;
They will be blue to hear the people all say,
Army's got the ball
Fight that old Navy team,
Wreck that old Navy team,
Sink that old Navy team—Now.

(Chorus.)
Here comes that Army team now,
They'll show that Navy team how
Fighting for the Corps,
Piling up a score.
Sink their ship once more
On that Navy shore,
Here comes that Army band now,
Bound for that promised land, Oh,
Just let that Navy see
We've got the victory,
West Point is fighting them now.

AIR, "MIDNIGHT, CHOO CHOO."

We're busy all the Fall
Just a practicing football,
Getting ready for that game on Navy Day.
Now we've got a team of men,
Headed by our Captain Ben,
Who will show that Navy outfit how to play,
You can bet we're going to beat them in the fray.

Statistics of the Teams.

Navy line, 187 2-7 pounds.
Navy back field, 177¾ pounds.
Navy team, 183 9-11 pounds.

To Fly Over Polo Grounds.

An army aeroplane decorated with army flags may be seen above the Polo Grounds prior to the football game between West Point and Annapolis to-day. Sergt. Samuel Katzman of the Artillery Corps at West Point announced last night that he had received permission from military and football authorities to make the flight. Sergt. Katzman said he would start from Governors Island some time before the football game began, and would then fly here late last night for Nyack, N. Y., intending to fly from there to Governors Island this morning.

Chaffee Wins at Ridgewood Traps.

Fifteen shooters faced the traps of the Ridgewood Country Club in the regular holiday shoot held Thanksgiving Day. Two events were contested, each resulted in one of the best day's sport at the Jersey traps. In the 100-bird handicap event Williams accounted for the top honors with a gross score of 100, and a net score of 94, the best of the scratch men, breaking 38 blue rocks, while Chaffee was the next best of the scratch contingent with one less than Smith. In the 25-bird match event for the club trophy Chaffee was the winner with 21. The other scores were: Smith, 20; H. White, 20; R. Muser, 18. The club will hold special events every Saturday and on holidays throughout the trap shooting season.

American Riflemen Defeated.

NICE, France, Nov. 28.—A naval rifle team from the American warships was beaten by 198 points to-day in a match against a team from the crack Nice Rifle Club. There was a large attendance. The American riflemen were Ensigns Oscar C. Badger and John M. Kates and Seamen Hartung, Bejoski, Sharpless, Byrnes, de Sommers, and Drustrup.

Moran Joins Vailsburg Cyclists.

Jimmy Moran, the six-day cyclist, has shifted his training quarters from Boston to the Vailsburg track, at Newark, and will work with Spencer Gallup for the Australian. Moran, in addition to riding in the six-day race, which starts at Madison Square Garden on Dec. 7, is to take part in the Australian pursuit race, which is to be one of the big features of the championship meet which will be held Saturday night. He will have as partners in this event Root and Fogler. The Australian combination will include Grenda, Corbillet, and McNamara. Grenda, who has been rated for several years as one of the strongest riders in the game, rode in such great fours in Berlin six-day race that he brought the contest to a sudden halt, when the German, Belgian, and French teams left the track, and refused to continue the race until the big Australian was taken out of the contest.

Paul Withington Hurt in Game.

NEWBURYPORT, Mass., Nov. 28.—Paul Withington, former Harvard football star, is nursing a lame leg to-day as a result of a Thanksgiving Day football game between a local eleven and a team made up largely of present and former Harvard players. He failed to rise after a scrimmage and had to be helped to the stand. Although he insisted on watching the rest of the game, he was later forced to consult a physician. The doctor said a bone in Withington's leg had been dislocated, but had slipped back into place again. Withington played centre on the Harvard 'Varsity teams of 1908 and 1909.

Sweeney for Reds Manager.

BOSTON, Nov. 28.—The name of Capt. Bill Sweeney of the Boston Nationals was brought into the field of possible candidates for the position of manager of the Cincinnati team to-day in a letter sent to Sweeney from New York by President James J. Gaffney of the local club, saying that he took into consideration the fact that in other years the Cincinnati Club had tried to secure Sweeney as manager, Gaffney notified the Boston Captain that he had permission to negotiate for the position if he desired to. "Were you to succeed it would bring a mingled sense of reluctance and pleasure to me," President Gaffney wrote. Sweeney said to-night he would take the matter under consideration.

Friendship Boat Club Dance.

The Friendship Boat Club will hold its annual entertainment and dance at Palm Garden, Fifty-eighth Street, on Saturday, Dec. 6. A minstrel show will be the form of entertainment, and rehearsals under the direction of Charles A. Prince are now being held at the boathouse. This year's show promises to equal any the Friendship Club has given.

GOLF FAVORITES WIN AT LAKEWOOD

Travis and Marston Among Those Who Come Through Victors of Matches.

Favorites survived the first and second rounds of match play in the annual Fall golf tournament of the Country Club of Lakewood yesterday when Walter J. Travis of Garden City and Max R. Marston of Baltusrol won both the contests in which they were engaged.

Travis had little difficulty in first disposing of the aspirations of Harold A. Steiner, the champion of the Inwood and Hollywood Clubs, 4 and 3, and then the veteran put out C. T. Richardson of the home club with even greater ease, the score being 6 and 4. Travis always had his last match well in hand. In fact, the Garden City man stood 4 up at the turn and was never in danger.

Marston's first opponent was Garfield Scott of Philadelphia, and the last named gave his man a few uncomfortable moments. It was a nip and tuck race to the turn, all holes but two being halved and each won one of these, so the contest was level. On the tenth and eleventh, both short, Marston failed to get the greens on his tee shots and needed four for each hole. Scott, on the other hand, got par threes and became two up. The Philadelphian, however, could not keep up the pace and the interscholastic title holder annexed four out of the remaining five holes and the match by 2 and 1.

Later in the day Marston encountered F. C. Jennings of Nassau and eliminated him by a 2 and 1 margin. They were even at the turn and stood that way at the sixteenth, where Marston took the lead through Jennings missing a short put. Another of these at the next cost the Nassau man the hole and the match was over. The summary:

First Sixteen.—First Round—F. C. Jennings, Nassau, beat C. L. Tappin, Garden City, 4 up and 3 to play; Maxwell R. Marston, Baltusrol, beat Garfield Scott, Philadelphia, 2 up and 1 to play; R. L. Redfield, Montclair, beat T. C. Walker, Atlantic City, 8 up and 7 to play; S. K. de Forest,

COLLEGIANS AMEND BASKET BALL CODE

Important Changes Made in Winter Sport by the Rules Committee.

Members of the Basket Ball Rules Committee, coaches, officials, and players representing nearly all of the universities playing the game in the East and the Middle West, held their annual conclave yesterday at the Hotel Astor and discussed the various changes and interpretations of the rules of the game for the ensuing year most exhaustively.

Dr. Joseph E. Raycroft of Princeton was the Chairman of the session, and he found his time pretty well taken up returning answer to the volleys of questions which were fired at him in regard to the changes. Dr. Raycroft said:

"The changes in the rules this year are few, and are made in the interest of clearness and definiteness. Two changes of a good deal of importance were made, and are worthy of some consideration.

"The 'jump ball' has always been the subject of criticism and complaint because of the many fouls which have been committed in connection with this play, whether in the inner circle, or, as so often happens, near the side lines. The committee attacked the situation from two points of view: first, to lessen the number of opportunities for the play itself, and, second, to change the rule governing the play so as to make it more difficult to commit an intentional foul and easier for the official to detect it when it is made.

"Since a very large number of 'jump balls' occur on the side line, where, owing to the closeness of the spectators, it is often difficult for an official to decide who is entitled to the ball, the rule governing possession of the ball out-of-bounds, has been changed so that when the ball goes out-of-bounds it is awarded to an opponent of the player who was last touched by the ball before it crossed the line.

"This change in the rule will not only do away with the necessity of many 'jump balls,' but will practically eliminate the charging into the spectators and the chances of injury and delay to the game that so frequently followed. Furthermore, this change makes it possible for the official to make his decision more promptly and to avoid many of the delays that attended the administration of the old rule.

"The second change in the rule governing the 'jump ball' is to require the man jumping to place, and to keep one hand behind the back at the waist line until the ball has been touched on the jump. This regulation will undoubtedly lessen the height to which a player can jump; but this is not a serious matter and not to be considered in view of the fact that the opportunities for holding, pushing and so on that have been so freely used in this play will be reduced to a minimum.

After it developed that there was nothing in the rules which specified what was to be done if the ball is thrown out of bounds from the centre circle on the jump off, the question whether it should be brought back to centre or tossed up from the side line was the occasion for much discussion.

When put to a vote as to whether it should be from centre or side lines, the advocates for centre won by 22 votes to 10. Immediately following this, Dr. Raycroft made an appeal that the delegates and coaches reconsider the vote, and as the result of further discussion and vote, the decision was reversed, and, almost unanimously the side line idea prevailed.

Fred Dawson, the former Princeton player, who is now coach at Union College, aided in the clearing up of what caused a perplexing situation in regard to blocking when he suggested that "A player is entitled to take any position on the court, but, in taking a position he uses an opponent makes bodily contact with the opponent so as to interfere with the latter's progress, he is blocking." And in the foregoing paragraph was inserted to take the place of "or," as the note originally read, and proved acceptable to all.

In connection with that portion of Rule 20, Section 1, which treats on position in centre circle upon succession by Dr. Al Sharpe, it was agreed that the men shall stand with their shoulders at right angles to the drawn line between both baskets.

In their desire for a proper code of rules and their interpretation it was the contention of those desiring to aid in forwarding the sport that the principal thing was that man in a game should play the ball and not the man.

Those who took part in the session were Harry A. Fisher, Columbia; Dr. Albert R. Sharpe, Columbia; Dr. Edward Bromley, Dartmouth; Walter Halsey, Princeton; Carl A. Schlegel, Princeton; Alfred E. Meier, Trenton; J. Dewey, Columbia; R. W. Leeming, Princeton; Chris A. Field, Dartmouth; Earl Lesnik, Williams; Edwin Eaton, Princeton; Howard Foster, Wesleyan; Fred L. Dawson, Union; Harry A. Fisher, Columbia; Dr. Albert R. Sharpe, Columbia; Walter Halsey, Princeton; J. Palmer, Columbia; R. W. Leeming, Princeton; Chris A. NEW YORK, SATURDAY, NOV. 29, 1913.

LORD HALDANE ON THE MONROE DOCTRINE.

We have never been troubled by doubts as to the attitude of England toward the Monroe Doctrine. The proclaiming of that Doctrine by President MONROE ninety years ago was received in England "not only with satisfaction but with enthusiasm," and the motives of policy which then prompted England's assent to the Doctrine are now even more obvious, and they will be a continuing force in years to come. To whatever extremities she may be led through misunderstandings with the neighboring Powers of Europe, the security of her great possessions in North America will never be a source of anxiety to her so long as we adhere to the principle of MONROE'S message. It is with gratification, but not with surprise, therefore, that Americans have read the words of Lord HALDANE, joining to approbation of our national policies cordial praise of President WILSON for his just and righteous aims. Americans have not forgotten the Lord High Chancellor's profession of faith in his remarkable address at the meeting of the American Bar Association in Montreal last September, when he dwelt upon the common interests of Canada and Great Britain on the one hand and of the United States on the other, and pointed to the possibility of establishing "a true unison" between these countries which might serve as an example "for international faith "of a kind that is new in the his-"tory of the world." The words of this great jurist upon matters of national concern are sure of attention in this country, and the friendly import of his Thanksgiving Day address in London commends it to our welcome.

Americans will read with deep interest, but without assent, however, some of Lord HALDANE'S observations upon the Monroe Doctrine, which give a meaning to that pronouncement that is foreign to its author's intent, and a scope which lies somewhat beyond the limits of the Doctrine's application consistently observed in our policy. The Doctrine, Lord HALDANE conceives, "remains to be completed," and his Lordship appears to cherish the belief, or the hope, that "the true inwardness" of some recent declarations of President WILSON foreshadows a very considerable broadening of our undertakings. Lord HALDANE said

> that, just as his Government in the days of MONROE assumed a great responsibility for the protection of the nations south of the United States on the great American continent, so today the United States feels that the responsibility must be extended to securing good government and fair treatment for all those who live and trade in those countries.

My interpretation is that the United States is ready to accept responsibility, not merely for insuring good government and good treatment in the interest of her own subjects, but in the interest of the world at large, so that all who live and trade on the great American continent may feel that she has set before her a high ideal to secure for them equally with her own subjects that justice and righteousness of which President WILSON has spoken.

The Lord High Chancellor certainly does not misunderstand the Monroe Doctrine, a fault more frequently chargeable against some of our own ill-informed commentators than against jurists of the Old World. He knows that nothing in President MONROE'S message, nothing in our policy and practice for nearly a century, assures or implies either a protectorate over our sister republics of the New World or a guarantee of the security of any other than our own nationals therein residing. Plainly, it is only by an extension of the Doctrine that he would have it include these matters. It is well to remember, always to remember, in considering the Monroe Doctrine that, in the words of WEBSTER, it "must "be considered as founded on our "rights and to spring mainly from a "regard to their preservation." The Doctrine, as Mr. HAMILTON FISH, when Secretary of State, put it, "opposes "the creation of European dominion "on American soil or its transfer to "other European Powers," but "it "does not contemplate forcible interference in any legitimate contest." In no sense does it impose upon us the obligation "to become involved in "the constantly recurring quarrels "of the republics of this hemisphere "with other States," nor does it obligate us to protect our American neighbors "from responsibilities which "attend the exercise of independent "sovereignty." These precepts, all cited from official authority, are sustained by our practice. There is nothing in the Monroe Doctrine which constrains us to forbid a European Power to adopt its own proper measures for redressing grievances sustained at the hands of one of our sister republics. To the joint note of the Spanish, French, and British Ministers in 1861, announcing their intention of combined action against Mexico for redress of grievances, Secretary SEWARD replied that "the "sovereigns represented have un-"doubted right to decide for them-"selves the fact whether they have "sustained grievances and to resort "to war against Mexico for the re-"dress thereof, and have the right "also to levy the war severally or "jointly." It was only when France, left to herself, carried her procedures to an unavowed extreme and set up an Emperor in Mexico that we interposed our firm protest, which would have been followed by war had it not been heeded.

In short, if a lesson must be given to some misbehaving Government of a Latin American republic for wrongs done to the citizens or subjects of a European Power, we are content that the Power aggrieved should administer it; the Monroe Doctrine merely requires that such occasions shall not become the pretext for establishing dominion. Mr. ROOSEVELT in his message to Congress in December, 1901, stated the principle correctly:

> This Doctrine has nothing to do with the commercial relations of any American power, save that it in truth allows each of them to form such as it desires. * * * We do not guarantee any State against punishment if it misconducts itself, provided the punishment does not take the form of the acquisition of territory by any non-American power.

The principle has also been well stated by Mr. JOHN W. FOSTER, once Secretary of State:

> The United States does not contemplate a protectorate over any other American nation, seek to control the latter's conduct in relation to other nations, nor become responsible for its acts.

These citations are more necessary for the information of some who discourse upon the Monroe Doctrine in this country, where there is a deal of loose thinking upon the subject, than for any admonitory purpose in respect to Lord HALDANE'S address, for he, obviously, was speaking of some hoped-for extension of the Monroe Doctrine. For him and for those who share his expectations they will serve, however, to show that our policy has unfailingly stood opposed to the assumption of the new obligations indicated. When we undertake to guarantee at all times the protection of the lives and property of Englishmen, Frenchmen, or Germans in Mexico or in Central or South America, we shall proceed not under the Monroe Doctrine, or anything like the Monroe Doctrine, but under some as yet unformulated, we may as well say impossible, theory of national duty and interest. The Monroe Doctrine is the public system of the New World, as the Concert of Europe is the public system of that Continent. The Concert of Europe obligates no nation to guarantee the protection of Americans within European territory, nor does our Doctrine interfere with freedom of action of any European Power in respect to its own nationals and their lawful interests so long as interference does not take the form of conquest, acquisition, or control of national destiny.

CANADA'S COST OF LIVING.

Canada eats only one-quarter of the breadstuffs it raises, but the cost of living in Canada has risen 51 per cent., while the cost of living in the Motherland has risen 7 per cent., although the Motherland supplies its needs in the Canadian market. This is the burning question in Canada, and is the result in part of our new tariff. It opened a new market to Canada, and the requirements of a population tenfold larger than the Dominion's has swept off its market the floating supply. Doubtless in time Canada can increase its production up to any extent that the price induces, but it cannot do so at once. It is easier and quicker to find relief by removing the restrictions upon its buying more cheaply. At present the cost of food in Canada includes freight over continental distances, while cheaper food is accessible within a few score or hundred miles across our border. It needs the relief we granted to ourselves, and only its own Government stands in the way. The opposition is quick to see the opening afforded it, and on Wednesday Sir WILFRID LAURIER made good use of the opportunity in a speech which has received much acclaim in Canada. According to Canadian reports Sir WILFRID demands from the Government "a policy "of absolutely free food—food free "from customs duty," a demand that was received with prolonged cheering.

Premier BORDEN sees the point as well as Sir WILFRID. He is about to return home from his visit of recuperation at the Virginia Hot Springs, and on the way he is calling at Washington. Secretary BRYAN was to have him to dinner last night, and he had an interview with the President yesterday forenoon. But to what purpose, beyond an exchange of amenities? The United States gave Canada for nothing more than it had arranged to purchase by reciprocal concessions, and Premier BORDEN came into office on the plea that Sir WILFRID'S bargain was betrayal of Canada and treason to the Empire. It is not reasonable to expect that the Premier seeks or can get from us further concessions, those already granted having proved too much of a good thing from the point of view of Canadian Conservatives. Canadians must look for relief to Ottawa, not Washington. The enactment of the Canadian half of reciprocity is what the case calls for, however it embarrasses the Premier to recognize it. We wish him a pleasant visit at our Capitol, and a good deliverance from his troubles at his own.

DR. WILEY AS NEW YORK'S HEALTH COMMISSIONER.

We suppose the appointment of Dr. HARVEY W. WILEY as Health Commissioner for New York City would be at once the most popular and the most effective measure which Mayor-elect MITCHEL could take for the protection of the public health.

Dr. WILEY'S successor as head of the Bureau of Chemistry at Washington recently, and pertinently, pointed out that the question of Federal control of foods and drugs is quite secondary to that of local control. The police powers given to the State and the community are broad and sweeping. If we may rely upon the testimony of experts, this city is the headquarters of the adulterators of food and drugs in the United States. No extra-legal Remsen Board, no MCCABE, no insistent lobby of selfish interests could stand between Dr. WILEY and the rigorous enforcement of New York's health laws. He would be answerable to Mayor MITCHEL, and the Mayor would give him a free hand.

MISDIRECTED CRITICISM.

It is only too easy to understand the sincerity of the feeling underlying the criticism by some of the Protestant clergy of the action of President WILSON in attending the Pan-American Thanksgiving mass in Washington. Dr. MACKAY of the Presbyterian Church probably expressed the sentiment really felt by all the others. It is a sentiment of jealous pride in one's "own Church." It often goes with hearty and self-sacrificing devotion, and it is the root of much genuine and valuable service.

We confess that it appears to us a little narrow, and not quite in harmony with the spirit of true Christianity. No one can doubt the attachment of the President to "his" Church, but it does not seem to require, on a pubic occasion, when the representatives of friendly States were meeting at a religious ceremony intended to celebrate and consecrate the tie that binds them to us and to each other, that the President should absent himself because the ceremony was not held in a Presbyterian church and with Presbyterian rites. The great body of our fellow Americans of the South happen to be Catholics. A very considerable part of the people of our own country are also Catholics. The attendance of the President at St. Patrick's Church on Thanksgiving was but a proper expression of sympathy with the sentiment of the occasion.

A COMMENDABLE REFORM.

The world will be keenly interested in the royal effort in England to preserve the dignities of men's attire, to banish the bowler, the soft hat, and the detestable cap from the heads of men of quality when they are in the heart of London, and to keep the jacket from invading the domain of the skirted coat. The order, signed by Major Gen. Sir FRANCIS LLOYD, commanding officers of the Guard, out of uniform, to wear black frock coats and high silk hats when "in the neighborhood of Buckingham Palace," will be far-reaching. What the officers of the Guard wear, in the way of civilian attire, will be accounted essential for the wear of all other London gentlemen, and especially for all who are battling for the reputation of gentlemen. The neighborhood of Buckingham Palace might be restricted to Constitution Hill, Bird Cage Walk, and a part of Belgravia, but a man who is out of an afternoon cannot run home and change his clothes every little while, so that the order applies fairly to all the town between Kensington Palace and Leicester Square, to all St. James's Parish and much more.

It will be generally approved. A well-built Englishman is a heroic figure in his golfing, hunting, and shooting clothes, but when he undertakes to dress "comfortably" in town he makes a bad mess of it and is the most uncomfortable looking person in the world. The recent democratic tendency toward undress in London needed the check it received. The Englishman was born to wear a top hat and a frock coat; and the restoration of this civilian uniform in London, "in the neighborhood of Buckingham Palace," means its speedy restoration in the proper circumstances throughout the kingdom.

THE MEETINGS OF SCIENTISTS.

The preliminary announcement of the meeting in Atlanta, Ga., from Dec. 29, 1913, to Jan. 3, 1914, of the American Association for the Advancement of Science—the sixty-fifth and most important of that association's meetings—prompts the reflection that the life of the present day is largely based on the work of scientists. There is hardly a modern department of business that does not require the fundamental aid of scientific experts.

At the meeting of the British Association in England last September, Prof. SODDY remarked that the application of science now resembles the "increase of a capital sum under compound interest." The whole aspect of human affairs has been changed. By the intelligent use of larger and purely inanimate sources of energy, the old social and political orders based on physical force of men and beasts are bursting like a chrysalis into new life. But the things that have been accomplished, Prof. SODDY thinks, are but an earnest of what will be done in future. For instance, the observance in nature of a new form of energy a million times as great as that given out in any previous change known—the energy, that is, liberated by the radioactive elements—furnishes ground for belief that inexhaustible stores of power may be found in breaking up the atoms of elements now regarded as non-radioactive and unchanging. Such a discovery would put man "ind not only beyond want for the necessaries of life, it would enable the race to play a cosmical rôle, and to transmit impulses to other planets.

However that may be, it suffices to note that at every great meeting of scientists, like that which will convene in Georgia, representing all the affiliated scientific societies of the United States, announcements of increasing importance are made, recording the advances of effort in the control of nature for the benefit of humanity. The companies of men devoted to research and discovery are being augmented. Their work is immediately utilized in transforming the material and mental environment of their fellows.

TOPICS OF THE TIMES.

Why Make a Lonely Exception?

Without feeling any particular fondness for the sometime President of Nicaragua, one can still view with something of disquietude and repugnance the present proposal to send him to meet the fate to which he has already been condemned, in effect, by one of his successors in office.

It is not that Gen. ZELAYA, while exercising the powers of a military dictator, did nothing reprehensible when judged by our standards of official conduct. His enemies say, with more than plausibility, that the methods by which he seized, and for a while retained, office were such as to cause a considerable and highly informal mortality, first among those whom he ousted, and later among those who sought to oust him. And, hasty as was his departure, there is a curious, but familiar, discrepancy between the salaries he received as a soldier and a civilian and his present command of cash in large amounts. However, though, from all indications and reports, Señor ZELAYA did not appreciably elevate the moral average of his class, there is little if anything to show that he lowered it, or that he has not a right as good as that possessed by the majority of its members for calling "political" the acts which mark his highly accidented career. That being the case, there is no very obvious reason for treating him otherwise than as many another like visitor has been treated here.

Certainly, should Gen. ZELAYA be extradited, the State Department will be busy until such time as there are no more exiles here with whom somebody in the little southern republics has an unbalanced account. We have never been so obliging before, and there is not a chance that Gen. ZELAYA could not remain in any European country as long as he chose—and could pay his bills. There his direct, measurable responsibility for the killing of the men he is charged with murdering would be held more than dubious, and of the dubiety, there, as so often here, in the past, such men as he always get the benefit.

This Plan Without Precedent.

"Important if true" is the first and most natural comment excited by the report that a rich Chicago woman is planning and actively preparing to adopt fifteen babies, each of a race different from all the others. To get the required variety, it is said, she is searching other countries—which seems needless, as this one has a population so widely assorted—and no prejudices of color or creed are to detract from the catholicity of her collection.

Possibly this report, if true, is rather more interesting than important, but certainly it is not without importance from several points of view. Biologists, for instance, if they be also sociologists, as most of them are nowadays, will get a precious chance to get new light on the relative importance of heredity and environment. Of course no single experiment of this sort proves much, but it really should be possible to learn something from observing the behavior, character, and career of fifteen children so diverse in origin when subjected, as these by assumption will be, to conditions approximately the same.

Exactly alike the conditions cannot be. Inevitably the foster mother will develop preferences, and her charges themselves will surely see to it that all do not have precisely the same treatment in that companionship that counts so much as environment. Moreover, the experiment will be affected by the fact that the babies will not "start fair." To do that each would have to be of exactly the same grade as representative of his own race, for, to speak in extremes, the brightest negro is vastly superior to the dullest white, and probably there are gentle Malays as there are fierce Chinese. Such peculiarities as these the foster mother by wholesale will not be able to discover until years after her choices are made.

With all the obvious difficulties, however, the queer undertaking does have importance as well as interest, and not only as regards the children. That such an adoption could be even planned is significant, for seemingly it is the result of something quite different from the instinct of motherhood. That could not cover so broad a field—would never have suggested a plan that ignores "natural" repugnances so many and so strong. The adoption, if it occurs, cannot be more than legal—a product of scientific curiosity aroused by current discussion.

Clemency Ill Rewarded.

Something of criticism of Gov. BLEASE will be excited in South Carolina, it seems probable, as a result of the way in which the criminals pardoned by him are acting. For the beneficiaries of his widely inclusive clemency are failing, in what one would expect to be a startling number of cases, to make of their liberty such use as would prove that they deserved it.

Several of the ante-Thanksgiving lot of over 100 have fallen back already into the murder habit which caused their imprisonment, and others reveal that an original inability to distinguish between their own property and the property of their neighbors has not been removed either by justice or mercy. The thieves apparently think—as well they may—that the Governor has given them that "license to steal" which long since was recognized by humorists as highly desirable, and the victims of a homicidal tendency are doubtless congratulating themselves on the little risk they run in yielding to it.

In thinking imprisonment a crude device for either the prevention or the punishment of crime, Gov. BLEASE is not alone, by any means. Unlike most critics of the old penology, however, he proposes nothing except its practical abolition by scattering pardons broadcast. That, too, without exaggeration or undue harshness, can be called crude. It is also misuse of a power given, not to defeat the law, but to remedy its ascertained mistakes. This fact Gov. BLEASE seems not to know, or else he ignores it, which is perhaps more unfortunate.

To shut men up behind stone and steel is known to make them worse, in most instances, than they were before, and is therefore a pretty stupid proceeding, but for it there is at least the excuse that for the time being society is safe from their direct attacks. To set criminals free without any assurance or expectation that their reformation is accomplished or intended, lacks even that poor palliation, but it is Gov. BLEASE'S way.

A BLUNDER THAT SHOULD NOT BE REPEATED.

(From The Brooklyn Eagle.)

The present Subway should never have been built without provision for an express station at Times Square, the intersection of Broadway and Forty-second Street. The omission of such a station at that point and the confinement of a heavy traffic to the meagre facilities of a local station constituted a blunder which it is now seriously proposed to repeat in the construction of the Broadway line of the Brooklyn Rapid Transit Company's system. Merchants and hotel men in the immediate neighborhood of Times Square are doing their best to induce a change of plan on the part of the Public Service Commission, so that the express station which is projected for Forty-ninth Street shall be transferred to Times Square.

The most formidable, or at least the most conspicuous, argument against the change is that too much congestion would be created at one point with an express station side by side with a local station. To meet this objection it is proposed that the station on the Brooklyn Rapid Transit Company's line be placed under the Interborough station and that a concourse be built stretching from Forty-second to Forty-fourth Street and from the eastern side of Broadway to the western side of Seventh Avenue, to afford ample space for the distribution of passengers. The feasibility and cost of this arrangement must necessarily be determined by expert engineers, but whether this or some other plan be preferable, we believe that an express station should be built, and that the building of it is an undertaking of great public convenience which the experts should earnestly endeavor to accomplish rather than to obstruct.

Without the railroad traffic handled by the Grand Central Station, without the enormous advantages as a distributing point belonging to the Atlantic Avenue Station, without any of the express facilities at the Brooklyn Bridge and Fourteenth Street stations, the local station at Times Square already sells nearly 38,000 tickets a day. It has become the distributing point for a great and growing hotel, theatre, and store patronage. Proper express transit at that point is the especial concern of Brooklynites, who, in order to reach the heart of the uptown district of Manhattan, have to transfer from Brooklyn Subway trains at the Grand Central and to make a second transfer at the same point on their way home. When the case is fully presented to the Public Service Commission it will be surprising, indeed, if they do not reconsider their decision and place the express station where it will do the greatest good to the greatest number.

THE FORTY-SECOND STREET EXPRESS STATION.

[From The Brooklyn Standard Union.]

No sensible man need have any doubt where the uptown Manhattan west side stations of the B. R. T. subway should be placed to serve the public. At Thirty-third Street and the Pennsylvania-Long Island junction; at Forty-second and the Grand Central, New England, Long Island and Interborough systems, and at Fifty-ninth, where the line sweeps around to the east and the Queensboro Bridge, are the points which even a blind man can see must necessarily be those of stops and transfers of the greatest good for the greatest number.

Statistics of existing traffic demonstrate these conclusions, and there is no dobut that with increase of facilities, increase of demands, which can only be met by stations at these central, focal points, will be inevitable. A four-deck station at Times Square may, it is true, cost more at the beginning than a single, shallower one at Forty-eighth, but it will be much the cheapest in the long run; for time is money in this day and generation and nobody wants to be spending time and strength in making up that lost by others' stupidity or foolishness.

It will be a great pity if through pride of engineering opinion, penny-wise-and-pound-foolish economy, or any inside real estate speculation the free and effective use of this costly and magnificent system of transportation, through which the currents of travel, as of blood in the body, should circulate, is constricted, impeded and robbed of any part of its efficiency value. It would be a capital crime to add another example to the long list of blunders of bridges, stations, and terminals, which fail of their purpose and are monuments only to the wrong-headedness of the men who planned and built them.

Subway Station at 123d Street.

To the Editor of The New York Times:

Hundreds of hours of time and energy are wasted daily at the Broadway Subway, between 116th and 129th Streets. There should be by all means a Subway station at 123d Street and Broadway. There are thousands of persons who must daily spend time and energy to make a long surface trip from the immediate vicinity of 123d Street in order to reach a Subway entrance. It is a shame that there has not been an entrance put at 123d Street long before now. The population in this neighborhood is so dense now that the people have reached the limit of endurance.

JOHN EDWARD OBTER.
New York, Nov. 27, 1913.

LEIPSIC EXHIBITION

Should Have Support of American Printing Industries.

To the Editor of The New York Times:

The Department of State at Washington expresses the opinion that the time is now too short to obtain an appropriation and prepare and install a suitable national exhibit of the book and printing industries of the United States at the International Exhibit of the Book Industry and the Graphic Arts to be held at Leipsic, May to October, 1914. One may hope that this opinion is not final, and that Congress may still be induced to take action.

The printing business, together with paper making, book binding, type founding, engraving, lithographing, advertising, &c., forms one of the largest and certainly the most important of all the great enterprises of our country. The exhibit at Leipsic is international in scope. We have every assurance that it will be efficiently managed, and that a display from this country would be heartily welcomed and would receive generous consideration. It is not surprising that the Department of State finds it difficult to see how the United States Government can make an exhibition at this late day; but it is very surprising that the enormous printing, paper-making, book-publishing, and advertising interests of this country do not see at once that Germany is offering them an opportunity to exploit their activities which it would be very bad business policy to neglect.

Even if we were to assume that the direct results of the exhibit which Leipsic invites them to make will be small and not easily discovered, there still remain the good results which will of necessity follow the co-operation between all the great interests allied to printing in the preparing and adequate presentation to the world of the work they are doing.

We must assume that those engaged in the "production of print and picture," with all that the phrase implies, are well equipped, in both intelligence and self-interest, to see the value of their participation in a great world-wide exhibit of their industries. It should then be plain to them that an exhibition of printing and graphic arts, in the heart of one of the most progressive of modern nations, in a city long famous as the home of a great school of printing and of a great museum of the craft, confined by its very nature to a limited range of subjects and presenting those subjects in a full, elaborate, and intensive manner, offers an opportunity for the exploitation of our most important and most rapidly growing industry which should not be neglected.

J. C. DANA.
Newark, N. J., Nov. 28, 1913.

OLD LANDMARKS GOING.

Astor House Nearly the Last of Famous Broadway Hotels.

To the Editor of The New York Times:

The passing of the old Astor House and the demolition of the southern half of the building mark the disappearance of about the last of the old landmarks in lower New York. All of the formerly well-known hotels below Union Square have disappeared, and few of the present generation can recall more than one or two of them.

Broadway from time immemorial has always been the "Main Street" of New York. From the time of old Wouter Van Twiller, then Governor of New Amsterdam, down to the present time it has always been the centre of the life and bustle of the great metropolis. When the City Hall was built, in 1804, the upper end of Broadway was at Chambers Street, and the story is vouched for in history that the city authorities sought to economize by using brownstone for the north side or back of the building, instead of white marble, as it was so far uptown few people would see that side of the building, and the brownstone is there to-day, painted white to conform with the rest of the building.

Up to the early seventies nearly all the theatres and a large number of the hotels were below Fourteenth Street, Twenty-third Street being considered uptown, even as late as 1880. In addition to the Astor House, the old Stevens House was at Morris Street, the Merchants' Hotel on Greenwich Street, at the corner of Dey Street; French's Hotel on the site of the present Pulitzer Building, Delmonico's at Chambers Street, the Metropolitan at Prince Street, including Niblo's Garden; Grand Central (now Broadway Central) at Bond Street, the Prescott House, the Ashland, St. Nicholas, New York, (afterward Cranston's;) St. Denis, Sinclair House, all of these were below Fourteenth Street, with the Continental at Twenty-first Street, and the Langham at Twenty-second Street and Fifth Avenue. Of all the above the only ones left are the old Broadway Central and the St. Denis.

FLETCHER DU BOIS.
New York, Nov. 27, 1913.

Mrs. Sarah J. Hale.

To the Editor of The New York Times:

As one of the descendants of Mrs. Sarah Josepha Hale, I cordially thank you for your generous and just appreciation of her works, literary and otherwise. Her authorship of the poem, "Mary's Lamb," has been frequently denied, and I am glad to see that you have given your powerful testimony in her favor.

I do not know if her organization of a bazaar was meritorious, and I am inclined to believe that such as have had to attend her imitators' efforts do not bless her memory. But her motive, which you forgot to give, was certainly a good one. The money collected through that bazaar, and by her other efforts, was used to complete the Bunker Hill Monument at Boston, where it rears its proud head, but does not lie.

In regard to Mrs. Hale's relationship with the Canadian philologist you have fallen into a curious error, which I beg leave to correct. Horatio Hale was her son, the second of three, and not a connection by marriage. He married a lady of Canada and settled in that country, and on that account has been included in the British Dictionary of National Biography. He was born in 1817 at Newport, N. H., and never, to my knowledge, renounced his allegiance to America.

WILLIAM H. HALE.
New York, Nov. 27, 1913.

Thanksgiving Day Nuisances.

To the Editor of The New York Times:

I cannot say whether your recent editorial article, "Thanksgiving Nuisance," has had a good effect or not, but the "young brigands" to whom you then referred have been noticeably this Thanksgiving less of a nuisance than previous Thanksgivings. They at least have not been so abundant or so pertinacious in this Borough of Brooklyn. This is a step in the right direction.

But there are worse nuisances that need abating, among them cowbells and fishhorns, not to mention the nerve-racking din of a continuous inferno on most of our thoroughfares.

B. W.
Brooklyn, N. Y., Nov. 28, 1913.

Street Signs Cannot Be Seen.

To the Editor of The New York Times:

The names of our New York streets cannot be seen at night from approaching street cars, as they are in shadow. It would be well to have an additional sign on the side of each post facing the street cars, where it would come under the light of the lamps and could be plainly seen. This would be an advantage to both passengers and conductors.

New York, Nov. 28, 1913. O. R. C.

Don't Pay the Overcharge.

To the Editor of The New York Times:

I had occasion to use a taxicab to-day and was charged 15 cents over the new rate. I asked the chauffeur if they were not conforming to the new decisions. He replied, "No, because no one has notified us." Is that necessary, or when I use a taxicab should I refuse to pay the old rate and be driven to the station house?

MICH.
New York, Nov. 28, 1913.

ART NOTES.

French 18th Century Paintings at Fischer's—C. Calusd's Pictures.

The Boston Evening Transcript, in commenting on the purchase of Gainsborough's "Market Cart" by Judge Elbert H. Gary, speaks of it as the most recent Gainsborough to be "pried loose from Europe." It was bought from the Agnews, who paid, it will be remembered, $100,000 for it at Christie's several months ago. This particular firm has done rather a rushing business in Gainsboroughs. It sold to Mr. Morgan the famous "Duchess of Devonshire" and also the beautiful "Miss Linley and Her Brother," now on view in the Bond Street Gallery, and causing the English critics publicly to agonize because they are so soon to lose it. The portrait of "Mrs. Payne-Gallway and Son," by Reynolds, is in the same exhibition, and is extolled by the critics of the press on the same note of lamentation.

***

The Armenian painter, C. Calusd, is showing his pictures at 46 West Sixty-ninth Street until Dec. 22, under the auspices of H. H. Topakyan, Persian Consul General in New York. Mr. Calusd has painted a number of New York subjects, among them a canvas entitled "Castles of Wealth," which must be supposed fairly to fit our sky-scrapers as they are seen by the ambitious foreigner who seeks this particular harbor. The subject in which the artist shows himself at his best, however, is the open sea, where he is quite literally at home. He makes an almost exciting statement of cross movements of the waves and the great swell of the underlying currents for those who are happy at sea, and those who are not will hardly care to gaze long at his "Tremendously Ruffled." In "Belated Help" one gets a keen sensation of the cold salt air and stinging spray, and there are other pictures that proclaim the right of the painter to say something about midocean conditions. In marked contrast with these strong and genuine records of vigorous experience are the admirable little studies of farmyard subjects, cocks fighting, ducks preening themselves, nonchalant turkeys, all seen with an eye keen to catch the beauty of brilliant feathers against the tawny and neutral hues of the barnyard.

***

An exhibition of French eighteenth century pictures of unusual interest opened at the Fischer Galleries this week. There is a Watteau, strolling players and a background of verdure, which has been too drastically brightened up and has lost its characteristic mystery, but there are Paters which represent that excellent painter on his highest plane, with his native sturdiness of spirit somewhat subdued and refined to a more than usual delicacy of line, a more than usual daintiness of color. How gallant were the gentlemen, how gay the ladies in the eighteenth century gardens. One thinks of nothing but flowers. But they were not quite French flowers in Watteau's hands and Pater's. They had something of the robust quality of the Flemish roses that bloom in season and out, and speak of a race that grew strong plants and loved plump ladies. The Pater pictures come from the Jules Porges collection

François Hubert Drouais is light of hand and scrupulous in his delightful portrait of a lady with her dog, and Danleau is enchanting in his portrait of a little girl, her blonde hair brushed high above a face like a rose leaf, and her arms filled with flowers. Nettier is sincere beyond his habit in his fine portrait of the fat and fair Madame Miromesnil, and it is rare to see a better Largillière than this of Mademoiselle Duclos, the famous actress, as she appears in her armchair, her animated and intelligent face for the nonce assuming no other than its natural expression. This portrait is much to be preferred to that in Paris, where the lady is represented as somewhat too energetically flinging her arms toward the sympathetic heavens, and failing to triumph wholly over the disadvantages of embonpoint.

***

A loan exhibition of the works of Edouard Manet, retrospective in character, opens to-day at the new Durand-Ruel Galleries and gives the public an opportunity to trace the same untroubled development of the painter from the pictures he painted in Paris before he was thirty, through his "Spanish period," to the high and happy key of the river pictures painted with Monet on the Seine at Argenteuil.

First Dutch Sermon in 121 Years.

For the first time since the close of the eighteenth century a sermon in Dutch will be preached to-morrow in the First Reformed Church of Brooklyn, Seventh Avenue and Carroll Street. The preacher will be the Rev. Seth van der Werf of Michigan, Secretary of the Board of Domestic Missions of the Reformed Church. He is a native of Holland and will deliver a short sermon in Dutch, after the Rev. Dr. James M. Farrar, the pastor, has preached to the congregation at the morning service. In 1792, after a controversy, English supplanted Dutch in the service at the old First Church of Brooklyn.

Mr. Flexner's Appointment.

To the Editor of The New York Times:

My observation convinces me that Mr. Flexner's appointment to the Board of Education is most wise and admirable. Mr. Flexner's associates on the board will find him both able and ready to shed light upon perplexing questions, to co-operate, to confer, and to direct bewildered minds. His truly wonderful capacity in educational matters will inaugurate satisfying combinations in the educational system of the city, which will be found solid at any point.

Brooklyn, Nov. 28, 1913. W. P. M.

SUNSET SKIES.

Sunset Skies! Sunset Skies!
Light, in radiant protest dies;
Over the marsh a curlew flies;
A marsh-hen, hidden, hoarsely cries,
And coming Darkness, loud defies;
A plaintive note, her faith belies;
Home, from his quest, the fisher hies,
Warned by your beacons, Sunset Skies!

Sunset Skies! Sunset Skies!
Day, who the reign of gloom decries,
Paints his robes with your flaring dyes;
His mural crown first claim denies
To moon-crowned Night, whom he descries
Moving stealthily, to surprise;
Across the west, day's banner flies,
Bright with your colors, Sunset Skies!

Sunset Skies! Sunset Skies!
One last pennant, triumphant, flies
Defiance to Night's scornful eyes;
Passionate Day, reluctant, dies;
Roseate Water softly sighs,
And, sighing soft, the Wind replies;
Night flies no truce to Day's allies!
But, jealous, routs you, Sunset Skies!

Sunset Skies! Sunset Skies!
Visions of other lands arise,
Whose changeless splendor never dies;
Yet, I wonder if Paradise
Fairer seems to wakening eyes
That, weary of earth's tears and sighs,
Trials, sorrows, and sad good-byes,
Close to your beauty, Sunset Skies!

ANNIE O'CONNOR.

TAXI OWNERS WIN POINT AGAINST CITY

Need Not Show Books in Suit to Set Aside New Rates as Confiscatory.

WILL HASTEN THE TRIAL

Haverty's Counsel Advises Ignoring Ordinance in Serving Hotels After Magistrate's Decision.

The Yellow Taxicab Company won a point yesterday in its fight to resist the new public hack ordinance when the Appellate Division granted its appeal from an order obtained by the Corporation Counsel to inspect its books, papers, and documents. The court held that the city was not entitled to such an examination since the burden of proof that the new taxicab rates and conditions of business prescribed by the new ordinance were confiscatory was on the company.

The Corporation Counsel had asked for the inspection on the allegation that these papers and books were material to the most important question at issue, and that the city would be at a disadvantage if it could not inspect the books before trial.

The granting of the appeal also removes the ground for the city's objection to an immediate trial of the company's suit to break the ordinance, which was based on the allegation that it would take a long time to make the requisite examination of the company's data.

The Yellow Taxicab Company is the only large owner of taxicabs which failed to take out public licenses for its cars after the Appellate Division dismissed the temporary injunctions against the enforcement of the ordinance pending trial of the suits to break the injunction. Since this action of the court the company has been operating only as a private hackman, and has solicited no trade from the public stands which it formerly occupied as private stands under agreements with hotels.

Two non-union chauffeurs, John Binney and John O'Grady, who were arrested in the taxicab strike in which Mrs. Catharine Haverty played the leading part, were discharged yesterday by Magistrate Nolan in the Yorkville Court. The men were arrested because they did not have the proper license and by an arrangement with the Corporation Counsel and the District Attorney's office they were discharged because their alleged offense was committed before the Appellate Division dissolved the injunction restraining the operation of the new taxicab ordinance.

But Joseph W. Brown, counsel for Haverty's Taxicabs, which serve the Belmont and Murray Hill Hotels, said that the dismissal was in fact a decision against the legality of the ordinance so far as it applied to the hotels. He pointed to this section of the law:

> This ordinance shall not apply to or govern any vehicle hired or obtained from a livery stable or garage and which does not solicit patronage upon the streets; nor to any omnibus running by authority of any ordinance, law, charter, nor permit upon a fixed route through the city.

"The Haverty taxicabs that are set apart for the hotel service do not solicit patronage on the strets," said Mr. Browne, "and I maintain that Magistrate Nolan by his action to-day has expressed the same opinion. It is clear that a hotel may order as many taxicabs as it pleases in anticipation of trade, just as it may buy meat or coffee or anything else that is certain to be needed in the running of its business. The ordinance is subordinate to the rights of the abutting owners, and these owners have a right to have their vehicles stand in front of their property. The Appellate Division has held that the abutting owner has the right of free use of his easement, and this right is superior to any ordinance.

"The new ordinance is certainly faulty. In view of Magistrate Nolan's action to-day I shall instruct my clients to use the vehicles assigned to hotels as freely as they ever did, and to charge the same fares as were charged before the ordinance was enacted. If there is any interference from the authorities the interference will be restrained by the courts until the new issue raised by Magistrate Nolan's decision is settled."

O. K. WASHINGTON SURVEY.

Lines Run by First President When Lad of 19 Found Perfect.

WASHINGTON, Nov. 28.—George Washington's surveying done in 1751, when, as a lad of 19, he ran lines through the Virginia wilderness for Lord Fairfax, has been checked up by Government surveyors, who have found the work perfect. Washington, running his lines with primitive instruments and bonfires on hilltops, left monuments and boundaries to which technically educated surveyors, using high power transits and all the

Tcernikowsky.....Carl Schlegel
Conductor, Arturo Toscanini.

"Boris Godunow," by Moussorgsky, was recognized as one of the most interesting new productions of recent years at the Metropolitan Opera House last season, when it was heard for the first time in this country. Its repetition was therefore a foregone conclusion, and the performance of it last evening was welcomed. Its effect is produced notwithstanding the lack of certain operatic elements that might well make the conventional operatic manager suspicious of it.

There is no prima donna; the hero is a bass; the love interest is of an entirely episodic and unimportant character, and the chorus is raised to an interest and significance entirely out of keeping with the notion that makes a chorus an agreeable interlude and diversion, if that notion still anywhere survives.

The originality, native strength, almost barbaric wildness, and the potent expressiveness of Moussorgsky's music were again deeply felt. Its strength is often crude, often rude and rough. There is monotony in places; a sullen monotony; pitiless repetition, use of those 'ostinato"—obstinately repeated in passages—familiar in Russian music.

The music is racy of the Russian soil through the use of the Russian folk tunes that are wound so closely into its fibre, or of the spirit of those folk tunes that dominates it. Moussorgsky's harmony is bold, sometimes fiercely harsh, modern to-day in its effect, and its modernity is remarkable when the listener remembers that this work was composed in Russia forty years ago, and that, moreover, some of its venturesomeness has been modified by the cautious Rimsky Korsakoff's revision.

This elemental power in inspiration and execution, this vividness of emotional expression, this picturesqueness, and remoteness of scene, give the opera a strange power over the attention of the audience. There is a novel and seizing imaginative quality in the work, rude and unpolished as it is in certain passages, filled now with a grim sadness and gloom, now with boisterous gayety, now with weird and mystic fancy, and then with relentless power to a tragic culmination.

The performance last season was one of the triumphs of the Metropolitan's management, and its completeness and the success with which the dramatic and powerful effects, especially the representation of a cowed and finally rebellious populace, aimed at by the composer were realized. This success was fully repeated last evening. Again the chorus many times recalled and again it was the star performers of the occasion.

The stunning effects of the first and third scenes of the first act, and the first one of the last act, were fully realised. It was appropriate that after the first act Mr. Scotti, the stage manager, should have appeared with Mr. Didur to receive the applause that was given, even though probably few in the audience knew to whom they were paying tribute.

The cast of the principal solo singers was the same as last season, except that the Czarewitch Theodore was represented by a newcomer, Miss Sophie Braslau, and Miss Ober was cast as Marina, a role she had sung with distinction

MAKING OVER MARTHA

By JULIE M. LIPPMANN

THE FINAL TEST for the success of a book is in the book itself. Every now and then there appears a new book that through sheer intrinsic merit wins its way to the front. A year ago a new book and a new author appeared, unheralded and almost unknown, but the story, because of its merit, its human appeal, its sweet humor and delightful cheerfulness, surely won its way to the front. MARTHA BY-THE-DAY, of which it is said "no sweeter humor has been written into a book," has gone through 10 editions, and more people are buying it to-day than ever before.

MISS LIPPMANN has written a new book, MAKING OVER MARTHA, a larger, stronger and even happier story than MARTHA BY-THE-DAY.

Mr. Huebsch will send a description of his Fall books on request. These suggest the importance of the list:

EDWARD HOWARD GRIGGS

The Philosophy of Art

EDWARD HOWARD GRIGGS

What is Art? What does Art do to the artist who creates? What does Art do to the student who appreciates? These questions underlie this work which deals with sculpture, painting, dance and poetry. The author asserts that in art, as in commerce, mass is guarded and conserved but the fundamental result of creative energy is individuality. Art is the union of the form-idea, feeling and interpretation which [illegible] Art is [illegible] Art is [illegible] Art is

Macmillan's New Holiday Gift Books

THEODORE ROOSEVELT
AN AUTOBIOGRAPHY.
Colonel Roosevelt's Own Story of His Life.

This exceptional story of a life replete with human interest may be justly regarded as the official biography of Colonel Roosevelt, and also as one of the great literary events of the year. No more vivid picture of contemporaneous history probably will ever be written than this work presents.

Decorated cover. Illustrated. $2.00 net.

THE GOSPEL IN ART
By JOHN LA FARGE,
Author of "Considerations on Painting," etc.

Illustrated with 80 plates of famous paintings described in the text, elaborately bound, this volume, revealing Christianity as depicted by the great artists of the era, is not only one of the most valuable contributions to religious history, but also one of the most beautiful gift books of the season.

Decorated cover. Illustrated. $5.00 net.

MY LIFE WITH THE ESKIMO
By VILHJALMUR STEFANSSON,
A Great Explorer's Story.

A fascinating book of description and adventure by the famous traveler and explorer, who has passed years of his life within the Arctic circle. His account of the daily life of the primitive and master-of-fact Eskimo is shrewd, true, and frequently amusing.

Decorated cover. Illustrated. $3.00 net.

HUNTING THE ELEPHANT IN AFRICA
By CAPT. C. H. STIGAND
Introduction by Colonel Roosevelt.

The recital of over thirteen years' dramatic experiences in the hunting of big game in the jungles of East Africa. It embodies the spirit of the real hunter, and reveals many new points on the habits of the beasts of a wild country.

Cloth cover. Illustrated. $2.50 net.

AMERICA AS I SAW IT
By MRS. E. ALEC-TWEEDIE.

A sprightly, good-humored, keen account of American life by a witty English woman which, while probably not wholly acceptable, is written in such a way that the most sensitive cannot take offense.

Decorated covers. Illustrated. $3.00 net.

FLORENCE NIGHTINGALE
A BIOGRAPHY.
By SIR EDWARD T. COOK.
In Two Vols.

This discreetly, while enhancing the greatness of a noble life, possesses a special significance as correcting and supplementing what Sir Edward Cook describes as "a popular legend." Access to much intimate material enables the author to give the first full account of the life of Florence Nightingale.

Illustrated with photogravure portraits. $2.50 net.

BULWER LYTTON
A BIOGRAPHY.
By THE EARL OF LYTTON.
In Two Vols.

The authorized life of this distinguished 19th century author and statesman, written by his grandson, the present Earl of Lytton. This carefully written narrative enables the reader to form a true estimate of the celebrated novelist and diplomat's career and of his character as a man.

Photogravure Portraits and other Illustrations. Ready Shortly.

A HISTORY OF LAND MAMMALS IN THE WESTERN HEMISPHERE
By W. B. SCOTT,
Author of "Introduction to Geology."

The marvelous story of the development of animal life in North and South America and of the strange gigantic animal forms which have long ago vanished from the earth.

Cloth covers. Illustrated. $5.00 net.

A WOMAN RICE PLANTER
By PATIENCE PENNINGTON.
Introduction by Owen Wister.

The actual interesting and instructive experiences of a woman rice planter on her own account, as the business of two large plantations in South Carolina. Told in a charmingly facile style.

Cloth covers. Illustrated. $2.00 net.

AMERICAN IDEALS, CHARACTER AND LIFE
By HAMILTON WRIGHT MABIE.

A candid and sympathetic portrayal of Americans and their country, written by one who has for years been held in high regard in the educational and literary world.

Cloth covers. $1.50 net.

Macmillan's New Holiday Fiction

THE INSIDE OF THE CUP
By WINSTON CHURCHILL,
Author of "Richard Carvel," etc.

"The most profoundly interesting novel of the times. A book that will live."—*N. Y. Times.*

"A sign of the times and a book for the times which every one should read."—*Truth,* (London.)

Illustrated. $1.50 net.

THE VALLEY OF THE MOON
By JACK LONDON.

One of this author's best love stories, the hero again an unforgettable type. "American to the core. . . . A genuine idyl of young love."—*N. Y. Tribune.*

Illustrated. $1.35 net.

HERE ARE LADIES
By JOHN STEPHENS,
Author of "The Crock of Gold," "Insurrections," etc.

Another alluring book by this fascinating author, whose work, marked by skillful characterization and rich Irish humor, has excited such interest and curiosity.

Cloth, $1.25 net.

VAN CLEVE
By MARY S. WATTS,
Author of "Nathan Burke," "The Legacy," etc.

A modern story of sound American life developed around an interesting plot as inviting in its realism as this talented author's previous notable novels of historic import.

Cloth. $1.35 net.

THE STRANGER AT THE GATE
By MABEL OSGOOD WRIGHT.

A modern Christmas story of unforeseen happenings told in "genial Barbara's" most charming style.

Colored illustrations. $1.35 net.

The Unexpurgated Case Against Woman Suffrage

By

SIR ALMROTH E. WRIGHT, M. D., F. R. S.

Cloth, 12mo, 188 pages.....$1.00 net
(Sent prepaid on receipt of price)

"The author, out of his scientific investigation which is based on a knowledge of medicine and a careful consideration of the laws of political economy and of political philosophy, makes out an argument which merits most careful consideration."

MRS. ARTHUR M. DODGE, President
National Association Opposed to Woman Suffrage.

"He argues that woman, on the whole, is inferior in public experience and in public capacity to man. This does not mean that woman is inferior to man in other qualities equally necessary for the welfare of the State—it does mean that in politics she is out of the place she can render the most efficient service to the State."

WOMAN'S PROTEST, November, 1913.

PAUL B. HOEBER, Publisher, 69 East 59th Street, New York.

45th Street (Just west of 5th Avenue.) — G. P. Putnam's Sons — 23rd Street (Just west of 5th Avenue.)

An American Prima Donna
Memoirs of Clara Louise Kellogg.
A delightful book by this famous singer full of entertaining reminiscences about interesting people.
48 Illustrations. $2.50 net

The Most Important Biography of the Season
Henry Labouchere
Life by Algar Labouchere Thorold.
His biography is sure to be widely popular, partly from its amusing stories, partly from the picture it gives of a man who was as much admired and liked by half the world and disliked by the other.
With Portrait. $4.50 net

My Beloved South
By Mrs. T. P. O'Connor.
Mrs. O'Connor is a Southerner by birth and very much of a Southerner in feeling. Her book is a series of charming pictures of home and social life in half a dozen Southern States.
With Portrait. $2.50 net

Old Boston Post Road
By Stephen Jenkins
Every mile of this road from the Battery to Boston is full of historic interest.
200 Illustrations. $3.50 net

To the River Plate
By W. J. Holland
Director of the Carnegie Museum
The narrative of a journey of an American naturalist to Argentina by a man who as scientist, as artist, as man of letters, has attained enviable eminence.
Over 50 Illustrations. $3.50 net.

The Conquest of Mt. McKinley
By Belmore Brown
A thrilling book of daring mountaineering experiences, containing the story of three expeditions through the Alaskan Wilderness to Mount McKinley, North America's highest and most inaccessible mountain.
Over 100 Illustrations. $3.50 net

A Venetian June
By Anna Fuller
A beautiful holiday edition, with 16 illustrations in color, prepared from original paintings by Frederick S. Coburn.
$3.00 net

The South Land of North America
By George Palmer Putnam
An amusing and instructive and tempting account of travel in the by-ways just off the new highways in Central America.
100 Illustrations. $2.50 net

My Past
By Countess Marie Larisch
Reminiscences of the Courts of Austria and of Bavaria, giving the true story of the tragic death of Rudolph, Crown Prince of Austria.
21 Illustrations. $3.50 net

The Happy Prince and Other Tales
By Oscar Wilde
Full Page Colored Plates by Charles Robinson. 4to, $3.75 net.
Include the more important of Wilde's pretty fairy tales, in a beautiful setting.

Tom Brown's School Days
By Thomas Hughes
Elaborately Illustrated, including Plates in Color. $3.00 net.
A definitive edition of the most famous schoolboy classics, carefully annotated, the illustrations including contemporary prints, portraits of real characters, etc.

By the Author of "The Rosary"
The Broken Halo
By Florence L. Barclay.
It is only necessary to announce a new book by Mrs. Barclay. Her large reading public is always eagerly waiting.

By the Author of "Lavender and Old Lace."
Threads of Grey & Gold
By Myrtle Reed. *$1.50 net*
Characterized by the combination of humor and sentiment that belongs to all the writings of the author and that has endeared her to the large circle of readers.

Happy Women
By Myrtle Reed. *$1.50 net*
Dolly Madison — Queen Louise — Dorothy Wordsworth — Caroline Herschel — Elizabeth Browning — Charlotte Cushman — Lucretia Mott — Florence Nightingale — Sister Dora — Jenny Lind — Louisa Alcott — Queen Victoria
No more sympathetic writer could be found for a theme of the character of the book. These twelve women are naturally grouped through the beauty of their lives and the completion of their devotion to ideals.

The Quest of the Dream
By Edna Kingsley Wallace.
"The story is charmingly written; full of quaint fancies which at times remind one just a little bit of Barrie." —N. Y. Times.

Mrs. Barclay's Stories
The Rosary, $1.35
Illustrated Edition, $2.50
The Mistress of Shenstone, $1.35
Illustrated Edition, $2.50
The Following of the Star, $1.35
Illustrated Edition, $2.50
and others.

Myrtle Reed's Stories
Old Rose and Silver
Lavender and Old Lace
Master's Violin
and others.

New Novels Worth Reading

By the Author of "Poppy."
Wanderfoot
By Cynthia Stockley. *$1.35 net*
Like "Poppy" and "The Claw," the present story deals with the big issues of life that the characters confront.

By the Author of "The Way of an Eagle."
The Knave of Diamonds
By E. M. Dell. *$1.35 net*
"One of the most satisfactory love stories we have read in a long while."—N. Y. Globe.

The $1250.00 Prize Novel.
The Lure of the Little Drum
By Margaret Peterson. *$1.35 net*
"A well written nervous story by one who knows India thoroughly."—W. J. Locke.

Little Thank You
By Mrs. T. P. O'Connor. *$1.25 net*
"A gem; full of fascinating charm."—*Mrs. Barclay, author of "The Rosary."*

The Fringe of the Desert
By Rachel S. Macnamara.
$1.35 net
And the Wise Man said: "Those who love with passion stand on the Fringe of the Desert"; and they who heard laughed and passed on their way.

By the Author of "Down Our Street."
A Little Green World
By J. E. Buckrose. *$1.35 net*
"It is only at rare intervals that the ever-flowing tide of fiction discloses so dainty and charming a work of art as this delightful story."—N. Y. Times.

LANE'S HOLIDAY LIST

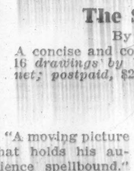
THINGS I REMEMBER
BY FREDERICK TOWNSEND MARTIN
Photogravure Frontispiece and other Illustrations. 8vo. Handsome Cloth. Gilt Top. $3.00 net.
Mr. Martin, a brother of the late Mr. Bradley Martin, is a familiar figure in New York and London society. He here recounts numerous interesting and amusing stories of well-known men and women, both British and American.
Piquant Society Recollections

ORIENTAL RUGS
BY WALTER A. HAWLEY
Antique and Modern Oriental Rugs
With 11 Color Plates, 80 Half-tone Engravings, including 4 Maps. 4to. Cloth. $7.50 net. Boxed.
This volume will be appreciated by all art lovers, as it deals with Oriental rugs in a comprehensive and exhaustive manner, including all the latest information upon the subject.

THE MECCAS OF THE WORLD
BY ANNE WARWICK
Author of "The Unknown Woman," etc.
19 Illustrations from Photographs. 8vo. Cloth. $2.00 net.
A "new kind" of travel book describing the life and manners of the principal modern capitals in a light and entertaining style. It includes the cities of New York, Paris, Vienna, Madrid and London.

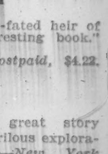
ROBERT FULTON
BY H. W. DICKINSON
An Important Biography
His Life and Work. With 31 Illustrations. 8vo. Cloth. $3.00 net.
"A portrait fair and true to the life of Robert Fulton."
New York Evening Sun.

THE SOUL OF PARIS
BY VERNER Z. REED
Delightful Travel Impressions
With Nine Illustrations by Ernest C. Peixotto. 8vo. Cloth. $2.50 net.
This book is the outcome of Mr. Reed's travels in many lands, and gives his impressions of Paris, the Desert, Egypt, the Sea, etc.



FROSTY FERGUSON STRATEGIST
A Christmas Story.
By Lowell Hardy. Illustrations by Will Crawford. 16mo. Cloth. 50 cents net.
How an unwelcome guest brought Christmas cheer into the desolate home of a Western rancher.

NANCY IN THE WOOD
By Marion Bryce. Cloth. $1.00 net.
A fanciful and idealistic fairy tale, with 8 full-page color plates and exquisite page decorations by Katherine Clausen.



STELLA MARIS
BY WILLIAM J. LOCKE
Author of "The Beloved Vagabond," etc.
With 8 Illustrations. Third Edition. Cloth. $1.35 net.
"Mr. Locke has never written a book that holds the attention more closely than this. Stella Maris is absolutely real."—*New York Times.*

JAPANESE FLOWER ARRANGEMENT
With a Colored Frontispiece and Numerous Illustrations by Japanese Artists. Large 8vo. Boards. $1.50 net. Explains the Japanese method of arranging cut flowers.

MARY AVERILL
A Charming Gift Book

THE VALLEY OF SHADOWS
BY FRANCIS GRIERSON
Author of "The Invincible Alliance"
The "Lincoln" Holiday Gift Book. New Holiday Edition. With 13 Full-page Color Plates. 12mo. Cloth. $1.50 net.
A new edition of a great work which tells in a wonderfully vivid manner of the author's own boyhood in Lincoln's country.

WELCOME TO OUR CITY
BY JULIAN STREET
Author of "The Need of Change," etc.
Profusely illustrated by James Montgomery Flagg and Wallace Morgan. 12mo. Decorated Cloth. $1.00 net.
In gay and satiric vein Mr. Street plays host to the stranger in New York and pilots him through our city.

BEHIND THE BEYOND
BY STEPHEN LEACOCK
Author of "Nonsense Novels," etc.
Colored Frontispiece and 16 illustrations. 12mo. Cloth. $1.00 net.
Mr. Leacock wants little introduction to the public after the extraordinary success of "Literary Lapses" and "Nonsense Novels." He is the natural successor to Mark Twain. His humor is the humor of an exceptionally fine cartoonist, being at once a caricature and a criticism of life.

LYRICS AND DRAMAS
BY STEPHEN PHILLIPS
Author of "Paolo and Francesca," etc.
Including "The King." 12mo. Cloth. $1.25 net.
A new volume, from one who stands alone, the premier poet-dramatist of his time.

THE LONELY DANCER
BY RICHARD LE GALLIENNE
Author of "The Quest of the Golden Girl," etc.
And Other Poems. Frontispiece. 12mo. Cloth. $1.50 net.
"An artist who brings to poetry a music that is grave and deep and a diction that is pure and clear."
—*Literary Digest.*

LITTLE, BROWN & CO., Publishers, 34 Beacon St., Boston.

Gnomes of the Saline Mountains
By Anna Goldmark Gross

A fantastic story, half fairy tale, is told by Mrs. Gross, who seems to be thoroughly familiar with the folk lores of Germany and Italy. As a result, these stories of love, desertion, and revenge are given a perfect setting.—*Los Angeles Express.*

The author's familiarity with life in the great cities of the old world has enabled her to paint an interesting and instructive background to these romantic stories.—*Baltimore American.*

Real life is pictured, notwithstanding the introduction of the Gnomes, and there is a great deal of human sympathy expressed in the stories.—*Dallas News.*

Laden with romance.—*Portland Oregonian.*

"The Gnomes of the Saline Mountains" is an excellent Christmas story and very suitable for a holiday gift book.—*Times, Jacksonville, Fla.*

FINANCIAL MARKETS

Irregular Price Movement, with Weakness in Special Issues —Call Money 10 Per Cent.

It was in a somewhat ragged market that trading was resumed on the Stock Exchange yesterday, but for the most part the weakness which was shown appeared in what are frequently classed as "special issues." The stocks naturally most prominent in the realm scattered relatively little in a people and in one of two instances possibly in Rock Island. There was no lack of stimulus from the outside, the international position of gold as between London and New York continued to be the most important factor in the day's market movement. Engineers representing an extensive organization demanded an increase in wages, and discussion and interference with the business of the railroads involved by the threatened strike was the subject of much comment. The weekly statement of the Bank of England, which the financial community had hoped to see it on the resumption of business yesterday, showed a fall both in gold which so far offset increased reserve requirements that the proportion of reserve to liabilities fell only a little over half of 1 per cent. At 54.38 it stands still well above the percentage at this date in most recent years. The sports holdings of the Bank of France increased slightly for the week, but the gain was small compared with the expansion in discounts.

MONEY AND EXCHANGE.

Money on call loaned on Stock Exchange collateral at 5@10 per cent, with the last loan at 6 per cent. The renewal rate was 7 per cent.

Time money rates were 5@5½ per cent. for sixty and ninety days, and 4½@5 per cent. for four, five and six months.

Commercial paper was quoted at 5¼@5¾ per cent. for 1-to best names.

Clearing House exchanges, $460,795,631; balances, $10,487,660; sub-Treasury credit balances, $5,037,000.

The local banks lost $5,037,000 on their sub-Treasury operations this week.

FOREIGN RATES.

Discount rates abroad yesterday were: London, 5 per cent. for short and 4 11-16 per cent. for three months' bills; Berlin, 5½ per cent.; Paris, 3½ per cent. Money was 4@4½ per cent. in London and 4½ per cent. in Berlin. Open market discount rate in Paris was 3 per cent.

The Berlin check rate on London was 20 marks 40½ pfennigs. The Paris check rate on London was 25 francs 29½ centimes.

Foreign exchange was quoted as follows:

CABLE AND EIGHT RATES.

Demand Sterling—High, $4.8625; low $4.8535; last, $4.8535.
London—Cable, $4.8536.
Paris—Cable, 5.20⅝ plus 1-32; check, 5.20⅝ less 1-32.
Berlin—Cable, 94¼ check, 94 11-16.
Switzerland—Cable, 5.21¼ less 1-32; check, 5.21¼.
Holland—Cable, 40.08; check, 40.04.
Belgium—Cable, 5.24⅜; check, 5.24⅝.

SIXTY AND NINETY DAY BILLS.

London—Bankers', (60 days, $4.81¼; 90 days, $4.79½.
London—Commercial, (60 days, $4.81; 90 days, $4.78.
London—Bankers, 60 days, 5.24⅝ plus 1-32; 90 days, 5.25⅛.
Paris—Commercial, 5.24⅝ less 1-16; 60 days, 5.20⅝ plus 1-32.
Berlin—Bankers', 60 days, 94; 90 days, 93⅞.
Berlin—Commercial, (60 days, 93⅞ plus 1-32; 90 days, 93⅝.
Amsterdam—Commercial, 60 days, 39.90; 90 days, 39.65.

DOMESTIC EXCHANGE RATES.

Boston, par; Chicago, 5c premium; St. Louis, 15c discount; St. Paul, 15c premium; San Francisco, 10c premium; Montreal, 65c discount.

SILVER QUOTATIONS.

Bar silver was 1d lower in London, at 26¾d, and 3/8c lower in New York, at 57½c per ounce.

METAL MARKET REPORTS.

At the Metal Exchange yesterday copper was dull and unchanged. Tin was steady. The closing bid and asked prices follow:

	Spot.		Future.	
	Bid.	Asked.	Bid.	Asked.
Standard Copper	14 3/8@	14 1/2@	14 1/4@	14 3/8@
Electrolytic Copper	14 3/8@	14 1/2@	14 1/4@	14 3/8@
Lake Copper	14 3/8@	14 1/2@	14 1/4@	14 3/8@
Tin	39.50	39.75	39.00	39.25
Lead	4.30@	4.35@	4.30@	4.35@
Spelter	5.90@	5.95@	5.90@	5.95@

London prices yesterday for copper and tin, compared with Thursday's follow:

	Friday.	Thursday.
Copper, spot	£63 15s	£63 15s
Copper, future	£64	£64
Tin, spot	£180	£180 10s
Tin, future	£181 10s	£181 10s

The market ended steady. Spanish pig iron, 42s 6d; ditto Sn 6d. Spelter, £20 12s 6d. Lead, £19 5s 6d. Cleveland warrants, 49s 4½d.

TOPICS IN WALL STREET.

Canada and Our Gold.

Montreal exchange on New York advanced slightly yesterday to a point where the discount was so slight as to leave very little profit on shipments of gold from this centre. It costs 15 cents to send $1,000 in gold coin by express to Montreal and the quotation of exchange at Montreal, as published in Wall Street in the late afternoon, indicated that New York drafts were carrying a discount of about 62½ cents to $1,000. One reason for the heavy flow of gold to Canada was that the banks desired to strengthen their reserve position for the end-of-the-year statement which is made up as of Nov. 30, and the being was expressed in some banking circles yesterday that there would somehow result in the movement of the funds to and the winding up of the affairs of the Dominion banks. Another element rumored to be considered here was the gold exports through our ports this Fall, an unusually large amount of which is supposed to be in transit to Canada. Reports of the movement of gold to Canada caused some uneasiness in the market for Canadian securities here, and prices declined. Stocks rose a point to 207, but returned only half the gain in the day.

URGES END OF WAR ON CORPORATIONS

Untermyer Notes Alarming Cessation of Business Activity All Over the Country.

RAILROADS MUST BE AIDED

Is for Pardoning Past Misdeeds and Restoring General Prosperity by Constructive Legislation.

Special to The New York Times.

SPRINGFIELD, Mass., Nov. 28.—Samuel Untermyer, arch foe of the so-called "Money Trust," speaking before the Economic Club here to-night, argued in favor of a halt in the investigation of past business misdeeds, advocated "living rates" for the railroads, declared the New York Stock Exchange had inaugurated "sweeping reforms," but still needed incorporation to regain public confidence, and proposed a Federal industrial commission to attend to the details of dissolving trusts and with power to authorize temporary agreements fixing prices and output.

"There has been a sudden and alarming cessation in business activity all over the country," said Mr. Untermyer, "and there is a consensus of opinion that it is not due to the changes in the tariff. The disturbances from that cause have been so surprisingly trifling. The business forecasts early in the year proved to be correct in every particular except one, and that was the unexpected shrinkage from that discussion and threatening of legislation affecting railroad securities. The uncertainty from pending and imminent legislation affecting the financial interests and the railroads is the principal cause of the present depression. The railroads should be allowed to maintain their properties and secure fair returns on their invested capital.

"It was inevitable that in a country whose industrial wealth had sprung up so suddenly and expanded so rapidly abuses should have developed due to the absence of experience that we did not have adequate laws to meet the changed conditions. It was essential that we should have a period of readjustment, during which some extent the error of the system and the remedies for its abuses should be applied. Some of the worst abuses have been corrected. Some of the most important remedies have been applied. The New Haven case in Connecticut, decided by the Supreme Court of the United States, and the Harriman case in New York, decided by the Court of Appeals, have established the principle that railroads cannot be permitted to acquire competing lines. The Stock Exchange has inaugurated sweeping reforms. Its governing committee has been reorganized, and the control of the Exchange placed in the hands of a committee of nine, five of whom are to be chosen from the general membership, and four from the public at large. The Exchange has also established a system of publicity of its transactions, and has adopted many other reforms. It is now engaged in perfecting a system of accounts for its members, and has appointed a committee to consider the question of incorporation. All these reforms are in the right direction, but they will not suffice to restore confidence. The Exchange should be incorporated, and its governing committee should be made responsible to the public for the proper conduct of its business.

"Another step in the right direction is the Federal Trade Commission Act, which has been signed by the President. It is a long step toward the prevention of unfair competition, but under its provisions the commission cannot prevent unfair competition until it has been practiced. It is powerless to prevent the formation of a trust, however monopolistic its purpose may be, unless it can be proved that the trust has already done something unfair. It is powerless to prevent the acquisition of competing lines by railroads, however necessary it may be for the railroads to do so in order to secure adequate facilities. It is powerless to prevent the acquisition of competing lines by railroads, however necessary it may be for the railroads to do so in order to secure adequate facilities. It is powerless to prevent the acquisition of competing lines by railroads, however necessary it may be for the railroads to do so in order to secure adequate facilities.

"Under a proper system of accounts a large proportion of the railroads of this country is theoretically bankrupt. Dr. Emory R. Johnson has put an end to the crediting of fictitious engagements of one railroad to another. Railroads cannot afford to pay dividends on fictitious values created by the issue of stock. The Government cannot afford to tax industries on fictitious values created by the issue of stock. The

COURT CALENDARS

STATE.

Appellate Division.

The Appellate Division, First Department, announced the following decisions yesterday:

George Hofman, appellant, vs. John L. Murray, respondent. Judgment and order affirmed, with costs. No opinion. Order filed.

THE REAL ESTATE FIELD

Courtwood Apartment On Heights Held at $325,000 Figures in Important Trade—Frederick Crowninshield Sells West End Avenue Home—Old Tichnor Grand Building Leased for Theatrical Enterprise.

The realty market despite the misfortunes of the New York Real Estate & Security Company showed considerable activity yesterday. The Washington Heights section furnishes an important deal in which a trade was involved. It includes the sale of the six-story apartment house known as the Courtwood, on the southwest corner of Broadway and 160th Street, by the Pomerose Realty Company to the Central Building and Investment Company, of which Herman Sohn is President. The apartment house, which covers a plot 86 by 160, has been held at $325,000.

In part payment Mr. Sohn's company gave a plot of ten lots being the block front on the west side of Northern Avenue between 179th and 180th Streets, held at $125,000. The new owners it was announced, have effected a resale of this property to the Maiden Construction Company, of which Charles Plaum is President, and they are preparing to erect on the site four five-story apartment houses.

The deal including the resale, was negotiated by William S. Pincus & Company, and Frederick Fox & Co. represented the Central Building and Investment Corporation, and Fox & Co. represented the Maiden Construction Company.

Artist Sells West End Ave. Home.

Frederick Crowninshield, the artist, has sold his residence at 314 West End Avenue. It covers a lot 16.11 by 47 and irregular, on the east side of the avenue a few feet south of Seventy-fifth Street. Pease & Pulman were the brokers, which has purchased for occupancy.

Old Theatre Lease Above Columbus Circle.

A transaction of more than ordinary interest, in that it means a big theatrical improvement for the Columbus Circle section, has been closed in the lease by a syndicate headed by Sol Bloom of the old Tichnor Grand Building at 1 to 7 West 61st Street, between Central Park West and Broadway, the Columbus Circle corner. It is planned to remodel the building into a modern theatre and to Sixty-second Street to correspond with the Century Theatre. The frontage on both streets is 75 feet.

Sol Bloom and his associates have leased the building for a long term of years, beginning next May 31, at an aggregate rental of about $150,000. The lease carries the privilege of the purchase of the property at the end of the term. The intention of the purchasers in the leasing of the theatrical enterprise is not definitely announced, but it is understood that it will be of a large and important character.

The brokers in the deal were Fish & Marvin and Frederick Fox & Co.

Elbridge T. Gerry Disposes of Lot.

The old three-story building at 133 Seventh Avenue, 21 by 75 feet, one of the first properties that came to possession of Commodore Elbridge T. Gerry, was sold yesterday for him by the Cruikshank Company to Moses G. Isaac.

The buyer owns the adjoining four-story stable property on the Seventh Avenue side, and now controls a plot 81 by 75 feet.

Harlem Apartments Sold.

An investor has purchased from the Edward Waters Construction Company and West 138th Street, a five-story flat on a plot 50 by 99.11.

John J. Clancy & Co. have sold for Jacob B. Holzroll to Hyde, Green and Samuel A. Hunter, 621 West 126th Street, a five-story tenement, on lot 25 by 99.11, between Broadway and Amsterdam Avenue.

Bronx Borough.

Michael Scanlon has purchased for investment from Henry H. Grote the five-story flat house on the southeast corner of Arthur Avenue and 180th Street. The parcel is known as 600 East 180th Street and has a frontage of 120 feet on the curve at that point. M. Mesereau negotiated the sale.

Peter J. McCoy has purchased from a client of Arnold, Byrne & Baumann the southwest corner of Third Avenue and 180th Street, a one-story building, containing six stores and the entrance to a lot fronting 25 feet on the street and 50 feet on the avenue. The property was held at $110,000 and was sold by the same brokers about six weeks ago for the J. F. M. Company.

In part payment the buyer gave the vacant block front on the west side of Grand Avenue, from 188th to 190th Street, containing over eleven lots.

Brooklyn.

In the Hill section Louis Arnold has sold 204 Carlton Avenue, a three-story and basement brownstone dwelling, 22 by 100, for Katharina D. Gravenhorst to a buyer for occupancy; also 606 Vanderbilt Avenue, a two-story and basement brick dwelling on a lot 20 by 80 for Milda Lovett of Ridgewood, N. J., to a buyer for investment.

Frank A. Seaver & Co. report the sale of the two-family brick house, 918 Seventy-fifth Street, for William Searing to an investor.

Vieo Brothers have sold, in conjunction with William H. Bourne, 132 Fourth Place, a three-story and basement, four-family brick building for Joseph F. Ryan and Frederick R. Stoll to Raffaele Tramontano, for investment.

Long Island.

The Windsor Land and Improvement Company sold at East Rockaway to W. E. Engelbrechts a plot, 40 by 110, on Baisley Avenue; to Overland Investment Company a plot, 120 by 110, on Fulton Street East; to V. Von der Lin a plot, 60 by 120, on Lawrence Street, and a plot, 40 by 100, on Rhame Avenue; to T. Swain a plot, 40 by 100, on Franklin Street. The same company sold at Floral Park to D. Dwane a plot, 40 by 100, on Geranium Avenue. The same company sold at Valley Stream to J. Fichel a plot, 40 by 100, on Albemarle Avenue.

Big Factory for Maspeth, L. I.

The C. B. French Cabinet Company manufacturer of telephone booths, purchased from Mary A. Proscher for a consideration of about $75,000 three acres at Maspeth. The property is adjacent to the Bushwick branch of the Long Island Railroad and has almost equal terminal facilities by water from its close proximity to Newtown Creek.

The company will erect a one-story factory having about 100,000 square feet of floor space and will employ about two hundred hands.

$500,000 For Queens Buildings.

The anticipated building revival in Queens was manifested this week, when the total of the applications for building permits shows that the operations totaled nearly half a million dollars. Superintendent Moore of the Building Bureau expected a large increase as a result of conferences he had previously held with builders in the borough regarding building instructions.

The total estimated cost of operations for the week was $464,699, of which there were 107 applications for new buildings at an estimated cost of $366,815; 41 applications for alterations at an estimated cost of $97,884, and 24 applications for demolitions at an estimated cost of $10,000.

New Jersey.

Kurz & Uren sold for Bischfeld Loewenthal a block of land, comprising seventy-two lots at Bee Harbor City to an investor.

The Uhlsdale Estate sold to Margaret A. Gilbert a corner property, 50 by 100, on Lake Avenue, Asbury Park, and Miss Gilbert sold a house on the same plot 50 by 100, on Lake Avenue.

Recent Buyers.

S. Morrill Hanner is the purchaser of the nine-story apartment house, on plot 82 by 100, at 178 East Seventeenth Street, recently sold privately by Everett & Co. to Edwin A. Corwin through E. A. Corwin & Co.

The estate of the late Dr. Charles McBurney sold to Dr. Eliot Cutler, 1,125 Park Avenue, a plot 25 by 100, on the southeast corner of Ninety-seventh Street and Park Avenue, on which stands the adjoining dwelling, No. 58.

Mortgage Loans Placed.

Brooks & Meinard have placed the following first mortgage loans: $25,000 at 5 per cent. on property belonging to the Wynne Construction Company, located at 466 East Fifth Street; $22,000 at 5½ per cent. on property of Mrs. Mary Ann Hoffman, located at 1,125 Park Avenue, and $8,000 at 5½ per cent. on property 421 West Seventeenth Street.

New Building on Blackwell's Island.

The only plan for new structures in Manhattan filed in the building bureau yesterday was for a three-story building on Blackwell's Island, to be used by the Commissioner of Public Charities. It was awarded to the Central Building and Investment Corporation, 1 to 7 West Sixty-first Street, and is to be of brick and stone construction, fireproof, and to cost $200,000. The architects are Hoppin & Koen, 1 West Sixty-first Street, and he has placed the cost at $300,000.

Lease Near New Pier.

Charles E. Herdt has negotiated a lease for twenty-one years for the estate of Bradish Johnson of three lots, 75 by 125, south side of Forty-ninth Street, 275 feet west of Seventh Avenue, one block from Daniel Parrott, dealer in building materials, who will erect brick and cement buildings for his own occupancy.

Commercial Leases.

The Berlin Renting Agency has leased to a client for a term of years the elevator apartment house known as the San Ramone, occupying the entire block on Amsterdam Avenue, from 141st Street to 142d Street.

The Guarantor Realty Corporation leased for Walter J. Salomon a store in the Bristol Building, on Fifth Avenue, to S. Ash Jewelry, for a term of years; also the store in the same building to I. Miller for a term of years.

THE WEATHER

WASHINGTON, Nov. 28.—Abnormally high pressure continues over the East but the low pressure over the South in connection with the high area has caused the persistence of the unsettled rainy weather over the middle and north districts east of the Mississippi River except in the South Atlantic and East Gulf States, with some snow in New York and New England. Moderate temperatures prevail in the Atlantic States.

There is no prospect of any immediate relief from the present unsettled weather east of the Rocky Mountains except in the Northwest. Rains will continue quite general on Saturday in New England and the Middle Atlantic States. On Sunday rains will be quite general over the east half of the country, while over the west half the weather will be generally fair.

Winds for Saturday and Sunday: North and Middle Atlantic, moderate east to southeast; South Atlantic, moderate east; East Gulf, moderate east and southeast.

FORECASTS FOR TO-DAY AND SUNDAY.

North New England—Rain or snow and warmer Saturday. Sunday, unsettled; probably local rains; moderate, variable winds, mostly east and southeast.

Eastern Pennsylvania and New Jersey—Continued unsettled weather Saturday and probably Sunday, with occasional rains; slightly warmer Saturday; moderate east to southeast winds.

Eastern New York—Rain in south, rain or snow in north portion, Saturday. Sunday, rain; moderate east to southeast winds.

South New England—Rain or snow in the interior; rains on the coast Saturday. Sunday, unsettled; probably rain; moderate east to southeast winds.

The temperature record for the twenty-four hours ended at midnight, taken from the thermometer at the local office of the United States Weather Bureau, is as follows:

1912.	1913.		1912.	1913.
3 A. M.....36	38	4 P. M.....35	46	
6 A. M.....38	38	6 P. M.....33	46	
9 A. M.....35	40	9 P. M.....31	47	
12 M.....36	43	11 P. M.....30	47	

This thermometer is 414 feet above the street level.

The temperature at 8 A. M. yesterday was 40; at 8 P. M. it was 47. Maximum temperature, 47 degrees at 8 P. M.; minimum 36 degrees at 12:01 A. M. Humidity, 75 per cent at 8 A. M.; 75 per cent, at 8 P. M.

The barometer at 8 A. M. yesterday registered 30.60 inches; at 8 P. M. it stood at 30.50 inches.

THE UNITED SERVICE.

Special to The New York Times.

The Army.

WASHINGTON Nov. 28.—Capt. J. A. Moore, Quartermaster Corps, having reported his arrival in New York City, will proceed to Boston for duty.

Orders of Sept. 11, relating to First Lieut. P. O. Drake, Medical Reserve Corps, is revoked.

First Lieut. H. A. McCune, Coast Artillery Corps, is relieved from assignment to the Twenty-eighth Company, placed on the unassigned list, to take effect Dec. 1, and will then report to the commanding officer, Coast Defenses of San Diego, for duty on his staff.

Capt. R. M. Talbott, Medical Corps, is detailed as a member of the examining board appointed to meet at the Army Medical School, Washington, May 3, vice Major F. F. Russell, hereby relieved.

First Lieut. J. W. Wallis, Coast Artillery Corps, is transferred from the Ninety-second Company to the Twenty-eighth Company, to take effect Dec. 1. He is relieved from treatment at the Letterman General Hospital, and will join his company.

Orders Nov. 18 relating to First Lieut. O. H. Schrader, Coast Artillery Corps, is revoked. Lieut. Schrader is assigned to the Ninety-second Company, to take effect upon his relief from duty at the Coast Artillery School, Fort Monroe, Va.

Leaves: Capt. H. L. Morse, Coast Artillery Corps, one month; Major J. A. Murtagh, Medical Corps, three months (upon the expiration of this leave he will proceed to the Letterman General Hospital for treatment;) Major J. R. M. Taylor, infantry, military attache, one month; Second Lieut. C. B. Thummel, Fifth Field Artillery, seven days.

The Navy.

Capt. J. D. McDonald, to Naval War College, Newport, R. I.

Ensign F. A. Daubin, to command the C-4.

Ensign W. A. Shaw, detached the Reina Mercedes, to the Georgia.

Ensign C. M. Elder, detached the Ozark, to the Severn.

Ensign J. L. Hall, Jr., detached Reina Mercedes, to the Hannibal.

Ensign Holbrook Gibson, detached command the C-4, to connection fitting out the K-5 and to command when commissioned.

Surgeon J. Steph, detached the Montana, to the Prairie.

Passed Assistant Surgeon P. R. Stalnaker, detached navy yard, New York, to the Prairie.

Passed Assistant Surgeon H. L. Kelley, detached the North Carolina, to the Prairie.

Chief Boatswain J. Laven, detached the Ranger, wait orders.

Paymaster's Clerk H. W. Crider, appointed naval training station, Newport, R. I.

Paymaster's Clerk T. A. Henry, resignation accepted.

Marine Corps.

Lieut. Col. W. B. Lemly, A. Q. M., detached headquarters Marine Corps, to depot of supplies, Philadelphia.

Major H. Matthews, A. Q. M., detached depot of supplies, Philadelphia, to depot of supplies, San Francisco.

Major N. G. Burton, A. Q. M., detached depot of supplies, San Francisco, to Philippine Islands.

Major H. L. Roosevelt, A. Q. M., detached Philippines, to the United States.

Capt. R. H. Davis, A. Q. M., detached Headquarters Marine Corps, to Camp Elliott, Panama.

Capt. E. Halford, A. Q. M., detached Camp Elliott, Panama, to depot of supplies, Philadelphia.

Second Lieuts. M. H. Kingman, J. F. Norris, A. Kingston, J. Lunderhill, and C. S. Baker, to Marine Officers' School, Norfolk.

The following officers have been ordered to duty in the second advance base regiment: Lieut. Col. J. A. Lejeune, Major F. S. Brown, Major W. C. Neville, Capt. J. R. Horton, A. Q. M., Capt. R. R. Putnam, A. Q. M., Capt. F. F. Delano, Capt. C. C. Campbell, Capt T. C. Turner, Capt. J. A. Hughes, Capt. W. N. Hill, Capt. E. T. Fryer, Capt. F. A. Ramsey, First Lieut. B. S. Berry, First Lieut. T. E. Thrasher, Jr., First Lieut. G. H. Osterhout, Jr., First Lieut. A. W. Voeth, First Lieut. E. H. Conger, First Lieut. R. L. Shepard, First Lieut. E. B. Cole, First Lieut. A. M. Robbins, First Lieut. W. G. Emory, First Lieut. C. D. Bishop, First Lieut. R. S. Kingsbury, Second Lieut. R. D. Lowell, Second Lieut. L. S. Wass, Second Lieut. R. E. Brumbaug, Second Lieut. L. G. Van Hoose, and Paymaster Clerk H. H. Rudolph.

Movements of Naval Vessels.

Arrived—Chester at Key West; Rhode Island at Tampico; Birmingham, at Montevideo; Rocket, at Norfolk; Iroquois, at Mare Island; Denver, at San Francisco; Dolphin, off Forty-first Street, North River, New York City, and Ozlob, at Genoa.

Sailed—Arethusa, from Guantanamo for Port Arthur, Texas; Eagle, from Port au Prince for Guantanamo; Culgoa, from New York Yard for Lynn Haven Bay, Florida; Preston, from Charleston for New York; Prairie, from Philadelphia for Pensacola; Solace from Villefranche for Gibraltar, and Galveston. Piscataqua, and the Ajax, from Guam for Olongapo.

The Montgomery will be replaced by the Montana as torpedo practice ship. The Montgomery will abandon the Winter's programme and will proceed from Portsmouth, N. H., to Philadelphia, to go out of commission. The Montana will later be attached to the Atlantic fleet.

The commander, torpedo flotilla, Atlantic Fleet, has been directed to put into effect at once the following organization of the flotilla: First Division (in reserve)—Flusser, Jamson, Preston, Reid, Smith; Second Division (in reserve) Monaghan, Walke, Sterett, Perkins, Terry and Roe. Third Division —Henley, Mayrant, Earrington, Drayton and McCall; Fourth Division—Paulding, Ammen, Burrows, Patterson and Trippe. Fifth Division—Jouett, Jenkins, Fanning, Beale and Jarvis. The home yard of the Paulding, however, will not be changed from New York to Boston until Jan 1.

Upon the arrival of the Cassin at Pensacola about Dec. 8, the Sixth Division will be organized, constituted of the Cassin, Cummings and Duncan. The Downes will be assigned to the Sixth Division upon joining the flotilla.

The Aylwin, Balch, Benham and Parker will constitute the Seventh Division upon joining the flotilla.

The Stringham has been stricken from the Navy register.

Revenue Cutter Service.

First Lieut. W. A. Wiley, detached from the Acushnet, upon relief, to Golden Gate.

First Lieut. L. C. Satterlee, detached from duty in Life Saving Service, upon relief, to the Acushnet.

Second Lieut. C. H. Jones, detached from duty as Supervisor of Anchorages at Chicago, to the Gresham.

Capt. W. W. Joynes, detached from the Miami, to the Yamhill, upon relief.

Third Lieut. L. S. Klinger, detached from the Mackinac, when that vessel is placed out of commission, to the Apache.

Third Lieut. C. C. Von Paulsen, to the guard for temporary duty.

Capt. G. J. Balinger, detached from the Bear upon arrival at San Francisco, order of Nov. 7 amended.

Second Lieut. of Engineers J. W. Glover, to Coatesville, Penn., on official business.

Leaves: Second Lieut. of Engineers E. Reed-Hill, three days; Second Lieut. R. W. Dempwolf, 60 days; Capt. J. H. Brown, 15 days.

EDUCATION NOTES.

The Board of Education has found George E. Butterfield, janitor of Public Schools 98 and 98C, Manhattan, guilty of certain of the charges preferred against him by the Supervisor of Janitors, has fined him for the period of his suspension, has restored him to duty, and has assigned him to Public School 111, Manhattan. It has also found Sidney E. Norton, janitor of Public School 41, Brooklyn, guilty of charges preferred against him by the Supervisor of Buildings, has fined him for the period of his suspension, has restored him to duty and has assigned him to Public School 49, Brooklyn.

It has been decided to renew the lease of the premises at 544 East 147th Street, the Bronx, occupied as an annex to Public School 27, and also to renew the lease of the premises at 245 Concord Street, Brooklyn, occupied as an annex to Public School 14.

Thomas Manley has received a provisional appointment as a first grade clerk in the Bureau of Supplies of the Department of Education.

The resignation of Edith Sherrick as a stenographer and typewriter in the City Superintendent's office has been accepted, and W. Harold Brown has received an emergency appointment to fill the vacancy.

Permission has been granted for the appointment of an additional teacher in Public School 115, Brooklyn, for ten days during December.

Thomas Slowey, janitor, has been transferred from Public School 111 to Public School 98B and 98C, Manhattan.

Marie I. Raoux has been promoted from tutor to instructor in French in the Normal College.

On Dec. 30 and 31, beginning at 9 A. M., examinations will be held in the Normal College for women who wish to gain positions on the eligible lists for college instructors and high school tutors. The examinations will include only the following departments of study:

College—Latin and Greek, natural science, education, pedagogy, music, physiology, and hygiene.

High School—Natural science, physics, history, music.

A bulletin of information will be sent upon application to Secretary Ernest C. Hunt.

The next meeting of the Board of Education will be held on Dec. 10. The election for President of the board will take place on Feb. 2.

The terms of two of the Associate City Superintendents will expire in 1914, viz.: John H. Haaren, on June 30, and Andrew W Edson, on Sept. 23. The terms of office of three District Superintendents will expire in 1914, viz.: John Dewey, on June 30; Henry W. Jameson, on July 7, and Benjamin Veit, on Oct. 13. The term of Walter L. Hervey of the Board of Examiners will expire on Sept. 27, 1914, and the term of office of Supervisor of Lectures Henry M. Leipziger will expire on Feb. 2, 1914.

COLLISION AND FIRE ON THE ELEVATED

Five Hurt as Two Trains Smash at Chatham Square Station.

PLATFORM ROOF TORN OFF

City Hall Motorman Passed Signal, Officials Say, and Rammed South Ferry Train.

Two north-bound trains on the Third Avenue elevated line, one coming up from South Ferry and the other from City Hall, tried to make the Chatham Square Station, where the tracks converge, at the same instant yesterday afternoon. The result was a rear-end collision in which five persons were badly shaken up, the two trains were set on fire, and Chatham Square Station was jolted and crumpled up so that repairs estimated to cost $2,000 will be necessary.

The motor car of the rear train, from City Hall, on smashing into the South Ferry train ahead, rose from its trucks, lunged itself on to the station platform, and butted out a section of the platform roof. Had the car lunged to the right, instead of to the left, it would have toppled over the elevated structure and dropped down on the traffic in the street below.

The busy intersection of the Bowery with Mott, Doyers, Oliver, and Worth Streets, East Broadway, and Park Row saw an electric display, with an accompaniment of flying splinters, followed by fire, that started several runaways and scared pedestrians.

Women passengers in both trains screamed, while men fought their way to the platform of the Chatham Square station and to the street. In the confusion of the wreck it appeared that several passengers were seriously hurt, and calls were sent to Gouverneur and Bellevue Hospitals for all available ambulances.

Dr. Gibson of Gouverneur, who was the first to arrive, found only one passenger hurt seriously enough to need medical attendance. This was Israel Herman of 511 East 148th Street, who had been cut over the eye by a flying splinter. He refused to go to a hospital. Herman was the only passenger in the forward car of the City Hall train. The others hurt were in the rear car of the South Ferry train. They were Morris Greenberg, 10 Elizabeth Street; Samuel Klein, 1,326 Third Avenue; Morris Schachner, 240 East 102d Street, and Peter Grady, conductor. All went to their homes.

When other ambulances arrived along with the fire apparatus they were sent back by the police, so as not to hinder the firemen. The rapidly spreading flames were first noticed by electric flashes from the third rail. Men from Engine Company No. 9 in East Broadway found flames licking up both sides of the wrecked trains and the elevated structure platform above. They at once threw in a stream of water and thus made sure that the current had been turned off at Ninth Street. After that it took only a few minutes to bring the flames under control, and within fifteen minutes the fire was out.

John Bratten of 3,114 Third Avenue, the Bronx, second motorman of the City Hall train, told officials that after he had passed the Canal Street station he noticed that the train was making unusual speed. He was standing in the motorman's cab at the time. It was raining hard, and the night was dark, and it had been misty and foggy all the afternoon.

After the first shock of the collision Bratten heard screams coming from the car behind him. He saw the destruction of his car ahead crumpled up and the roof gone. Then he ran to the rear car to make room for those on the platform. A platform guard, he said, had come to the front platform before the train reached the station and had opened the platform gate. Bratten said that he had not seen the signal for the station at Market Borough, England, and he was asked that if the order be not issued some definite information be furnished concerning the time of the defendant's arrival in this country.

Mooney said that young Belmont was one of the guests of Sir Bache Cunard at Market Borough, England, and he
